were more in amount than the works of any other English author."

William Taylor tells of a young preacher who took his audience on this wonderful flight of fancy:

"Yes, my friends, the mind of man is so expansive that it can soar from star to star, from satchelite to satchelite, and from seraphine to seraphine, and from cherrybeam to cherrybeam, and from thence to the centre of the dome of heaven."

The young man's mind was considered too expansive for the practical work of the ministry.

There seems to be a savage element in French blood which will show itself when restraint is removed. Perhaps the worst modern instance of butchery in war is one described in a letter from a French officer in Annam, who tells how unresisting men were slaughtered by hundreds while running and begging for quarter. It is a disgrace to Christendom. We remember that it is not Englishmen, but Frenchmen whom we find among our Western Indians, adopting their habits, sunk to their level, and never lifting up those about them. But it is not in "the blood," but in the lack of a persuasive, authoritative moral education.

Rev. Samuel W. Dike, Secretary of the New England Divorce Reform League, gave some interesting statistics concerning divorce in a recent lecture at Philadelphia. The statistics are chiefly remarkable for the alarming increase which they show during the past few years, and especially during the past two or three years. In Maine there were 587 divorces granted in 1882 an increase of nearly 50 per cent. during the last 20 years. New Hampshire has increased her divorces from 107 in 1860 to 314 in 1882; Massachusetts, from 243 to 600 in the same length of time; Connecticut, from 14 in 1849 to 445 in 1880, and Rhode Island from 162 during 1869 to 261 in 1882. In four of the New England States, where 720 divorces were granted in 1860, there were 1109 in 1870 and 1439 in 1878.

Another earthquake is added to the list of those destructive convulsions with which places far apart have been visited during the present year. This time the Island of Scio and the Anatolian peninsula have been the scenes of great loss of life and destruction of property. Usually rumours of such calamities are greatly exaggerated. In these instances the ascertained facts surpass the first intimations received. In the case of the Ischian earthquake, and the convulsion in the Straits of Sunda, each day added to the number of the victims that had perished, so in regard to the latest horror of the kind in Asia Minor the first despatches did not give any adequate idea of the number of the killed. The number given is about two thousand, while the value of the property destroyed is not yet correctly ascertained. The present year will be a painfully memorable one to many.

LITERARY NOTES.

Last summeer, THE CENTURY MAGAZINE chartered a schooner, and sent Mr. S. G. W. Benjamin, the present United States Minister to Persia, writer, and Mr. Burns, artist, on a trip in and around the Gulf of St. Lawrence. The result of the expedition will appear in a series of papers of observation and adventure to be published during the coming year in THE CENTURY, which is to include an account of Prince Edward Island, the east shore of New Brunswick, the west coast of Newfoundland, the Madeleine Islands, Cape Breton, etc., etc. In addition to the interest of a salt water cruise, as related by an experienced sailor and writer, the papers will also describe the scenery, people, fisheries, and other aspects of this very attractive and imperfectly known region.

THE HOMILETIC MONTHLY for November will be found quite up to the high standard of excellence to which it has attained. The discourses of Drs. Kittridge and Carpenter in the Sermonic Department cannot fail to interest and edify the reader, while the several condensed sermons by other well-known preachers are full of thought and suggestion. The continued papers, such as "Prayer-meeting Service," Dr. Broadus' "Estimate of Noted Preachers," Dr. Ormiston's "Commentary on the Epistle of James," "Best Methods of Preaching," Dr. Chambers' "Misquoted Scriptures," and "Things New and Old," are deserving of careful attention. Dr. Philip Schaff's paper on the "Oldest Christian Sermon" will be read with rare interest, and Dr. Samson's "New Reading of Familiar Texts," and Rabbi Max Moll's brief papers, are worthy of critical scrutiny. The various editorial departments, as usual, are crowded with matter, "new and old," suggestive of timely practical themes for inquiry and discussion both in the pulpit and in pastoral work. The arrangements for future numbers insure a greatly enlarged scope of subjects, treated by many of the ablest writers, both of the old world and the new. $2.50 a year; 25 cents a single number. Funk & Wagnalls, 10 and 12 Dey Street, New York.

☞ Nov. 29th is Thanksgiving Day in the United States.

☞ The dedication of the new Baptist Church in Fredericton is to take place next Sabbath.

☞ Notice of the dedication of the Apohaqui Free Baptist Church will be found on the next page.

☞ Philip Phillips, the "Singing Pilgrim," has returned to this country, having accomplished his tour around the world, and sung the Gospel in 3,300 services in nearly all the lands.

Wild cats are now plying their destructive game of killing sheep in Kingston Kings County. In this locality eight sheep have been killed within ten days. A most remarkable thing is, not any of the flesh is eaten. The large vein in the neck is opened and the blood is sucked out, which it would appear is all that is required by these destructive animals.

The Moncton *Times* of Saturday says:—Mrs. McCann is improving very fast, and her ultimate recovery is now fully assured. We are sorry to report that the unfortunate affair is still shrouded in mystery; but the determination is expressed by officers having charge of the search to ferret out the perpetrator of the dastardly act, if possible.

The Metropolitan and District Railway Companies offer an additional reward of £500. "THEIR OCCUPATION GONE."

R. V. PIERCE, M. D., Buffalo, N. Y.: I was attacked with congestion of the lungs, soreness over the liver, severe pain in the joints, burning fever and general giving way of the whole system. Failing to find relief in remedies prescribed, I tried your "Golden Medical Discovery." It effected my entire cure. Your medicines have only to be used to be appreciated. If every family would give them a trial, nine-tenths of the doctors would, like Othello, find their occupation gone. Yours truly,

BEWARE OF IMITATIONS.

