G F. STREET,  
Att'y for A. Brown,

Several cases of Desertion from His Majesty's Forces, having recently happened here--we have deemed it advisable to publish the following Letter addressed to the Magistrates of the several Counties in this Province; and we doubt not that the exertions of His Majesty's loyal and faithful Inhabitants, in their respective stations, will be used to put a stop to so serious an evil  
Fredericton, 3d June, 1826

**GENTLEMEN**  
**S**EVERAL cases of Desertion from His Majesty's Forces, having recently happened here, and the delinquents, excepting in one instance, having escaped; His Excellency the Lieutenant-Governor has thought proper to call the attention of the Magistrates of the several Counties, to this serious, and, as it is to be feared, growing evil.  
Soldiers are never permitted to travel in any part of the Province without a Pass, so signed and authenticated as not to be mistaken, and, although Deserters will always assume a disguise, yet a little vigilant attention will easily discover them; and beside the pecuniary reward given for their apprehension, there are powerful motives which should operate upon the mind of every faithful subject, and prompt him to lead his aid to detect and prevent these offences. His Excellency therefore relying upon the zeal of the Magistrates, requests that they will, in their several districts, not only use their own best exertions, but also make known the subject of this Letter, and call upon the Inhabitants at large, who from their well known Loyalty, will, His Excellency is convinced, need no further stimulus to excite them, in their respective stations, to use their best endeavours in the discharge of so important a duty, which they owe to their King and Country.

I have the honor to be,  
Gentlemen,  
Your obedient humble Servant,  
**WM. F. ODELL.**

**EMIGRATION TO CANADA.**

The following is a copy of a letter which has been received by Mr. Galt of the Canada Company (a gentleman well known in the literary world), with reference to petitions on behalf of Highlanders desirous of emigrating to Canada, and transmitted by him to Earl Bathurst, Secretary for the Colonial Department, from which there appears little prospect of encouragement, being given to emigrants by the government this year.

*Downing Street Feb 28, 1826.*

SIR--I am directed by Lord Bathurst to acknowledge the receipt of the petitions which have been transmitted by you from the Highlanders of Scotland, who are desirous of emigrating to His Majesty's North American dominions, and to acquaint you, that as Lord Bathurst has no funds at his own disposal, which enable him to afford any assistance to persons who have applied for passages, or other aid from Government, his Lordship is of opinion, that it would be proper to inform them that their petitions will be laid before the committee of the House of Commons, which is likely to be appointed to enquire into the subject of Emigration, and that it is very doubtful whether any encouragement will be given by Government during the present year.

I am, Sir,  
Your most obedient humble servant,  
**J. R. W. HORTON.**

**LIMA, FEB. 11.**  
The Liberator, Bolivar, arrived here yesterday from Upper Peru, and was welcomed with every mark of respect and rejoicing. It is not expected he will be able to attend the grand Congress of Panama. The Congress of Peru is convoked to meet on the 20th of April.

*Extract of a Letter.*  
"CALLAO, March 4.--Since the capitulation of this place very little business has been transacted; but means are taken to restore the town to its condition before the siege.--Many parts of it exhibit deplorable ruins. Orders have been given to dismantle the Patriot Navy establishment, as no fears are entertained of any further attempts of Spain to obtain a new footing on the soil of the Ircas, or to establish a naval force on the Pacific. The gallant Gen. Rodil has sailed for Chili in the British frigate Briton. Before his departure he visited the United States Ship Peacock; was received by a salute of honor, and expressed himself highly pleased with the appearance of the ship and the excellent discipline of the Crew. The United States, Com. Hull, has sailed for Valparaiso. The American squadron in this sea has obtained a high and deserved reputation; and it is expected, it will be relieved during the present year. The Dolphin is on a cruise to the Mulgrave Island."

*EXTRACT OF A LETTER.*  
"United States frigate United States, Callao Bay, Jan. 24, 1826.

"His Britannic Majesty's sloop of war *Mercy*, sails this evening, for Panama, with Gen. Rodil on board, I have only a few moments to write to you. The Spanish General has just given up the Castle of Callao to the Peruvians; and a boat from thence has brought terrible accounts of the suffering of the people there. When the port was first invested and blockaded, there were 7000 persons in it, which have been reduced to 700, including the troops in the three Castles. The town is said to be in a most horrid state, the people lying dead in their houses exposed as they had been to starvation

two or three months. But few of the houses were left standing, and those full of shot holes.--Those who have survived exhibit little more than skin and bones, and some of them were seen lying in their beds in the streets. It is stated, that Gen. Rodil had trains laid to the three castles; and that those trains were all laid under the cot wherein he slept, in order should the castle be surprised, that he might blow them up. About six days before the surrender, two Officers deserted from the south battery to the Patriot squadron, and gave information of the trains laid to blow up the castle; and offered, if they would send some men to show where the train of the battery was laid. They did so, and cut it off, when the Patriot soldiers took possession of the battery. As soon as Rodil perceived that the Patriots had possession, he set fire to the train, and to his surprise, found that it extended no farther than the cot. It is added, that he was in so violent a passion at the failure, that he tore the hair from his head.--He, of course, soon found it necessary to capitulate."

A letter from an Officer of the *Peacock*, dated Callao, 11th Feb. received in Philadelphia, gives the following additional particulars:--

"The Marquis Torre Tagle, his wife and family, have either been killed or starved to death. From the extreme want of food in his family, he gave Gen. Rodil a Medal, presented to him by the Peruvian Government, whilst President of Peru, valued at thirty thousand dollars for a half barrel of Beef, and a small quantity of rice. It is ascertained as a fact that the Horses and the Mules, they were compelled to kill, to prevent their dying of starvation, were sold to the inhabitants at the enormous sum of 17 dollars per pound. A single fowl 80 dollars a piece; there was not a dog or cat to be found in the place at the time of the surrender of the Castles--they had all been eaten by the inhabitants. At the commencement of the siege there were 1500 troops in the Castles, and 4,500 inhabitants in the town. At the surrender there were but 300 troops and 500 inhabitants; thus you see, that out of 6000 souls, there were but 800 left.--*F. Jour.*

(From our Correspondent.)

"The accounts, within these few days received, through the southern and western papers, represent those sections of the country, as suffering severely from the continued dry weather and unusual heat. The thermometer, in some parts is said to have risen as high as 100 in the shade, and 130 in the sun--a degree of heat almost unprecedented, so early in the season. In Virginia and some other southern districts, prodigious swarms of locusts have appeared, desolating the verdure of the forests, and extracting the principle of life from the vegetable creation. Though the section of country in the vicinity of this metropolis has suffered considerably from the drought, we have as yet not been visited by that dreadful Egyptian plague--the Locust;--and we hope that as we have been blessed with slight showers within the last two or three days, and a cooler atmosphere, vegetation will now revive, and the hopes of the husbandman be fully realized.
