of allowing Americans to fish in Canadian waters. Several members from the Maritime Provinces spoke in support of the motion, stating that a firmer policy should be adopted towards the States to meet exactions and restrictions imposed on Canadian trade. Mr. Anglin, from New Brunswick, advocated the total exclusion of foreign fishermen from the fishing grounds. He said in many cases owing to the encroachment of American fishermen Nova Scotians had been driven off their own fishing coasts. The motion was adopted.

P. E. I. STEAMERS.—The P. E. I. Government has entered into arrangements with the Steam Navigation Company to run the steamers *Princess of Wales* to Georgetown, Souris, and Pictou, and the *Heather Belle* to Mount Stewart, Crapaud and Orwell Bay.—Captain Evans leaves the *Princess of Wales*, and takes the command of the *St. Lawrence*, his place being supplied by Captain R. Cameron, who has purchased an interest in the Company. Captain McKenzie still retains the command of the *Heather Belle*.

THE NEWFOUNDLAND SEAL FISHERY.—A telegram from St. John's states that the steamer *Nimrod*, before reported, arrived with 17000 seals, has returned from a second trip with 6,500. She was ten days absent.

☞ The human family is so numerous that a birth and a death occur every moment. Every second a child is born; every second some one dies. The prevalence of sickness in the world may be realized in Dr. J. C. Ayer's Laboratory, where medicines are made for all mankind. It would scarcely seem that there are throats enough to swallow the doses he issues daily—Ayer's Sarsaparilla, Ague Cure, and Cherry Pectoral by the thousand gallons, and Ayer's Pills literally by the ton. But they must all be wanted, or he could not make such quantities for so many years.—[Northfield Telegraph.

For horses that are troubled with bone spavin or splint, they should first be blistered, and then apply Dr. Dow's Sturgeon Oil Liniment once a day. If there is no fixed deposit of bony matter your horse can be cured.

Mothers will always find Dr. Wilson's Cramp and Pain Reliever invaluable in the house, and should always be kept at hand in case of accident. Its use will save many an hour of suffering.

GREAT BRITAIN.

LONDON, April 30.—The speech of the Mayor of Cork at the recent Banquet in that City was the subject of a long debate in both Houses of Parliament this evening, the attention of members being called especially to the Mayor's language respecting O'Farrel who attempted to assassinate Prince Alfred in Sydney as well as to his reference to the Prince himself. The Tories upbraided the Government with being the indirect cause of the state of Ireland.

LONDON, May 1.—The rejection of the Alabama treaty and Senator Sumner's speech cause considerable feeling in England.

The Press generally treat Sumner's view as extraordinary and inadmissible.

At a Cabinet meeting the subject had been informally discussed.

Mr. Bright declared that this embarrassment served England right, but he argued that he would not consent to entertain the terms foreshadowed in Mr. Sumner's speech.

Lord Clarendon expressed his belief that the actual negotiations on the part of the American Government would be far less extreme in character than the speeches of Senators and articles in the Press.

Mr. Gladstone professed to have good assurances from reliable quarters that the rejection of the Alabama treaty was purely a political stroke. He said the present administration will endeavor to settle the question on liberal and honorable terms.

LONDON, May 2.—Instructions have been sent to Commodore Phillimore, commanding the British West India Squadron, to demand of the Spanish authorities in Cuba, the restoration of the brig *Mary Lowell*, and an apology for her seizure.

The debate in the Spanish Cortes on the new constitution, has ended, and all amendments have been rejected.

All insurrectionists, except those implicated in the Carlist movement, have been pardoned.

Some trouble among the troops at Saragossa is apprehended.

The Russian Government proposes to grant several new and political privileges to the people.

A mass meeting of citizens was held in Cork on Saturday night, at which the speech of the Mayor was warmly eulogized, and resolutions were adopted expressingly sympathy with, and confidence in, that functionary.

LONDON, May 3.—The House of Commons in committee resumed consideration of Irish Church Bill. Clause 36, concerning the Regium Donum, was so amended as to include within the provisions for compensation to ministers of all congregations entitled eventually to a share of the grant.

Clause 37, providing for compensation to the Professors and for payments in respect to the building of Belfast College, was stricken out in compliance with the request of the Presbyterian Synod and with the consent of the Government.

Mr. Gladstone intimated that other provisions will be made for this College.

UNITED STATES.

Immense floods, caused by the heavy rains and the melting of immense bodies of snow, visited several States recently. New York State suffered very great damage. Bridges, factories, and houses were swept away. In some instances railroad tracks were six to eight feet under water.

A terrible accident happened on the Long Island Railroad, on the 23rd. A train left Hunter's Point at 10 A. M., and ran off the track two miles east of Jamaica, when going at the rate of twenty miles an hour. Two cars went off the track, and every person in the rear car was killed or wounded. Six were killed at once, three mortally wounded, and about a dozen were much injured. Two women and an infant are among the killed. A broken rail was the cause of the accident.

