villages have been built up. 150,000 palm-trees set out, and 1,000 gardens created where there was once no habitation.

A Scotch farmer determined, in spite of the bad times, to pay his rent, if it were his last shilling; and, saying to the landlord who received it, "It is my last shilling," he threw down a roll of notes. The landlord counted them, and said: "There is fifty pounds too much." "Odds, man," said the farmer, "I put my hand on the wrong pouch."

Hon. David Dudley Field in speaking of the desirability of doing away with superfluous words in legal documents, said that the people of this State pay over $100,000 a year for such words. In ordinary deeds of transfer there are 950 words 860 of which are superfluous, and in ordinary mortgage forms there are 1,500 words, 1,240 of which are superfluous.

The Jewish reformer in Southern Russia, Joseph Rabinowitz, is now experiencing a bitter persecution on the part of the Jews. He has been compelled to leave his residence and has lost all his clients as a lawyer, and his means of subsistence are gone. His letters are full of expressions indicating a love of the truth and devotion to Jesus Christ as the Messiah.

Russia has resolved to Russianize the Germans along the Baltic. The Czar has issued a decree which puts Russian in the place of German in the public schools. The success of similar efforts in Poland has been far from perfect, and the Baltic Germans may find means to evade the decree. Russia is a patch-work of races and languages, and every extension of her growing frontiers increases these perilous differences.

A reliable statistician estimates that not less than 400,000 men are robbed of their seventh-day rest by American railroad corporations. This means something like 400,000 homes where reverence for and observance of the Sabbath are impaired. It means that children by the hundred thousand are growing up in an atmosphere of Sabbath desecration and that by so much all sacred things are less hallowed, and life itself has lost the significance of best days and best deeds.

In a sermon in Pittsburg, Pa., the Rev. Mr. Moody said: "A Sunday School teacher tried to illustrate the free grace of salvation by offering his watch to the members of his class. They each one refused it until he came to the smallest boy. He took it and put it in his pocket. 'Thank you, my boy,' he said. 'You have shown that you have faith in me. Keep it and take care of it.' The other boys were surprised, and, too late, were sorry they had not taken the freely offered gift. They didn't believe him, that was the trouble."

LITERARY NOTES.

The HOMILETIC REVIEW for June completes the first volume of the work for 1885, and gives evidence, if any were needed, of the immense stride which this Clergymen's Review has made of late. Dr. Deems leads off with a characteristic paper on the "Uses of Scientific Studies to the Preacher." Dr. Ludlow completes his admirable and learned series of articles on "The Poetical Imagery in the Book of Revelation," and Dr. Wm. M. Taylor his interesting account of "John Knox as a Preacher." Dr. Abel Stevens discusses "Methodist Preaching: Old and New Style," with rare judgment and felicity. President Buttz's Symposium article on "Ministerial Education," well sustains his reputation as a thinker and writer of no mean power. Dr. Funk's paper on "Prohibition," in which he antagonizes Dr. Spear's positions in the April number of the REVIEW and makes many telling points against him, will doubtless attract wide attention and challenge criticism, both favorable and unfavorable. The eight sermons in the number are from such distinguished preachers as Drs. Cuyler, Van Dyke and Snively, of Brooklyn; Dr. Jeffrey, of Indianapolis; Dr. Weston of Crozier Seminary; Dean Vaughan of London, and Principal Edwards, of Wales. In addition we have the Prayer Meeting Service by Dr. Sherwood, The Missionary Field by Dr. Pierson, Praise Service by Dr. C. S. Robinson, Godet's Commentary on John by Prof. Timothy Dwight, Current Religious Thought of Continental Europe by Dr. Stuckenberg of Berlin, and the usual Editorial Departments, brimful of valuable matter, making a number that, for variety, ability and condensation, it would be difficult to surpass. Published by Funk & Wagnalls, 10 and 12 Dey Street, New York. $3.00 per year; 30 cents per single number.

In pictorial and literary features the June CENTURY is not behind recent issues in timeliness and general interest. A finer portrait than that of Sir John Herschel has rarely been printed in THE CENTURY. Two other full-page portraits, of William, the father, and Caroline, the sister of Sir John, accompany Professor Edwin S. Holden's authoritative paper on "The Three Herschels." Amusement and information are mingled in Eugene V. Smalley's second paper, "In and Out of the New Orleans Exposition." Bishop Dudley, of Kentucky, contributes his answer to the question, "How Shall we Help the Negro?" and John E. P. Daingerfield describes his experience in the engine-house when he was held as a hostage by "John Brown at Harper's Ferry."

