eed in its direction, by the geographical determination of the highlands, and their lateral angles, - but on shiftings, usually takes place, first to the east, then to the west, and stly to the north west.

In most notifiern situations, east winds are prevalent for a considerable part of the year, and almost the whole of the spring. On a geographical view of this Province, it appears extremely exposed to this abueous wind, generated from the ocean. The south wind is charged with the same dampness, but accompanied with a relaxing warmth. The west and north winds, the one blowing over a wide and mountainous continent, the other from a still higher latitude than ours, are found to be dry, brac-

ing and salabrious. In my next communication, some remarks on the influence of our atmosphere on health and vegetation will be given. BRUNSWICKUS.

(To be Continued.)

NEW-YORK, Nov. 5.

At a Meeting, held at Sykes, New-York, Coffee-House, on the 1st day of No. vember, 1825. Janes Bogge, Esq. was called to the chair, and M. C. Patterson appointed Secretary.

The Rev. Dr. Wainwright offered for consideration, the following preamble and resolutions, which, being seconded, were

unanimously passed.

Whereas this meeting has heard of the terrible devastations caused by a fire in the Province of New Brunswick, which spread. over an extent of country 100 miles long and 40 broad -destroying numerous towns and settlements -- consuming a vast amount of property-cutting off entire families in its course, and exposing hundreds to all the rigours of the winter in a northern climate without a shelter or clothing : - And whereas any aid, to be sufficient, must be prompt, inasmuch as that coast is almost inaccessible in winter, owing to the ice, and the general severity of the season. - And whereas, the duties of charity are restricted by no geographical limits, but are co-extensive with human sorrows: --

Therefore resolved, That we deeply sympathise in the sufferings of the unfortuare People of New-Brunswick, and feel ixious to extend to them that assistance hich is due from us both as Men and Chris-

Resolved, that with these sentiments, a bscription be opened for their relief, uner the directions of a Committee, to const of the following Gentlemen --- The Brish Consul, Thomas Dickson, Beverly Lobinson, T. W. Moore, Jacob Harvey, fas. Hay, H. Barclay, Joseph Fowler, S. 7. Lambert, Joseph Walker, G. W. Wallis, Esq'rs. and Dr. Bartlett.

Thereupon, it was further resolved, that he above Committee have power to forward and distribute any funds which may de collected, in such manner as it shall decm

n'est expedient.

Resolved, that Morris Robinson, Esq. e requested to act as Treasurer, and reeive any contributions which may be landed to him.

Resolved, that the thanks of the Meetng be presented to Mr. Sykes, for his liratity in providing gratuitously the room in which they are assembled.

Resolved, that the above resolutions be signed by the Chairman and Secretary, and published.

JAMES BOGGS, Chairman. M. C. PATTERSON, Secretary.

N. B. Persons desirous of contributing, and who may not be called upon, will be pleased to hand their subscriptions to the Branch Bank, or to any of the Committee.

By the evening of the next day the subscription amounted to 3834 dollars, when the Committee immediately despatched to Sir HOWARD DOUGLAS a draft for 5000 dollars. The Committee reposing entire confidence in His Excellency, placed the whole sum entirely at his own disposal; to be appropriated as he may think fit, among the poorer part of the sufferers. On the evening of Thursday it was announced that 1200 dollars additional had been sub scribed, and the good work is still going

HALIFAX, Nov. 16. By the Billow we received New York apers to the 10 h, and Boston to the 12th

A Fire occurred in Court Street, Boston, on Thursday last, which destroyed ten Brick, and several Wooden Buildings, and much other valuable Property. Among the occupants of the houses were thirty five Counsellors at Law.

BOSTON, Nov. 10. Subscriptions are raising at Quebec and Montreal for the sufferers by the recent fires in Miramichi. A vessel was to sail from Quebec early in this month, (chartered by Government) with clothing and provisions to the value of £60000 A number of small vessels, on private account, had also cleared out for Miramichi.

