DISEASES OF THE SKIN CURED BY JAYNE'S ALTERATIVE.

BRISTOL, Pa., Jan. 16, 1846.

Messrs. Editors.—I write to inform you and the public that my son was under the treatment of our family Doctor for more than a year for a very troublesome DISEASE OF THE SKIN, without obtaining any relief. I then applied to several other Physicians, who gave him so much medicine, and dieted him so low, that I thought he would die from its effects. One physician told me it was a disease to which some families were subject, and *could not be cured*. Some called it scrofula, and others tetter, salt rheum, ezema, leprosy, &c. After trying every means for nearly five years without effect, I was advised to give him Dr. Jayne's ALTERATIVE. At this time he was literally sore from his head to his feet. Sometimes it would dry up and scurf off, and then break out again as bad as ever, and itch and burn so intolerably as to drive him almost to distraction. He had not taken the Alterative, however, two weeks before there was a great change for the better. He went to school all the time while taking the medicine, and partook of the same kind of food as the rest of the family, and ran about through thick and thin, the same as the other boys of the school until he was perfectly cured, and became fat and hearty, and though now over five years ago, not a symptom of the disease has ever made its appearance. He took altogether twenty bottles of the ALTERATIVE, and no other Medicine while using it. Yours, &c. Sincerely

MARY ANN ...

Also, Chronic Constitutional Disorders.

THE value of this Preparation ... now widely known, and every day the ... of its usefulness is extending. It is approved and highly recommended by Physicians, and is admitted to be the most powerful and searching Preparation from the root that has ever been employed in medical practice.

It is highly concentrated for convenience and portability, containing nothing but the expressed essence, and is the representative of the Sarsaparilla Root, in the same manner as Quinine is of Peruvian Bark, or Morphine of Opium. It is an established fact, that a few grains of either Quinine or Morphine contains all the medicinal value of a large quantity of the crude substances; hence the superiority of these preparations—and no invalid would desire to drink a gallon mixture, when a half-pint contained the same medicinal value.

The following certificate is only another link in the great chain of testimony to it merits:

SOUTH BOLTON, Canada East, April 18, 1846.

Messrs. SANDS—Gentlemen: Exposed as we are to the attacks of disease, and so frequently disappointed in proposed remedies, we cannot but look upon the efforts of successful practitioners with interest and gratitude. This is true respecting your valuable preparation of Sarsaparilla. I have been severely afflicted for 33 years with a disease about which "Doctors disagreed," and their prescriptions were still more diverse.—I tried various remedies but found no relief until I commenced using your excellent medicine, which time I was wholly confined to my bed. After using it a few months, I am now able to walk about, ride out, and enjoy a comfortable degree of health, which I attribute entirely to the use of Sands' Sarsaparilla. Please accept the assurance of gratitude and regard.

JOHN M. NORRIS.

Being personally acquainted with the above statements, I hereby certify that the same are true. REV. T. M. MERRIMAN.

Farther testimony from Vermont:

The following testimonial to the value of Sands' Sarsaparilla, is from the Rev. Luther Wright, aged 76 years, Congregational minister, residing at Woburn.

WOBURN, Mass. March 30, 1846.

Messrs. Sands—Gentlemen,—From what I have experienced, and from the information I have recently received from a number of persons of high respectability who have used your Sarsaparilla, I have not the *least doubt* but that it is a valuable medicine, and the numerous certificates you have received of its efficacy are fully sustained by *experience*, and although its reputation and utility are very extensive, and standing ... of my humble efforts to increase their ... who are afflicted by disease to ... the *efficacy* and *power* of ...
