FREDERICTON, (N. B.)

7TH SEPTEMBER, 1819.

An Error occurred in the Note following the names of the Gentlemen forming the corporation of the Madras School in New-Brunswick which were published last week—instead of "the benefits of instruction" are to be extended" &c. "read, the benefits of the Institution" are to be extended" &c.

On Friday last, His Honor Judge SAUNDERS returned from the Northumberland Circuit, at which three Criminals were convicted: *John Brown*, for the murder of *James Smith*, received sentence of death; *James Gray*, for manslaughter, in the death of his wife, was sentenced to pay a fine of £50, and to suffer two years imprisonment; and *John Campbell*, for larceny, was punished in the usual way at the whipping post.

The execution of *John Brown*, will, we understand, take place on the 21st instant.

**Subscriptions for the ST. ANDREWS HERALD, will be received at this Office.

Sir Charles Wolseley, Legislative Attorney and Representative of the Inhabitants of Birmingham, is said to have been arrested on a charge of having uttered a seditious Speech.

From the first number of the Saint Andrews Herald, August 31, 1819.

IN issuing the first number of our Paper, we feel an anxious solicitude to secure confidence and future support; and in order to attain so high a standing in the estimation of our Patrons, we shall strive to please them; but only as judgment may dictate, and conscience approve.—It is our earnest wish to fill our columns with unexceptionable matter, and to make them as interesting as our means will allow; still we can but be aware, that our best efforts will require every indulgence, that even liberal minds can be induced to bestow, and those able to appreciate the many difficulties which necessarily attend our editorial labors. Novelty of the duties, and limited circulation, oppose to our undertaking, in the opinions of many well wishers to it, an insurmountable obstacle to its success. We hope, however, experience, and the patronage of a candid public, will enable us both to improve and perpetuate our infant establishment.

Our aim will ever be to advocate correct principles of Government, Religion and Morality, the great pillars of the British Empire, emanating from her glorious Constitution; to unfold, as opportunity will permit, the many privileges enjoyed under it, and to render our paper a medium of diffusing amusement and practical utility. Articles of news, both foreign and domestic, will be carefully selected and promptly inserted. Agriculture and Commerce the vital sinews of every country, and twin sisters of industry and enterprise, will command all the attention that can be devoted to subjects so highly momentous.

To aid these primary objects we solicit the good will of all, and the assistance of every individual, whose acquirements or experience may enable him to contribute to them; and in the hope that our exertions may prove commensurate to the expectations of our subscribers, we dedicate THE HERALD to their kind protection.—pledging ourselves, that whatever may be its faults, we will endeavour to merit approbation.

Our Subscribers will recollect that the condition of our Paper is *One half in advance*, and as they must be aware that our establishment is attended with a serious expense; we trust that they will be punctual in payment.

On Friday the 20th Inst. we had the most tremendous Thunder storm here we ever remember, fortunately no damage was sustained in this Town, but at St. Stephen the house of Mr. STEPHEN HILL was struck with lightning. Mrs. Hill, who was in the cellar at the time, was knocked down and so severely wounded that her recovery is hopeless—eight bands were struck from her neck—she ran down her body & scorched her most severely, it tore off one of her stockings and one of her shoes though without injuring the leg or foot.—She was thought to be dead for more than one hour after the accident befel her, the house is damaged to the amount of more than one hundred pound—All the crockery and glass ware was shivered to pieces and many of the widows. It is a remarkable circumstance that tho' a daughter of Mrs. Hill was close by her mother when she was struck by the lightning, yet she was not in the least injured.

His Excellency, the LIEUTENANT-GOVERNOR has been pleased to present Rev. JEROME ALLEY, B. A. to the Church and Rectory of the Parish of St. Andrews, and he was yesterday inducted accordingly.

31st August, 1819

From the Free Press, 31st August.

In the Free Press of the 20th ult. we intimated to our readers that His Majesty's Ministers intended to reduce the Naval Establishments at Halifax; and made such observations upon the subject as at that time presented themselves. Orders have subsequently been received by the packet, stating explicitly how far the reduction is to extend, and that the Builder, one Clerk, six Shipwrights, a Painter, the Gate Porter and three other persons alone are to remain.

The London dates by the English mail which arrived yesterday, are only to the 10th of July. The Halifax papers contain dates to the 19th—from them we have copied the following:—

LONDON, JULY 19.

Lord Sidmouth has addressed circular letters to the Lords Lieutenants of the manufacturing Counties, calling their attention to the numerous Meetings held in those Counties and directed them to give orders to the yeomanry cavalry to hold themselves in readiness in case of need to assist the Magistrates in preservation of the public peace.

There are already six thousand Special Constables sworn-in before the Alderman of the City of London to preserve the peace of the Metropolis on Wednesday next. The arrangements made at the Office of the Secretary of State for the Home Department, for the same purpose, are on a most extensive scale.

The Firemen belonging to many of the Insurance-offices have been sworn in as special Constables, to act in case of emergency; and the members of the Hon Artillery Company have received Circular Letters, commanding their attendance at ten o'clock, on the morning of the 21st.

LEEDS, July 15.—We are so completely beset and hemmed in here, with Union and Reform Societies, and the Members of them are known to be so numerous, that the best informed persons—men who are by no means Alarmists, are apprehensive that some dire commotion will ere long take place. Mischief is certainly brewing, and the most nefarious means are taking to work upon and inflame the minds of the working classes.

From the Chester Chronicle. In the neighborhood of some towns eight or ten miles from Manchester, we are told the Members of the Union Societies assemble in the evenings and go through certain evolutions with all the regularity of military parade.
