

On board the O'Higgins, bearing the flag of the Commander in Chief, in the bay of Callao, the 1st day of March, 1819.

(Signed) "COCHRANE.

By his Lordship's command,
"AM. A. JONTE, Sec'y."
The Government of Chili have eleven vessels of war to blockade eighteen hundred miles of sea coast, containing from thirty to forty Harbours, more than twenty Bays, and sixty roadsteads. Four of the eleven vessels are stationed off the port of Callao. [There were six American—five English, and one French vessel, lying at Callao, ordered off by Lord Cochrane, on 1st March, 1819.]

New-York, June 29.

Extract of a letter from Trinidad, Port Spain, dated May 2, 1819.

There has been several skirmishes between the vanguards of the two armies, who are at present near San Fernando, on the Apure. The Apure is a branch of Orinoco. The armies are reported to be equal in number, about 6000 strong.

The Independents have about 2500 English and German troops, with them, under very able officers. They are all well clothed and in high spirits. The greatest discipline and order reign among the troops. Gen. Paez's cavalry 2500 strong, and extremely well disciplined. He is a fine officer and may be well styled the Lion of the patriots. We daily expect to receive information from that quarter. The Congress is at present in session in Augustura. The Government is well established and some very able men are at the head of Departments. Guiria, Mathurin, and Cumanao are in possession of the Independents.

Margarita is still faithful, free and independent. An expedition is planning against Cumana. The fall of Cumana will put Barcelona and the whole Sea Coast, as far as Lagaira, in possession of the Patriots. Their success is certain. The Royal cause cannot be sustained but a few months longer.

LONDON, MAY 1.

MONTHLY AGRICULTURAL REPORT.

The weather has continued equally favourable as in our last Report for all the operations of husbandry; and the spring sowing may now be said to be generally completed, upon as fine a tilth as has ever been witnessed. The early sown spring crops, including seeds, are very forward, and have a very healthy appearance. The turnips lasted beyond expectation; and so great a proportion of stock remained abroad throughout the winter, that little or no detriment has been experienced from the short quantity of fodder.

The pastures will be open for stock earlier than has been known; and there is a promise for a vast crop of grass. Hay is in consequence considerably reduced in price, although the article is scarce. The meadows, have been free from floods, sheep have been freely trusted upon them, and have remained healthy. The lambing season has proved most fortunate, and an unusual number of doubles obtained. Potatoe planting will soon be finished, and the scale will be large. The blossoms for fruit most flourishing and universal. The hops full of fine, strong, and forward shoots; in short, the indications of fruitfulness and plenty are universal, evincing the natural goodness of our country, and the infamy of that system which has rendered us shamefully dependent on foreign countries for a supply of the first necessities of life, and pauperizing the great majority of our people. Wood, at length considerably reduced in price; and the demand ceased in consequence of the present stagnation in manufacturing concerns. The wheats have continued to advance rapidly, and there will be ears of wheat earlier in May than the present generation have witnessed. It is asserted that the phenomenon of several complete ears of wheat has been already shewn. The crop looks admirably, with some slight appearance of discolor in places. It is remarked, that the influenza of the present spring, which has had considerable effect on the human constitution, has hitherto been successfully resisted by fruits and vegetation. The Corn markets have been considerably depressed by the prospect upon the ground and by the imports. Five hundred thousand quarters are said to be warehoused in the metropolis. But, whatever arguments may be brought into use, this will still be paramount, the country must be supplied and secure, as to the first necessities; and, if we are not permitted to feed ourselves by a home growth, in a country well able to support a far more numerous population, we must either import, or starve upon a fruitful soil, rendered barren by excessive taxation. As to a tax on imported produce, it is but too apparent, whenever imposed, England, which generally pays the piper, must also pay the fee-

der. It has been reported, that the wheats, being so forward, are out of danger; but, to the present writer, danger appears more imminent from that very cause. We have had a long course of south-westerly winds and the blooming may prove a very critical season.

will be handsomely rewarded, and all necessary

expences paid.

JOSHUA JEWETT.

Miramichi, 12th July, 1819. 3wp.

Mr. Lugin,

Permit me, through the channel of your useful paper, to inform *Justus E. Wright*, (whose name appears at the bottom of an most impudent Notice in your last Tuesday's paper,) that I am now, and always have been, ready to give up to him his Note of Hand, whenever it may suit his convenience to call at my house. Having had already a good deal of trouble with this man, in getting my Horse out of his hands, (for the payment of which in part this Note was given) I wish to be excused in not taking any more on his account.

H. S. HENLEY.

St. Mary's, 10th July, 1819.

FOUND,

ON Wednesday evening last a Red Morocco POCKET BOOK, containing several Notes of Hand &c. The owner may have the same by applying at this office, and paying the expence of advertising.