In the May CENTURY McClellan's Peninsular Campaign was treated broadly by the leading commanders on both sides. In the June number special events like the disaster to the Confederates at Beaver Dam Creek and the terrible battle the next day at Gaines' Mill are particularly described by General D. H. Hill; and by General Fitz John Porter, who gained great credit for his manner of fighting two-thirds of the Confederate army with a little more than half the number, at Gaines's Mill. The maps in these papers are probably the most complete and satisfactory battle-maps ever published in this country, and striking pictures and portraits accompany in profusion. General Imboden contributes a striking anecdotal paper on "Stonewall Jackson in the Shenandoh," describing the famous Valley campaign, which had an important bearing on the withdrawal of McClellan to the James River. In "Memoranda on the Civil War," Col. J. W. Bissell describes the ingenious methods adopted in sawing out a channel above Island Number Ten, which led to the flanking of that Confederate stronghold on the Mississippi.

In the editorial departments, "Topics of the Time" discusses the question of party politics and "The Causes of the Law's Delay." In "Open Letters" there are short papers on "The Law's Delay," by Walter B. Hill; "The Death of Tecumseh," by D. B. Cook; "Color Bedding" in floriculture, by Samuel Parsons, Jr.; and "Christianity and Popular Amusements," by Washington Gladden. The poems of the number, including "Bric-a-Brac" verse, are by James T. McKay, Alice Ward Bailey, Robert Trowbridge, Walter Learned, Frank Dempster Sherman, and Bessie Chandler.

THE NEWS OF THE WEEK.

SAINT JOHN, N. B., JUNE 5, 1885.

NEW BRUNSWICK.

Dr. M. F. Keith, Dr. A. Z. Kay and John B. Grant have been appointed coroners for York County.

About $1,000 or more have been subscribed by the citizens of Fredericton for the Phœnix Square drinking fountain.

Wm. Johnston, who was arrested at Sussex for an assault commited on conductor Attridge of the N. B. Railway, some months ago, has been committed for trial.

Recently Mr. James Kelly, living near South Branch of the Oromocto, had a cow killed by a bear. Another farmer in the vicinity succeeded in trapping a large bear the week previous.

At the meeting of the stockholders of the Northern and Western Railroad, held Monday, the following gentlemen were elected Directors for the ensuing year:—Alex. Gibson, President; B. Snowball, Alex. Gibson, Jr., John Gibson, Alfred Rowlew, John McLaggan, Alex. Morrison. Mr. George F. Gregory, Secretary and Solicitor.

At a meeting, for the organization of the Tobique Valley Railway Company held in Fredericton the following officers elected: The directors are John E. Steward, F. B. Edgecombe, Henry Hancock, John K. McConnell and Jas E. Simmons. F. B. Edgecombe was elected president of the company and George T. Baird, M. P. P., secretary-treasurer.

Inspector of Bridges, Haines, has returned from the North Shore where he had been examining bridges damaged by the spring freshet. He found the Campbellton, or main S. W. bridge considerably damaged—nearly carried out in fact. The Porter Brook bridge was discovered swept out by the ice. The Porter Cove bridge was damaged very considerably. The total repairs will cost upwards of $3,000, Mr. Haines thinks.

The following new post offices were opened in New Brunswick on the 1st inst: Black's Harbour, Pennfield, Charlotte County; Carlingford, Andover, Victoria Co.; Glenvale, Salisbury, Westmorland Co.; Little Musquash, Lancaster, St. John Co.; Middle Hainesville, Bright, York Co.; Pugh's Crossing, Douglas, York Co.; South Side Cocagne river, Dunbar, Kent Co.; Spencer Lake Station, Lancaster, Saint John Co.; The Barony, Dumfries, York County.

A correspondent of the *Transcript* is responsible for the following:

There is residing in Harewood, Westmorland County, about six miles from this place, one Nellie Coil, widow of the late Benjamin Coil. She is now in her 105th year; will often attend to such work as washing dishes, making beds and other domestic duties; can sew well without spectacles; has all her faculties apparently; can remember the Peninsular war; converses freely about Waterloo and other important events. She is in good health and thinks nothing of walking to her daughter's, a mile and a half away, and returning the same day.

