BABY'S HEALTH.

THE TEETHING PERIOD DANGEROUS TO LITTLE ONES AND VERY TRYING TO MOTHERS.

What mother does not look forward with dread to the time when baby shall be teething? At that time baby is restless, feverish and irritable, and frequently there is some disorder of the bowels and stomach. The poor little sufferer is fighting one of his first battles in this old world of pain, and if not aided in his fight may be overcome. Every wise mother helps the little sufferer as much as she can, and the mothers who have been most successful in this respect have found that Baby's Own Tablets give just such assistance as the little one needs. Mrs. W. J. Wright, Brockville, says:—"I have used Baby's Own Tablets quite frequently, and am much pleased with them. I find them especially satisfactory during baby's first year. I have used them in teething, in vomiting, in colic, in indigestion, and in the disorders of the stomach and bowels usually accompanied by restlessness and fever. The action of the Tablets has always been all that could be desired."

Baby's Own Tablets are a sweet, pleasant little lozenge that all children will take readily. They can be crushed or dissolved in water and administered with safety to even the youngest infant. Guaranteed to contain no opiate or any of the poisonous stuffs that make the so-called soothing medicines dangerous to little ones. If you do not find Baby's Own Tablets at your druggist's, send 25 cents to the Dr. Williams Medicine Co., Brockville, Ont., and a box will be sent you by mail postpaid.

Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health.

No one has to wait his turn. You can do it yourself—you and the bottle.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

GOOD BLOOD AND SOUND MUSCLES

Scott's Emulsion is a blood-making and strength-producing food. It removes that feeling of utter helplessness which takes possession of one when suffering from general debility.

CHRISTMAS.—The Christmas number of The Delineator is about the first of the special Christmas issues. It is a beauty. The cover is a most artistic production, showing a beautifully gowned woman, standing gracefully in a brilliantly lighted salon. Two charming love stories, one by Cyrus Townsend Brady, plenty of advice regarding Christmas Gifts, timely pointers on Cookery, Winter-time care of Plants, all the fashions of the day interpreted into simple language, can be found in the Christmas number of The Delineator. It is a splendid magazine, satisfactory inside and out. There is no magazine for women at present published that is more practical in all its pages. As a Xmas gift itself, it bears its own recommendation.

No man is fit to rise up and labor until he is made willing to lie still and suffer as long as his Master pleases.—Payson.