FREDERICTON, (N. B.)

TUESDAY, 22d November, 1825. - CHROTEN CO-

Alms-House and Work-House. COMMISSIONER FOR THE WEEK, JEDEDIAH SLASON, Esquire.

HENRY G. CLOPPER, ESQ.

JAMES TAYLOR, ESQ. HENRY SMITH, ESQ.

Amount deposited Yesterday, £27 1 8

Amongst many instances of the improved state of Government under which this Colony is now flourishing, none is more striking than that p licy which has thrown open to the applications of industry that fine district known as the Hanwell Settlement. Four months ago an extensive tract of Country was inaccessible to public enterprise, which is now possessed of a capital read extending nearly fifteen miles from the seat of Government, and considerable clearances have already been made. When we reflect that an immense forest has thus been laid open to the operations of Agriculture, which under less enlightened management might have long remained a wilderness; we are led invofuntarily to expect the most felicitous results from the future proceedings of our Commissioner of Crown Lands, the Hon. THOS. BAILLIE We understand he has commenced a personal inspection of his Majesty's reserves throughout the Province, and that on a recent occasion he performed a most arduous and fatiguing journey, to the great reservation on the Oromocto. The route thither is for a great part through a dense, tangled, and trackless forest; but loose and sunken Carriboo plains offer, the most toilsome obstacles to the progress of the traveller for the far greater part. Yet Mr. BAILLIE and his attendants, left town in the morning, and reached the peaked mountain by two o'clock, a distance of nearly 28 miles, and after inspecting the neighbouring Pine groves, and establishing the relative positions of the most prominent feauteues of the Country; by admeasurements, and intersections, he returned by the same route and arrived in Fredericton a littleafter nightfall One of Mr BALLELE's attendants, an enlightened, and experienced Indian, who, besides that apparently natural instinct, by which his race explore their purposed path, through the most unfrequented wilds, exhibited many instances of that dexterity, for which the aboriginal natives are so deserved y celebrated ---Much incredulity has prevailed, as to the stupidity or tameness of the partridge native to this Country, but as a decided instance of the correct statements frequently made on this subject; one of these birds remained stationary, while the Indian was clearing a space of nearly six yards in length, for the purpose of throwing his Tomahawk -Every impediment being removed, he poised his weapon, and by a dexterous movement, hurled it at the game, which instantly fell a prey to his unerring dexterity. Another peculiarity of his tribe was de eloped, in the quickness of eye by which he perceived a numerous herd of Carriboo, and the powerful and striking expressions of regret at not possessing his wanted arms.

It is remarkable that this much prized inhabitant of our woods, which was recently deemed nearly extinct, has of late years appeared in numerous droves. We trust that the same Legislative wisdom which has provided for the preservation of the Deer, will be extended to the protection of the Carriboo ..

Mr. BAILLIE describes the Hill known by the name of the peaked Mountain, as a grand and commanding eminence, from which the eye is carried over an amazing extent of Country, where the most striking features of natural Landscape, are displayed, and concentrated, in the most diversified lunuriance.

FESTIVAL Saint Andrew.

TEDNESDAY the 30th inst. being the Anniversary of the Tutelar Saint of Caledonia, it is proposed by some of the Sons of Scotia, to celebrate that day by dining together at the Barristers Inn.

Such Gentlemen of Scotch decent as may be disposed to Celebrate the day as above proposed, are requested to leave their names at the Barristers Inn, previous to Saturday the 26th irist. where a subscription paper will be kept.

Dinner to be on the Table at 5 o'clock. Fredericton, 21st Nov. 1825.

A SLEIGH FOR SALE, 7 1TH Cushions complete fitted for either one or Two HORSES. inquire of JAMES CAMERON. Sept. 13th, 1825.