Mr. F. W. Cram, General Manager of the New Brunswick Railway Company, has issued a circular announcing that the road has been made into two divisions. The "Northern Division" will include the portion of the road from McAdam Junction and from Newburg Junction to Gibson. Mr. John Stewart is made Superintendent of this Division with headquarters at Woodstock. The "Southern Division" includes the line from St. John to Vanceboro, the Fredericton Branch, and the line from McAdam Junction to St. Stephen and St. Andrews. This division is placed in charge of Mr. H. D. McLeod as Superintendent, who will perform the duties of his present position as General Freight Agent of the All Railway Line. Both Superintendents are well known and are excellent railroad men. Mr. McLeod, is, of course, best known in St. John, as a most active and energetic business man, prompt, capable and reliable. He has long been connected with this road, and we are heartily glad to see that that connection continues.—*Globe.*

NOVA SCOTIA.

Halifax police have been instructed to report all shops open for the purpose of selling goods on Sunday.

The one hundred and twenty-fourth anniversary of the settlement of Yarmouth will be celebrated on June 9th.

There is a case of smallpox at Richmond, Yarmouth County. The patient, George Eldridge, was a passenger on the *N. B. Lexis*, from London to New York, on which the disease broke out during the passage.

On Monday a boy named Scott, about eight years of age, was drowned at Bear River, N. S., while trout fishing. A young lad, son of James Redmond, of Princeport, Colchester, was also drowned in a mill pond at that place while fishing a day or two ago.

At the meeting of the Nova Scotia Government this week three proposals were considered for the management and consolidation of the Provincial Railways. One from a company of English capitalists; one from the Windsor and Annapolis Railway company, and one from parties understood to be associated with the Maine Central Railway company.

A sleeping car invented by Mr. Thos. Clarke, Truro, was awarded a gold medal over all others at an exhibition in New York recently. The model is referred to in the highest terms by the press, as embodying many advantages over any other sleeping car. The cars are said to weigh several tons less and cost much less than the Pullman."

A Halifax despatch on Monday said:—An extremely heavy thunder and lightning storm, accompanied by a gale of wind and rain from the southeast and south, has prevailed here since early this evening. The storm was the heaviest of the season, and shipping had to be lashed securely to their moorings in the docks to prevent injury.

A bottle was picked up Monday morning on the beach at Digby, by Otto Tobin; it was a white glass bottle, the cork driven in with paper around it, and contained the following message:—

NORWEGIAN BARQUE HOSSES TEIN,
May 2, 1885.

We were run into this morning by an unknown vessel during dense fog; vessel cut near in two amidships; boats smashed up; vessel filling rapidly. God help us. The person who picks this up will make it known as soon as possible. We were bound from Cardiff for Halifax.

A. N. LATHNANN,
Commander.

THE NORTHWEST.

BATTLEFORD, N. W. T., May 31.—The steamer *Northwest* left Battleford at 2 o'clock this morning with supplies for Gen. Strange at Fort Pitt, 93 miles from there. When 60 miles this side of Pitt she met a skiff with a courier, who had despatches from Gen. Strange to Gen. Middleton. The despatches stated that on Thursday noon Gen. Strange with 300 men, all he had, attacked the Indians 13 miles from Pitt on the north side, three miles from the river bank. The enemy were on a high hill and behind rocks, surrounded the deep ravines. The troops could not cross the country by a flank movement, though eighty men of the 65th came down later on a scow and tried to flank them. The troops actually engaged in the fight consisted of five companies of the 92nd Winnipeg light infantry, under Col. Osborne Smith, two companies of the 65th and the Alberta mounted police, 46 strong, under Major George W. Hutton. The courier did not know whether Big Bear was the leader or not. The number of the enemy was estimated at 75 to 100, probably not belonging to a large band. The Indians opened on the troops as they were marching over the ground at the foot of the hill, which was swampy and broken. The nine pounder gun brought by the police from Fort McLeod did good service, but the enemy was entirely hidden among the rocks and ravines. The firing lasted off and on for three or four hours, when Gen. Strange ran short of ammunition and withdrew his troops back to Fort Pitt. Private J. Marcotte of No. 3 company, 65th, is reported fatally wounded, and another 65th man and one of the Alberta Rifles are wounded, the latter dangerously. The courier says the fight was resumed on Friday, but they know nothing of the result. Gen. Strange had five days' supplies at Pitt. He wants reinforcements of ammunition and food. Major Benson on the north-west sent Major Perry and some mounted police over to the south side to Gen. Strange and turned the boat back to Battleford with news to Gen. Middleton.

