This is revenge without a parallel except the case mentioned by Littleton, where an Italian carried aqua fortis in a syringe, for 6 months together, which, at length, he squirted into the eyes of his supposed rival and deprived him of his sight forever.

### PROVINCIAL VACCINE INSTITUTION--NEW-BRUNSWICK.

AS it appears, that, notwithstanding the anti-variolous properties of the Cow-pox have long since been established beyond all doubt, the practice of Vaccination has frequently been neglected in the Province of New-Brunswick; and that some obstacles have prevented its general use: the formation of a Public Institution, with a view of obviating those difficulties, and averting the calamities which are to be expected from the prevalence of Small-pox, cannot fail to be attended with the most beneficial effects.

In a country where the Small-pox has rarely been known, and where there exist some thousands who have no security against its attacks, the extent of the evil which might result from the casual introduction of this disease, is scarcely calculable; and the hazard to which the community is exposed from this source, owing to the vast concourse of emigrants arriving in the Province, recent occurrences render sufficiently obvious.

A Vaccine Institution is, therefore, now formed under the auspices of His Excellency the Lieutenant-Governor and the Members of His Majesty's Council, with a Committee at each station, for the purpose of carrying into effect the objects of the Institution.

REGULATIONS.

It is proposed that this Institution shall be attended with no expence to the Public. The Vaccinating Surgeons at each Station will keep a register of the names, age, and residence of those Vaccinated, with the result of each case; and a Quarterly Report will be transmitted by them to the Secretary to the Institution, for the purpose of being laid before the Committees, and published in the Gazette.

Vaccination will be performed gratis, and the days of attendance for this purpose will be once a week, as above mentioned, unless, for general convenience they may be hereafter altered by the Committee, of which public notice shall be given.

No other conditions are required from persons Vaccinated than regular attendance on the days appointed, until the progress and character of the Vaccine pustule be ascertained;--a circumstance of the greatest importance, in order to prevent the introduction of a spurious disease.

Charges of Vaccine Lymph will be furnished to Country Practitioners, free of expence; who are requested only to send lists to the Secretary, of the persons Vaccinated, agreeably to the manner above directed.

ALEX. BOYLE,

Secretary to the Institution.

By the Honorable WARD CHIPMAN, Esq. one of the Justices of His Majesty's Supreme Court of Judicature for the Province of New-Brunswick.

TO ALL WHOM IT MAY CONCERN, GREETING: NOTICE is hereby given that upon the application of Hugh Johnston, Hugh Johnston, junr. and John R. Parrelow, to me duly made according to the form of the Act of Assembly in such case lately made and provided, I have directed all the Estate, as well real as personal, within this Province, of James Sloan, late of the City of St. John, (which same James Sloan is departed from and without the limits of this Province with intent and design to defraud the said Hugh Johnston, Hugh Johnston, junr. and John R. Parrelow, and the other Creditors of the said James Sloan, if any there be, of their just dues, or else to avoid being arrested by the ordinary process of the Law as it is alleged against him) to be seized and attached, and that unless the said James Sloan do return and discharge his said debt or debts within three months from the publication hereof, all the Estate as well real as personal of the said James Sloan within this Province will be sold for the payment and satisfaction of the Creditors of the said James Sloan.
