CHARLES M'PIERSON.  
 St. JOHN, 6th JUNE, 1811.

FROM THE LONDON GAZETTE.

DOWNING-STREET, MAY 7.

A Despatch, of which the following is an extract, was on Sunday night received at Lord Liverpool's Office, addressed to his Lordship by Lieutenant-General Viscount Wellington, dated Portalegre, April 25.

I have the honor to inform you, that since I ad- dressed you, I have been in Estremadura, from whence I am now on my return to the troops stationed between the Agueda and the Coa.

I have the honor to inclose the report of Marshal Sir William Beresford, on the surprise of a squadron of the Thirteenth Light Dragoons, on the night of the 6th inst. together with a return of the loss upon that occasion.

Sir William Beresford employed the 4th division under the command of the Honorable Major-General Cole in the attack of Olivenca, which place surren- dered at discretion on the 15th instant. I have the honor to inclose the report of the Honorable Major-General Cole to Sir William Beresford, and returns of ordnance, arms, &c. and prisoners taken in the place.

As Sir William Beresford deemed it desirable to oblige the enemy to retire from the province of Estre- madura entirely, before he should commence his opera- tions against Badajoz, he moved forward with this view, while Major-General the Honorable G. L. Cole was engaged in the attack upon Olivenca, as well as to give support and protection to General Ballasteros' division of Spanish troops, which had been obliged to retire from Freynal successively upon Xeres, de los Caballeros and Salvatierra on the 13th and 14th inst. by a division of French troops under the command of General Maransin.

The Marshal marched on the 15th to Santa Martha, and on the 16th to Los Santos, where the British and Portuguese cavalry fell upon a body of the enemy's cavalry, and took 160 prisoners, and killed and wound- ed a great many. The cavalry conducted themselves with the utmost steadiness and good order.

The enemy having retired to Guadalcanal, and the corps under Gen. Maransin having retired through the Sierra, the troops were put in motion to return to the northward, and to take their stations for the operations of the siege of Badajoz, and the Marshal met me at Elvas on the 21st.

We reconnoitred Badajoz on the 22d, escorted by the two light battalions of the King's German Legion and two squadrons of Portuguese cavalry. They brought three battalions out of the town, which skir- mished with our troops; but I have not yet received the returns of our loss upon this occasion.

As the preparations for the siege are nearly complet- ed, the place would by this time have been regularly invested, only that on the night of the 23d the floods in the Guadiana carried away the bridge which Sir William Beresford had, with great difficulty, construct- ed under Juramenha; and the river was no longer for- dable any where. Under these circumstances, I yester- day desired him to delay the operations of the siege, till he should have been able to re-establish his bridge, or until the Guadiana should again become fordable, still keeping Badajoz blockaded as closely as might be in his power.

Olivenca, April 16, 1811.

SIR—My letter of yesterday by my Aid-de-Camp, Captain Roverea, will have informed your Excellency of the surrender of this place, the particulars attending which I had deferred stating to prevent any delay in your receiving this information. I have now the honor to report, that on the night of the 12th instant (the morning of which your Excellency left the Camp,) we took possession of an inclosed lunette which the enemy had left unoccupied in front of the San Francisco Gate, and distant from the curtain about 250 yards. As the only entrance into the work was through a gate in rear of it, much exposed to a fire of musketry from this place, we were under the necessity of making another passage for the artillery at the outward angle, which was executed, and a breaching battery of four guns completed on the evening of the 13th, and I had hopes, as I stated in my letter to your Excellency of that day, that we should have been able to have got the guns into it in the course of the night, but in which I was disap- pointed; for notwithstanding every exertion was made on the part of Major Dixon, of the Portuguese Artil- lery, it was found impossible to effect it, from the bad- ness of the road and the circuit they were obliged to take to avoid the fire of the place. We were therefore under the necessity of deferring it until the following night, as the lunette was too much exposed to the fire of the place to attempt it during the day.

Having succeeded in getting the guns into the bat- tery during the night, and got every thing ready before day-break on the 15th, and also established two flank- ing batteries of field pieces, I sent a summons to the Governor, a copy of which I have the honor to inclose, with his answer, which being a refusal to accept the terms I offered, our fire immediately commenced, and was returned with some spirit from the town.

At eleven o'clock a white flag was hoisted by the enemy, and an Officer came out with a letter from the Governor, a copy of which I have the honor to inclose with my answer and the Governor's reply, to which I sent none, and recommenced our fire. After a few rounds a white flag was again hoisted, and they sur- rendered at discretion, and the Fransiscan Gate was taken possession of by the grenadier company of the 11th Portuguese Regiment.

The choice of the situation of the batteries, and the expedition with which they were completed, do great credit to Captain Squire's (Chief Engineer) judgment and activity; and I am free to say that it has been principally owing to his exertions, and those of Major Dixon, that I am indebted for the speedy surrender of the place; and I feel great satisfaction in saying that