The through fare by rail from New York to Sacramento, California, will not be over $100 in gold, and the emigrant will be able to get through for less than $100 in currency.

The Chicago University for women will be begun this summer. The building will be one hundred and eighty feet front, with a depth of one hundred and thirty-six feet, and will have an elevation of one hundred and twenty feet from the ground to the summit of the main tower.

NEW YORK, May 1.—The Great Western Railway freight house at Chatham, Canada, was totally destroyed by fire yesterday morning; also six cars loaded, with a large quantity of freight stored in the warehouse and on the platforms. Loss will probably reach $100,000. Supposed to be the work of an incendiary.

NEW YORK, May 4.—The Pacific Railroad was nominally completed on the last day of April, at 4 o'clock, p. m., at which hour the Central Pacific and Union Pacific met at Promonotory Point, which we should suppose is about 20 miles north of Salt Lake City, to which, a branch will be made.

FELLOWS' COMPOUND SYRUP.

To MR. JAMES I. FELLOWS'
Manufacturing Chemist,
St. John, N. B.

We, the undersigned have much pleasure in recommending your Compound Syrup. After a fair and protracted trial of the same, we consider your preparation a very valuable nervous tonic, far surpassing many others of considerable repute, and well worthy the confidence of the profession generally.

We beg to remain, yours very truly,
A. H. CHANDLER, M. D.
H. A. JACOBS, M. D.

Moncton, N. B., Nov. 9, 1867.

MR. JAMES I. FELLOWS' Manufacturing Chemist:

Sir,—For several months past I have used your Compound Syrup in the treatment of Incipient Phthisis, Chronic, Bronchitis, and other affections of the Chest, and I have no hesitation in stating that it ranks foremost amongst the remedies used in those diseases. Being an excellent nervous tonic, it exerts a direct influence on the nervous system, and through it invigorates the body.

It affords me pleasure to recommend a remedy which is really good in cases for which it is intended, when so many advertised are worse than useless.

I am Sir, yours truly,
Z. S. EARLE, JR., M. D.

St. John, N. B., January, 1868.

Sold by Apothecaries. Price $1 50 per bottle, or 6 for $7.50. On the receipt of $7.50 the proprietor will forward 6 bottles to any part of Nova Scotia or New Brunswick, Free. JAMES I. FELLOWS,
Chemist, St. John, N. B.

We should not hesitate to recommend to any friend of ours, *Parson's Purgative Pills*; they are scientifically prepared, and are adapted to all the purposes of a good purgative medicine.

Decidedly the best remedy that has ever been discovered for Rheumatism, Swollen or Stiff Joints, Flesh Wounds, Sprains, Bruises, Cuts, and Burns, is *Johnson's Anodyne Liniment*. We use it, and always recommend it to our friends.

Coughs and Colds.

Sudden changes of climate are sources of Pulmonary, Bronchial, and Asthmatic affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stage of the disease, recourse should be had at once to "Brown's Bronchial Troches," or Lozenges. Few are aware of the importance of checking a cough, or "common cold," in its first stage. That which in the beginning would yield to a mild remedy, if neglected soon attacks the Lungs. "Brown's Bronchial Troches," or Cough Lozenges, allay irritation, which induces coughing, having a DIRECT influence on the affected parts. As there are imitations, be sure to OBTAIN the *genuine*. Sold by all dealers in Medicines, at 25 cents a box.

Thursday, April 22, 1868. (2m.)

MARRIED.

On Monday, 26th ult., by the Rev. I. E. Bill, Mr. Norman McLeod, of St. John, to Miss Catherine Theal, of the same place.

DIED.

On Friday evening, 30th April, after a long and severe illness, which she bore with Christian fortitude, MARTHA ANN, youngest and dearly beloved daughter of JOHN and JANE MAXWELL, in the 16th year of her age, deeply lamented by all who had the pleasure of her acquaintance.

Sister thou wast mild and lovely,
Gentle as the summer's breeze,
Pleasant as the air of evening,
When it floats among the trees.

Peaceful be thy silent slumber,
Peaceful in thy grave so low:
Thou no more will join our number,
Thou no more our songs shalt know.

Yet again we hope to meet thee,
When the day of life is fled;
Then in heaven, with joy to greet thee,
Where no farewell tear is shed.

At Norton, on the 15th inst., of consumption, Mary A. aged 20 years, adopted daughter of J. G. and B. A. Hayes.

On Sunday morning, after a long and tedious illness, Mr. Thomas King, in the 55th year of his age.

At Annapolis Royal, on the 26th April, after an illness of eight weeks, Andrew Henderson, Esq., aged 72 years. The deceased was a native of the County Fermanagh, Ireland, and for the last 49 years a resident of Annapolis County, Nova Scotia—and for 30 years a teacher of youth. He leaves a sorrowing widow, 7 children, and 27 grand children, to lament their irreparable loss. He died trusting in Jesus.

At Pennfield, Charlotte County, April 18th, of consumption, Kate C. Chaffey Hawkins, aged 27 years, 6 months, and 25 days. Her end was peace.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