110 Bush. Grain subscribed in Kent (York County).

The foregoing statement of the funds which have been placed at the disposal of the Central Committee at Fredericton, is submitted to the public for their satisfaction. By which it will appear, that the only disposable donation from other quarters which the Committee have yet received, is the very liberal gift from St. John of Three hundred Pounds, and the donation from the Royal Artillery Company at that place

The Committee however feel themselves called upon to return their thanks, also for the donations of Messis. LEAVITT, and MI. STEPHEN SMITH, at St. ohn

The Parishes of Woodstock and Kent, in the County of York, are also entitled to the thanks of the Committee and it is confidently hoped their example will be speedly tollowed by every other Parish in the Province.

Also will be seen, the amount of subscription raised in Fredericton, for the general relief of the sufferers throughout the Province. Two hundred and filty Pounds of which have already been remitted to Miramichi In doing which the Committee fear they may be considered to have been rather lavish of their funds, but the wants and necessities of Miramichi having been represented to be more urgent than any other part of the Province, the Committee embraced the earliest opportunity of redeeming the pledge they had in some degree made.

The Committee, through the blessing of Providence, hope they have sufficient means of keeping the sufferers in Fredericton from absolute want during the winter, but to render them any effectual aid is at present out of their power.

The Committee have also forwarded a circular to the High Sheriffs throughout the Province, requesting them to convene Public Meetings, and collect subscriptions for general relief, and also to forward from time to time such reports of their proceedings, as may enable the Central Committee, to make a more full and satisfact TV statement to the Government. And in a report of the whole calamity, the Committee have forwarded an appeal to the British Nation, with every sanguine hope of exciting their compassionate assistance, which is as follows .-

TOTHE BRITISH NATION.

The General Report and Humble Appeal, of the Central Committee, in Frederic. ton, appointed under his Excellency the Lieutenant Governor, Major-General Sir HOWARD DOUGLAS, Bart. K. C. B. &. &c & .. to enquire into, and relieve the immediate wants and necessities of the sufferers by the late Fires in New-Brunswick.

TE, the undersigned having been appointed a Committee to devise means for the relief of those who have suffered in Fredericton, from the effects of the late lamented conflagration, deem it a duty which we owe to them, as well as to others involved in the same distress, to endeavour, through you to excite the compassion, and to call forth in their behalf the liberality of the British Nation -This Province, has hitherto in General been exempted in a remarkable manner, from visitations of an awfulnature, until during the course of a few weeks past, we have been destin'd to feel the destructive ravages of FIRE, in no common degree -On the 19th of last month, the Government House in the immediate vicinity of this Town, accidentally caught fire, and in spite of every effort to save it, was in a short time, with the exception of a small part of the Building consumed. On the seventh of October, a fire was discovered on the Premises of the Commissioner of Crown Lands and Forests, about a mile from Town, this drew out the Fire Engines, the Troops of the Garrison, and the greater part of the Inhabitants, leaving few in the Town, but women and children, and the least efficient part of the Population. Whilst in this desenceless state, a fire most infortunately broke out in Town; when this was reported, as many as possibly could, made every haste to reach Town, but from the fatigue, and exhaustion, they had previously undergone, (the weather then being intensely and unseasonably hot, and the wind blowing with great violence,) they were for a long time unable to stop the progress of the Flames. The devouring element, raged with great fury until near 9 o'clock at night, when it was through the persevering efforts of the Inhabitants and Military aided by the blessing of Gon, finally checked. Forty onedwelling houses, with their out-Houses, besides Stores: (being about one third of the whole Town) have been destroyed in Fredericton, in all 80 buildings. But this calamity dreadful as it is, can scarcely be compared with what we have to relate of other parts of the Province On the river Oromocto, about 25 miles from this place, fifteen Houses were destroyed on the same evening, three children burnt to death, two others and the Mother much burned, and the Father missing, and also, on the same ill fated night, the town of Newcastle, about