TORONTO, May 31.—Lt. Hay, of the Royal Grenadiers, sent a despatch to-day from Battleford to his father that their brigade, consisting of the Royal Grenadiers, 90th Winnipeg and Midland batt. and Mounted Infantry, left to-day for Fort Pitt under command of Gen. Middleton, and fighting is likely still going on.

OTTAWA, May 31—Gen. Middleton left Battleford this morning for Fort Pitt by steamer, taking three regiments, two Gatling guns and cavalry to aid Col. Strange, who is holding Big Bear and five hundred braves at bay at a place fourteen miles this side of Fort Pitt.

WINNIPEG, June 3.—The Government wire is working again. A Clarke's Crossing despatch of June 2nd says Jobin, Riel's private secretary, whose leg was amputated at Sackatoon died Sunday and was buried the same day.

Great excitement was created at Sackatoon last night by a report that Dumont was in a settler's house a few miles distant. Capt. Manley with nine men started immediately for the scene, but on arrival found the man was not Dumont. The report that Dumont was captured at Assiboine is not credited here.

It is believed he is hovering around Batoche awaiting an opportunity of getting his wife and family away.

Scouts report that Big Bear's forces must number at least seven hundred men, and small additions are being made daily in the shape of braves from different camps. One report has come in that Big Bear has taken the trail to Sounding Lake, with a view of reaching the Cypress hills, which is the home of the Crees, whom the wily chief hopes may join him. This will scarcely be done by the Crees at Cypress hills, who throughout the rebellion have displayed a spirit of peacefulness.

It has been suggested that a column should be sent across country to Sounding Lake to intercept the Indians.

Middleton expects to meet Big Bear to-morrow, when the final blow to the rebellion will doubtless be struck.

Reports from Edmondton indicate that the Indians north of that point are acting in a menacing manner, one band having threatened to massacre all the whites unless abundant food was given them.

A local patrol corps has been organized to patrol the country and prevent the redskins from committing depredations.

A corps is being organized for an expedition to Lac La Biche, a Hudson Bay post north of Saskatchewan, which has been pillaged by the Indians, who also drove the settlers from their homes.

WINNIPEG, May 29.—The annnouncement from St. Paul of the Capture [and subsequent release by the United States authorities] in Montana of Dumont led to inquiries being made here as to who Dumont is, and the result thus shows:—

He was born within three miles of here nearly fifty years ago, and belongs to a well known half-breed family. He received some education, and was always a devout Catholic, adopted the monadic mode of life. When but a child he was always with a gun on his shoulder, following the game. As he advanced in years he took to trapping, and soon turned his profession to good account, as the eager demand for furs by the Hudson Bay company afforded him ready sale for the product of the hunt. He soon saved money and began to be regarded among the Metis as a man of wealth. He settled near here twenty years ago, and took part in the Red River rebellion in 1869. He did not figure prominently, as active warfare was never resorted to. Disgusted with the municipal organization after the province was formed, and having a horror of paying taxes, he, in company with about a hundred other half-breeds moved north, settling on the banks of the Saskatchewan near Batoche, the scene of the late conflict. Although his father and sons tilled the land, Gabriel devoted most of his time to the chase, as game was abundant in that district. He would go off for five and six months at a time and return laden with game. He was both respected and feared by all the Indian tribes through whose country he ranged. Being powerful, bold and fearless, he always deemed himself a match for five redskins, and even a larger number have been known to run from him after incurring his displeasure. The proposition to have a rebellion readily caught Dumont, as it afforded him an opportunity to gratify his love for adventure and change. On his own request to the council it is said he was made a director of military movements, a position which he ably filled; and it is stated that he wept with chagrin when informed of his supporters deserting the rifle pits and leaving him with a mere handful to fight alone. Riel says he was the last man to leave the pits, and it was only when the troops were charging down on the pit he occupied that he leaped from the pit, and casting his blood-stained rifle on the prairie, ran with great speed for the bush, half a mile away.

ENGLISH AND FOREIGN.