Since Dr. Thomas' Eclectric Oil has become celebrated, a number of unprinciple persons have been endeavoring to palm off Electron and Electric Oil for the genuine DR. THOMAS' ECLECTRIC OIL. Beware of these similar named articles. If their originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell them on the reputation of another; but as they know their preparations have no merit they resort to the most unprincipled means of selling them by getting a name as near as possible to *Eclectric.* We therefore ask the public when purchasing to see that the name Dr. Thomas' Eclectric Oil is on the front of the wrapper, and the signature of NORTHROP & LYMAN, the proprietors for Canada on the back.

A QUERY ANSWERED.

People often ask when is the best time to take a blood purifier? We answer, the best time is now. Burdock Blood Bitters does its work of purifying, regulating, and toning the system at all times and all seasons. Purity in all things is always in order when required. hm

This Balsam will soothe your irritable membranes, and give indescribable relief from that torturing cough. If taken at bed-time it will give sound, unbroken, and refreshing rest.

A GOOD INTRODUCTION.

J. Kennedy, a merchant in Dixle, about three years ago introduced Hagyard's Pectoral Balsam to his customers by trying it in his own family for Coughs and Colds. Being pleased with results, large sales followed, and it is now the favorite remedy in that neighborhood. hm

COULD HARDLY STAND ON HER FEET.

R. V. PIERCE, M. D., Buffalo, N. Y.: *Dear Sir*—I *must* tell you what your medicine has done for me. Before taking your "Favorite Prescription" I could hardly stand on my feet, but, by following your advice, I am perfectly cured. The "Favorite Prescription" is a wonderful medicine for debilitated and nervous females. I cannot express how thankful I am to you for your advice.

Yours truly,
MRS. CORNELIA ALLISON, Peosta, Ia.

The quickest and surest remedy for subduing pains, taking soreness out of harness galls, sore shoulder, is Dr. Dow's Sturgeon Oil Liniment. If you want to relieve the pain successfully you must use the doctor's preparation.

MOTHER SWAN'S WORM SYRUP.

Infallible, tasteless, harmless, cathartic; for feverishness, restlessness, worms, constipation. 25c.

FURRED TONGUE AND IMPURE BREATH are two concomitants of biliousness remedied by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Heartburn, which harasses the dyspeptic after meals, and all their perplexing and changeful symptoms of established indigestion, are dispersed by this salutary corrective tonic and celebrated blood purifier.

CROUP AND DIPHTHERITIC CROUP, which are so frequently fatal in their attacks, often yield readily to a thorough application of "*Penetrating*" Liniment. No household, which is enlivened by the presence of children, is safe without a supply of this medicine. A bottle kept on hand for timely use has saved many a family from years of unavailing regret. For sale by all druggists and general dealers in Canada.

NO LADY who delights in flowers, and likes to see them do well and bloom abundantly, should be without *Hanington's Food for Flowers.* Ordinary packages 30c.—sufficient for twenty plants for one year. nov2—1m

IT MATTERS LITTLE by what name we designate such complaints as Scrofula, Erysipelas, Salt Rheum, and all skin eruptions, their *origin is in the blood,* and by the use of no outward application can a cure be effected. The blood must be purified and the stomach kept in a healthy condition. To do this use Hanington's Quinine Wine and Iron, and Tonic Dinner Pills. Beware of imitations. See that you get "Hanington's," "the *original* and *genuine.* For sale by all druggists and general dealers in Canada. nov2—1m.

ANOTHER WITNESS.

A. Chard, of Sterling, testifies to the efficacy of Hagyard's Yellow Oil, which he used for a badly injured knee joint. It is the great household remedy for inflammation, pain, soreness, lameness, etc., and is used both internally and externally with infallible success. hm

We call the attention of our lady readers to the advertisement in our columns of James Pyle's Pearline, for laundry and kitchen purposes. An article so popular and widely circulated, must possess merits that commend it to favor of housekeepers. nov2—1m

Dr. Wilson's Anti-bilious Pills relieve constipation, correct acidity of the stomach, increase the appetite, so that the coarsest food is relished. When this is accomplished, all other complaints must yield to the restoring influence of these Pills; and returning strength of the vital functions will prevent the nervous and other distressing symptoms which none but sufferers can describe.

O. Bortle, of Manchester, Ontario Co., N. Y., writes: "I obtained immediate relief from the use of Dr. Thomas' Eclectric Oil. I have had asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession, I can now sleep soundly all night on a feather bed, which I had not been able to do previously to using the Oil."

A WRONG OPINION

Many a dollar is paid for prescriptions for some disease that never troubled the patient, and when the sole difficulty was worms, which a few Freeman's Worm Powders would remove. These Powders are pleasant, safe, and sure, contain their own cathartic, and are adapted for children or adults. hm

Mr. R. A. Harrison, Chemist and Druggist, Dunville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation—such cases having come under my personal observation."

Whooping cough is successfully treated by separating the patients beyond hearing distance of each other and by the employment of Fellows' Hypophosphites. Whooping cough is a nervous disease of so sympathetic a nature that a paroxysm may be produced in one susceptible by simply hearing the cough of another person. The above named treatment has been found singularly effective.

A WONDERFUL RESULT.

A single bottle of Dr. Low's Pleasant Worm Syrup has frequently destroyed from 100 to 200 worms. It is pleasant to take—no other cathartic being required. Tape worms have also been removed by it, 15 to 35 feet in length. It is effectual for all varieties of worms afflicting both children and adults. hm

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1867 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.
HORACE FAIRBROTHER."
Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,
MRS. EMMA GEDNEY."
159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.
A. J. CRANE."
Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALDEN."
Bylalia, Miss., April 3, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. E. BEAGDON."
Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.