were visited by one of the most tremendous Hur. ricanes and Conflagrations ever witnessed in any part of the world, and which resembled more the immediate interposition of the hand of the Aimighty, than the rage of the elements in an ordinary state of convulsion But we cannot do better than to annex hereto, their own heart rending narrative -The most deplorable part of the calamity, as you will perceive, is the unprecedented loss of human lives attending it, thus leaving many surviving sufferers, not only destitute, of every means of relief, but in a state of mental distress, grief and anguish. beyond the power of language to describe. In order to afford immediate aid to the sufferers in Frederiction, and its vicinity, His Excellency Sir How-ARD Douglas, convened a Meeting of the Indabitants on the 8th instant, and after having in an eloquent and appropriate Speech, explained the best means to be adopted for that purpose, a Committee was formed, and subscriptions entered into. At the head of the List, His Excellency placed £200, from His Majesty's Revenue, and a donation from himself, which with His other subscriptions amount to the sum of One hundred and Ten pounds. It is with heartfelt gratitude, that the Committee, acknowledge the very liberal sums which have thus been procured and in an especial manner, we feel ourselves bound to return sincere thanks to the Mayor, Corporation, and Inhabitante of St John for their prompt and great generosity. By the means thus providentially put into our hands, we have had the satisfaction of being able to relieve, in some degree the immediate wants of the most necessitous in Fredericton; but we still feel ourselves unable to repair the losses of our fellow subjects labouring under so great a mistortune, in the man ner that we could wish, without that assistance from the Mother Country, which from the well known benevolence of the Brit sh Nation, we confidently anticipate. We hope to be pardoned in putting you in mind, that this Country when a wilderness was settled by those, who abandoned mil that is dear to man, in this life, rather than forfeit allegiance to their Sovereign, and attachment to his Government. These first settlers had diffiulites to struggle with, of which none can form an adequate conception, except those who experienced them -But by perseverance these difficulties were surmounted, and the Province has continued to advance in Prosperity, to a degree not surpassed by any of His Majesty's Foreign Possessions, until checked by the late melancho, y events; as a proof of which we beg leave to mention that no less a sum than £200,000 was paid into the Treasury of Great Britain last year, from the Commerce of this Province: Although we have deemed it our duty to state these facts, we are certain that nothing is required to call forth the liberality of the British Nation, but a well authenticated tale of woe. It has ever been the glory of that Country to alleviate human misery in all its various forms, by every means within the reach of human power. When we call to remembrance, that in the diffusion of this charity the distinction of Stranger and Foreigner has been sunk, in that of man, and that even the natives of a country long hostile, when cast as Exiles upon the shores of Britain, in the shock occasioned by a great Revolution, found an Aselum and a home, we indulge the hope that the st fferings of a people, whose glory it is to form a part of that Empire, derived from the same origin, speaking the same language, subject to the same Laws and form of Government, blessed with the same Divine Religion, and yielding to none in Loyally to the August and Gracious Prince, at present on the Throne, will not in this day of deep distress, plead in vain. The total loss as near as has yet been ascertained to not short of Three hundred thousand Pounds GEORGE SHORE, of His Majesty's Council. THOS. BAILLIE, of His Majesty', Council GEORGE BEST. Archdeacon of the Province and Rector of Fredericton FAMES SOMERVILLE, A M President of the College of New-Brunswick EDWARD W. MILLER, High Sheriff WM 7 BEDELL, Justice of the Peace. WILLIAM TAYLOR, Coroner HENRY G. CLOPPER, Clerk of the Peace.

one hundred and twenty miles distant on Miramichi

river, with many of the surrounding settlements.

College Lands.

Fredericion. (N. B.) 25th Oct. 1825.

LL Persons who have bargained for Leases of any of the College Lands are hereby notified, that no notice will be taken of any such agreement, unless they immediately come forward and take out their Leases :---

And all persons not legally authorized are cautioned against cutting Wood on any of the Callege Lands, as in the event of their so doing they will be presecuted as G. F. Street, Seely Tresspassers. Fredericum, 22d Nov. 1825.
