JOHN SAUNDERS.  
G. F. STREET, Att'y.

LEGISLATURE OF NEW-BRUNSWICK.

[Extracts from the Journal]  
Tuesday, 13th February.

Mr. Perly presented a Petition of the Church Wardens, in the Parish of Burton, praying aid towards repairing the Church in that Parish—referred to the Committee of Supply.

The House according to order, resolved itself into a Committee of the whole House, on the further consideration of the report of the select Committee appointed to search for precedents, as to the propriety of admitting evidence before the House, to shew that the vote of any Elector was not given as entered in the Poll Book, at any election, and to report thereon to the House: And also on consideration of the Petitions of Benjamin Atherton, and Henry Smith, Esquire, complaining of an undue return for the County of York.

Mr. Stubbs, chairman of the Committee,

reported, that in the Committee the following resolution was moved and seconded:

Resolved that it is the opinion of this Committee, that under the circumstances stated in the Petition, evidence should be taken either at the Bar of the House, or before a select Committee, as the House may direct, with regard to the vote of Benjamin Atherton.

Upon the question, the Committee divided, as follows:—YEAS, 5;—NAYS, 18. It therefore passed in the negative.

On motion of Mr. Stubbs, resolved, That it is highly expedient that a most dutiful and humble Address should be made to the King's most Excellent Majesty and both Houses of Parliament, setting forth the great injury that would arise to the Province, in case a duty should be imposed on Timber exported from this Colony to the Mother Country: Also resolved, that the Honourable His Majesty's Council, be requested to join in the same.

Mr. Johnston presented a Petition of several Merchants of the City of St. John, praying for aid to establish in the City, an Hospital for the reception of sick and wounded Seamen of the Merchant service—referred to the Committee of Supply.

Wednesday, 14th February.

Mr. Wilnot presented a Petition of the Deputy Preventive Officer, praying remuneration for expenses incurred by him in the execution of the duties of his office—referred to the Committee of Supply.

A bill "to amend the Laws now in force relating to trespasses, and to make further regulations to prevent the same,"—was ordered to be engrossed.

A bill, "to alter and amend an Act, intitled "An Act for the regulation of the Militia of this Province," was read the first time.

An engrossed bill, "to provide for the services of the Speaker of the House of Assembly, and for defraying the expenses and travelling charges of the Members of the said House attending in General Assembly,"—was sent to the Council for their concurrence.

Mr. Simonds, from the Committee appointed to inquire and report what rivers in the Province require the attention of the Legislature, and by what means the same may be improved—reported as follows:—

1. That in Northumberland there are four rivers that deserve attention. The first is called the Seivogle, discharging into the N.W. branch of the Miramichi. This river is obstructed by rocks and other impediments, and would require, in addition to the sums formerly granted, about £125. In the Parish of Saumarez, are three rivers that discharge into the Port of St. Peter's. The first is Big River, (so called.) This river is much obstructed by rocks, for a distance of 15 miles or more, and would require a sum of £400, to make the necessary improvements. The second is called Middle River, and is also, like Big River, much obstructed in its course: there has been £500 laid out in this river at private expense. The persons who have advanced this sum, are, in the opinion of your Committee, intitled to the consideration of the House. The third river, commonly called the Teitigouche, is obstructed in several places for seven or eight miles, and would require a sum of £25 to remove such obstructions.

2. That in Westmorland, the north branch of the Patodioc is obstructed by rocks and drift wood, which could not be removed at a less expense than £200.

3. That the course of the river Kennbeckiacis, from Smith's farm upwards, is much obstructed by trees, rocks, and other impediments, to the great inconvenience of the Settlers. These impediments could not, in the opinion of your Committee, be removed for a less sum than £200.

4. That the rivers in the County of St.

John, are generally small, and rapid in their course, and in the opinion of your Committee, do not at this time require the attention of the Legislature.

5. That the passage leading into the Grand Lake would be much improved by deepening the shoals at the mouth of the Jemseg; but your Committee are of opinion that a large sum would be required for this purpose; and that £300 would be necessary to make a trial as to the practicability of deepening this passage.

6. That the shoals near the Oromocto impede, at some seasons; the navigation between Fredericton and St. John, and require the attention of the Legislature. The deepening of these shoals would be attended with a heavy expense, and great difficulty; and your Committee are of opinion that £125 would be required to make the experiment.

The Creek commonly called Simonds' Creek, is obstructed by logs and other impediments. To remove which, would require £25.

7. That in Charlotte County, the sum of £200 will be required for removing rocks in the channel of the St. Croix—the sum of £100 for removing rocks and facilitating the navigation of the river Magagaudavic, above the Falls—the sum of £75 for removing the rocks in the Channel of the Digdeguash river—and the sum of £50 for removing obstructions in the Piskitagan.

8. That in the County of York, the river St. John and the Nashwalk river, require particular attention:—£25 would be required to remove obstructions on Chapel Bar; and a like sum at the Bar near Bear Island, in the river St. John—and to improve the navigation over Meductic Falls, would require the sum of £100. The obstructions at Betts' and Feroe's Rocks, are objects of attention, and also the towing paths— to remove and improve which, would require £35. To improve the White Rapids, between the river Tobique and the Grand Falls, would require a sum of £100—and a further sum of £25, to improve the Rapids near the Grand Falls. The Falls in river Nashwalk, would also require a sum of £50, to remove impediments in the same.

Your Committee are of opinion, that much benefit may result hereafter by improving the navigation of the several rivers mentioned in this report, and that the several sums herein mentioned would be required in addition to former grants to make any effectual improvement. Yet from the present state of the Public funds, your Committee are doubtful whether it will be expedient, at this time, to make any appropriation in addition to the sums heretofore granted for this purpose.

A Committee was appointed to inquire into and examine all the accounts of the Deputy Treasurers of the several Counties in this Province, and make report of the balances due from them.

An engrossed bill, "to prohibit Foreigners selling by retail in the Port of St. John,"—was sent to the Council for their concurrence.

Thursday, 13th February.

Mr. Simonds presented a Petition of John Campbell, praying aid towards making an establishment for the accommodation of travellers, on the new road leading from Loch Lomond to Quaco—referred to the Committee of Supply.

A Message from the Council, as follows: "Mr. Speaker,—His Majesty's Council have concurred in presenting an Address to His Majesty and both Houses of Parliament, on the subject of a duty on Pine Timber."

A bill, "to repeal an Act, intitled "An Act for the further increase of the Revenue of this Province," passed 25th March 1820: And "An Act in addition
