A CARD.

MR. JOHN NELSON, DAGUERREOTYPE ARTIST, would respectfully announce to the inhabitants of the City of St. John, that he has leased the entire flat of the building situate on the corner of Prince William and Duke Streets, and adjoining the "Custom House."—The premises have been fitted up under the immediate direction of Mr. N., at great expense. The Operating Room is constructed upon the latest and most approved principle, with sky lights so arranged as to throw the rays at an angle of forty-five degrees, thus giving the true angles of light and shade, and without which it is impossible to produce a durable or perfect Likeness. Mr. Nelson has no hesitation in saying that he has procured a Camera, which for size and finish is not equalled by any in the Province, and with which he is satisfied he can produce the *fac simile* of the human face in a degree of perfection heretofore unwitnessed.—The public generally are invited to call and examine the specimens now exhibiting, and judge for themselves. To afford an opportunity to *all*, Mr. N. has concluded to take Likenesses equal to those formerly taken by him at a charge of 7s. 6d., for the moderate sum of FIVE SHILLINGS; those of a superior description and finish will be taken at a price correspondingly low.

ARCHIBALD SCOTT, ESQ.

SIR,—As the Agent of various "Fire Insurance Companies," I beg to bring under your notice my "PATENT ARTIFICIAL SLATE." This composition has been upwards of three years extensively used in New-Brunswick, Newfoundland, Prince Edward Island, the Canadas and Nova-Scotia, principally for covering shingled roofs, as you will perceive by the accompanying circulars of certificates. It has been severely tested, and proved most successfully its fire proof qualities under most extraordinary circumstances; so much so, that I am of opinion that Fire Insurance Companies should encourage its general application to all kinds of wood building (where the color would be no objection to its being used, such as the back walls of dwellings in the City, outhouses, warehouses, &c., as well as the roofs) by lowering the premium of insurance on such buildings as are covered.

I have the honor to be, Sir,
Your obedient servant,
J. W. ROSS, Patentee and Manufacturer.

HALIFAX, 14th July, 1853.

SIR,—In answer to your note of the 12th inst., I consider the use of your "Artificial Slate Paint" on Shingled Roofs, as greatly diminishing the risk against Fire—I have frequently reduced the premiums on Buildings in the Country, upon its application.

I am, Sir, your ob't sv't.,
ARCH'D. SCOTT,
Insurance Agent.

Until further notice, therefore, Mails will be closed for one or other of the above-named Steamers on MONDAY, WEDNESDAY, and FRIDAY Mornings; and Letters to be thus forwarded must be posted at this Office fifteen minutes before the time advertised for the departure of the Boats, after which time none can be received; but Col. MUSIC.
PIANOFORTE AND SINGING.

MONSIEUR SIGISMOND WOLOWSKI having returned from New-York, is now prepared to resume his professional duties in this City, and can receive a few new pupils, in addition to those already on his list, both for Vocal and Instrumental Music. Mons. S. W. has brought with him the new and celebrated method of Vocalization, invented by Madame Cinti Damoreux, and practised in the Conservatories of Music of Paris and Berlin, which remarkably developes the voice, and enables the pupil in a very short time to sing with taste and effect, not only simple Ballads and Glees, but also Operatic Music of the highest order, in the English, French and Italian Languages, all of which Mons. S. W. will instruct his pupils to understand and sing correctly. Mons. S. W.'s method will also enable Gentlemen, having good bass or baritone voices, rapidly to improve and perfect their musical talents.

When a number of persons unite in forming a private class, the terms of instruction will be reduced.

Monsieur W. has brought with him from New-York the Fashionable Dances lately practised in Paris and London. He is going to open the Afternoon Dancing Classes on Wednesdays and Saturdays, from three to five, P. M. The list of subscriptions is already open, and the course of Lessons in Dancing will commence so soon as Mons. W. obtains a sufficient number of pupils.

Terms, £2 quarterly, in advance, for each pupil.

Monsieur W. will also give private lessons to single individuals, in Families and Ladies' Seminaries, if required. Applications can be made every day, Sundays excepted, from twelve to two, P. M., at the Waverley House. July 30.—3m.

MONSIEUR FRANCIS S. WOLOWSKI, Professor of Languages, has the honour to announce to his friends and the Citizens of Saint John in general, that having been for a short time absent from this City, he has now returned, and will continue his professional avocations as heretofore. Those who wish to engage his services, in teaching the French, German or Italian Languages, will have the goodness to apply to him at the Waverley House. Feeling grateful for the liberal patronage he has hitherto experienced, Mons. F. S. W. hopes that he may continue to be favoured with the confidence of the public.

St. John, June 25, 1853.

And every other description of Assurance business.

LOANS UPON POLICIES.

Advances to the full extent of their saleable value are made upon Policies which have been in existence five years in Departments 1, 9, and 11, and three years in Departments 2 and 10, without legal expense to the borrower.

CLAIMS.

All claims are promptly considered and settled; and it is worthy of especial notice, that this Institution being enrolled under the Acts of Parliament relating to Friendly Societies, possesses the privilege of paying sums assured in favour of Husbands, Widows, and Children, *free of Legacy and Probate Duty*, by which much trouble and expense are entirely avoided. This great privilege has been obtained from Parliament mainly through the exertions of the Directors of this Institution.