LONDON, June 3.—A despatch from Singuo says the Russians are evacuating Penjdeh, but public notice of its cession has been posted at Herat. Afghan soldiers are incensed. They had expected to avenge their defeat. Influential Afghans here explain that they would prefer to fight Russia alone first, in order to show the Molluks that they are fighting for Islam—not for England, and thus light the religious flame and make every Afghan man, woman and child Ghazi.

ST. PETERSBURG, June 3.—It is reported that an Englishman on his way to Revel, a fortified town on Asmali Bay, on the south side of the Gulf of Finland, has been arrested on the Baltic railway under suspicious circumstances.

LONDON, June 3.—A despatch from Tamaio, Madagascar, dated May 7, states that a report was current there that the Havas peace party had strangled the Prime Minister at Outamarioo, the capital of the island.

BEWARE OF IMITATIONS.

Since Dr. Thomas' Eclectric Oil has become celebrated, a number of unprincipled persons have been endeavoring to palm off Electron and Electric Oil for the genuine DR. THOMAS' ECLECTRIC OIL. Beware of these similar named articles. If their originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell them on the reputation of another; but as they know their preparations have no merit they resort to the most unprincipled means of selling them by getting a name as near as possible to *Eclectric*. We therefore ask the public when purchasing to see that the name Dr. Thomas' Eclectric Oil is on the front of the wrapper, and the signature of NORTHROP & LYMAN, the proprietors for Canada, on the back.

A SUCCESSFUL RESULT.

Mr. Bloomer, of Hamilton, Ont., suffered for many years with a painful running sore upon one of his legs, which baffled all attempts to heal until he used Burdock Blood Bitters, which speedily worked a perfect cure. june5—2i

No article takes hold of Blood Diseases like Northrop & Lyman's Vegetable Discovery. It works like magic. Miss C——, Toronto, writes: I have to thank you for what Northrop & Lyman's Vegetable Discovery has done for me. I had a sore on my knee as large as the palm of my hand, and could get nothing to do any good until I used the Discovery. Four bottles completely cured it.

A TRUE STATEMENT.

"Kind words can never die," and there are none but kind words spoken regarding Hagyard's Yellow Oil, that old reliable remedy for external and internal use. It cures rheumatism, deafness, croup, sore throat, and all soreness and wounds of the flesh. june5—2i

Henry Clement, Almonte, writes: "For a long time I was troubled with chronic rheumatism, at times wholly disabled; I tried anything and everything recommended, but failed to get any benefit, until a gentleman who was cured of rheumatism by Dr. Thomas' Eclectric Oil, told me about it. I began using it both internally and externally, and before two bottles were used I was radically cured. We find it a household medicine, and for croup, burns, cuts and bruises, it has no equal."

A FOURFOLD WORK.

Burdock Blood Bitters act at the same time upon the liver, the bowels, the kidneys and the skin, relieving or curing in every case. Warranted satisfactory or money refunded. june5—2i

Bickle's Anti-Consumptive Syrup stands at the head of the list for all diseases of the throat and lungs. It acts like a magic in breaking up a cold. A cough is soon subdued, tightness of the chest is relieved, even the worst cases of consumption is relieved, while in recent cases it may be said never to fail. It is a medicine prepared from the active principles or virtues of several medicinal herbs, and can be depended upon for all pulmonary complaints.

BETTER THAN GOLD.

A good name, good health, a good companion and a bottle of Hagyard's Yellow Oil are among the first requisites for human happiness. Yellow Oil cures Rheumatism, Sprains, Lameness, Bruises, Burns, Frost Bites, Croup, Sore Throat, and all Pain and Inflammation. june5—2i

Backache, stitches in the side, inflamation and soreness of the bowels, are symptoms of a disordered state of the digestive and assimilative organs, which can be promptly and thoroughly corrected by the use of Ayer's Cathartic pills. As dinner pills, and as aids to digestion, they have no equal. They cure constipation.

HOW TO TELL GENUINE FLORIDA WATER.—The true Florida Water always comes with a little pamphlet wrapped around each bottle, and in the paper of this pamphlet are the words "Lanman & Kemp, New York," water-marked, or stamped in pale, transparent letters. Hold a leaf up to the light, and if genuine, you will see the above words. Do not buy if the words are not there, because it is not the real article. The water-mark letters may be very pale, but by looking closely against the light, you cannot fail to see them.

DOWN IN DIXIE.

