

have been at Usagre.—None of the Army of Portugal have moved to join him.

According to the last reports which I have received to the 4th inst. on the frontiers of Castile, it appears that Marshal Marmont had established a body of troops between the Agueda and the Coa, and he had reconnoitred Almeida on the 3d. Brigadier-Gen. Trant's division of militia had arrived on the Coa, and Brigadier-Gen. Wilson's division was following with the cavalry, and Lieut. Gen. the Conde D'Amarante was on his march, with a part of the corps under his command, towards the Douro.

I have the honor to enclose returns of the killed and wounded from the 31st of March, and in the assault of Badajoz, and a return of the ordnance, small arms, and ammunition found in the place; I will send returns of the provisions in the place by the next despatch.

This despatch will be delivered to your Lordship by my Aid-de-Camp, Capt. Canning; whom I beg leave to recommend to your protection. He has likewise the colours of the garrison, and the colours of the Hesse D'Armstadt regiment, to be laid at the feet of His Royal Highness the Prince Regent. The French battalions in the garrison had no eagles.

Camp at Badajoz, April 8.

MY LORD—It gives me great pleasure to inform your Lordship that our numerous wounded officers and soldiers are doing well.

I have had great reason to be satisfied with the attention paid to them by Mr. M'Gregor, the Inspector General of Hospitals, and the medical gentlemen under his direction, and I trust that the loss to the service, upon this occasion, will not eventually be great.

I have the honor to be, &c.

WELLINGTON.

Apollo, off Cape Corse, February 14.

SIR—In rounding Cape Corse, at day-break yesterday morning, I fell in with a French frigate-built store ship and a corvette. After closing from to leeward, the former struck, and proves to be the Merinos, commanded by M. Honore Coardonau, Captain of a frigate, and of the Legion of Honour; is quite new, 850 tons, pierced for 36, but mounting only 20 guns, 8-pounders, with 126 men, six of whom were killed, and 20 wounded. She was going to Sagona for timber.—I have the satisfaction to state, that we have suffered no loss, although exposed to the fire of the batteries on the Cape and Island of Gioeglia above four hours, nearly becalmed. Notwithstanding the signals made to the corvette from the commodore, for her assistance, she made her escape by the help of boats from the shore. She is the Mohawk, formerly English, taken in 1799, of 130 men, and a few conscripts.—I have the honor to be, &c.

[This Gazette also announces the capture of a fine new French schooner, called Le Jean Bart, of 7 guns, and 106 men, by the Blossom, Captain W. Stewart, off Cabrera.]

DOWNING-STREET, APRIL 25.

[Transmitted by General Campbell.]

YUNQUERA, FEBRUARY 17.

SIR,

I have the satisfaction to communicate to your Excellency, that yesterday morning, with 2000 infantry and 300 cavalry, I attacked General Maranzin, Governor of Malaga, who was at Cartamar with 2000 infantry and 400 horse. He was completely routed and pursued to within a league of Malaga; Maranzin and the whole of the Chiefs were killed, many Officers, and more than 1200 men, hors de combat. Knowing the interest your Excellency feels in my success, I lose not a moment in communicating it, assuring your Excellency that the bravery and discipline displayed by my troops on this occasion, exceeded their conduct at Albuera. With these operations, I have put all the forces of Andalusia in motion towards me, but I flatter myself they will soon be obliged to disperse, and obtain no other advantages than the inconveniences that must attend their marches, and a want of provisions, by which I shall have accomplished my object in this campaign.—I have the honor to be,