The wife of Mr. J. Kennedy, Dixie P. O., was cured of a chronic cough by Hagyard's Pectoral Balsam. The best throat and lung healer known. june 5—2i

The chief clerk of the Government Dispensary says that no medicine chest is now complete without *Johnson's Anodyne Liniment*. No medicine known to medical science for internal and external use possesses the wonderful power of this anodyne.

This paper has done as much as any other to expose the worthlessness of the big pack Condition Powders, and means to keep it up, too. We know of only one kind that are absolutely and strictly pure, and that is Sheridans. In small 25ct packs, large cans, $1.00

JAMES PYLE'S PEARLINE is considered the best Washing Compound of the day by all who once give it a trial. It cleanses the most delicate fabric without injuring it. Sold by all grocers.

Ayre's Sarsaparilla is a highly concentrated extract of Sarsaparilla, and other blood-purifying roots, combined with Iodine of Potassium and Iron. Its control over scrofulous diseases is unequalled by any other medicine.

THE BEST YET.

The best blood cleanser known to medical science is Burdock Blood Bitters. It purifies the blood of all foul humors and gives strength to the weak. june5—2

DIED.

At his residence, 100 Leinster street, on Wednesday, 3rd inst., of congestion of the brain, George V. Nowlin, Esq., in the 80th year of his age.

On the 19th inst., at Bear Isle, Queensbury, York Co., Deacon Lawrence Hagerman, aged 81 years.

On the 2nd inst., at the residence of John Kimball, No. 17 Haymarket Square, after a painful illness of five months, borne with the patience and resignation of the true Christian, Mary E., beloved wife of Aaron Kimball, aged 50 years. She leaves a devoted husband and only daughter, two sisters, a brother and a large circle of relatives and friends sorrowing—that they shall see her face no more. Her Christian life was consistent and constant, and her death peaceful and triumphant. Her heart was ever singing—

"In the shadow of the rock let me rest
O, the shade is so refreshing, my heart at once is blest;
In the weary walk of life, from the burdens of the day,
In the shadow of the rock let me rest upon my way."

"FIRST-CLASS GOODS,"

In which merit is at once recognised, are now, and always have been, imitated, especially the manufactured article. After years of labor, and the expenditure of a fortune, in perfecting and placing before the public that which people appreciate and demand, some one who never had an original idea offers a counterfeit or substitute to compete with the genuine. *Curtis Davis & Co.*, makers of the "Welcome Soap," find the above true in their case at least, the excellence of whose productions are *everywhere* acknowledged as the "standard" of quality, being imitated in every way that competition can suggest. But is the use of their goods, the consumer realizes the full benefit of value received. *Welcome Soap* confirms and sustains their great reputation.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.
Yours respectfully, MRS. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.

☞ All persons interested are invited to call on MRS. O'BRIAN; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

MORTGAGEE SALE.

To Joseph Reed Lawson and John J. Porter, Trustee to the Estate of the said Joseph Reed Lawson and all others whom it may and shall concern:

NOTICE is hereby given that I will, on SATURDAY, THE TWELFTH DAY OF SEPTEMBER next, at eleven o'clock, in the forenoon, sell at public auction at Chubb's Corner, (so called), in the City of Saint John, all the right, title, and interest of the said Joseph Reed Lawson, or his assignee of, in and to—

"ALL that certain piece or parcel of land situate, lying and being in the Parish of Upham, in the County of Kings, and Province aforesaid, bounded and described as follows: Beginning at a stake standing on the main road, twenty-three rods from Robert Hasting's west line, thence running north twenty degrees, west parallel to Robert Hasting's west line, and twenty-three rods distant from it until it reaches the northern boundary of land deeded to me by William A. Wiggins and his wife Ruth, thence running west until it strikes the side line of land owned by John Weatherhead, formerly owned by Murphy, thence along the said line south until it strikes the main road, thence along the said road to the place of beginning, containing twenty acres, more or less."

The above sale will be made under and by virtue of a Power of Sale contained in a certain indenture of mortgage dated the first day of May, A. D. 1883, and made by the said Joseph Reed Lawson to the undersigned Robert Hastings, and duly recorded in the office of the Registrar of Deeds in and for the County of Kings, in Book F. No. 4, of Records, pages 357, 358, 359 and 360, as by reference thereto will more fully and at large appear, default having been made in the payment of the first two installments of the principal money secured thereby, as well as the interest and insurance secured to be paid thereby.

Dated at the City of Saint John this 29th day of May, A. D. 1885.
