

F. S. A. and M. R. I. A. was born in the year 1754. His Lordship entered the army as soon as he had finished his education, and served in America and was appointed Adjutant General to Sir H. Clinton's army. In America he attained the rank of Brigadier, and on his return to England was created an English Peer His Lordship shortly after this period officiated as second to his Royal Highness the Duke of York, in a duel with Col. Lennox, afterwards Duke of Richmond. Lord Moira subsequently served on the Continent, and in 1805, was appointed Commander-in-Chief in Scotland; in 1806, Master General of the ordnance. On the succession of his Majesty to the Regency, Lord Moira received the Order of the Garter, and shortly after was appointed Governor of Malta. His Lordship's generosity and benevolence were beyond all bounds; the devotion of his property to the cause of the French emigrants, and the general exercises of charity and beneficence, greatly impoverished him—but he was rich indeed, in that satisfaction which arises from the practice of every kind and humane feeling that can adorn the humane heart. His Lordship married, July 1804, the Countess of London, by whom he had issue George Augustus Frederick, Earl of Rawdon, born 4th of February, 1808, and three daughters.

*Civil Appointment.*

His Excellency has been pleased to appoint DAVID WYER, Esq. Mr. SAMUEL ABBOTT, and Messrs. BATE and MOWATT, Auctioneers for the County of Charlotte.

We are not in possession of any later European intelligence than that we have already published.

Through almost every channel, now, the reports relative to the Duke of York's illness wear the most melancholy aspect.

As we expect to have a good deal to communicate in our next, by which time the Packet will most likely have arrived, our readers must bear with us for any deficiency in the present number.

We beg to direct the Public attention to a Paper Mill which is now established by Mr. John Wilson, at Chamcook, in the Parish of St. Andrews. We have already seen some samples of its manufacturing, and have little hesitation in saying that the general quality of Mr W's paper appears to be such as to render it worthy of every patronage and support: and as it is doubtless an article of the greatest utility, and can be procured from Mr. W. at an expense much below what it is now imported for, we trust Mr. W. will receive that encouragement he so highly merits. As we hope to be able to publish our Gazette upon Mr. W's. paper ere long, we shall reserve further remarks for that occasion.

The Archdeacon, on Sunday morning last, gave notice that an evening Lecture would be delivered in Christ Church every Sunday, at 6 o'clock, during Lent, appropriate to the season.

The Rev. Mr. McCawley accordingly delivered his first Lecture (from 2d chap. Acts, v. 19.) on Sunday evening, to an attentive and full congregation; when he very ably explained the cause of the particular religious observance of this Season by the Primitive Church, and most forcibly and feelingly urged the necessity of it in the present day. The course of Lectures as we gathered from himself will be delivered by this Rev. Gentleman: and judging from the able specimen he afforded us on Sunday, much useful knowledge may be obtained by those who shall attend.

It is with much satisfaction we notice, in the deliberations of the Legislature, the motion for a Bill to amend the Law against drunkenness and Sabbath breaking, a Law which has hitherto been merely nominal, under which, it is believed not an instance can be produced of any person having been fined for travelling or working on the Lord's day—the iniquities practiced in our lumber camps on that day—and the general practice of travelling on that day—and the well known habit of Truckmen, Boatmen, Sleigh drivers and others making a point of appropriating that day to the above unhallowed purposes is a matter of shameful notoriety. It is not an unfrequent thing to see Farmers hawling hay to the woods on the Sabbath—in some places it is we are informed, a constant practice—we do hope sincerely without any overstrained attempts at goodness, without being thought "righteous overmuch," that the Legislature will cause a heavy fine to be imposed upon all who shall hereafter be found guilty of so heinous an offence, and take care that the Magistrates shall enforce it.

MIRAMICHI, FEB. 13.

**FIRES.**—Last Tuesday evening, the dwelling House occupied by Mr. Alex. Mills, in the lower district of Newcastle, was totally consumed by fire; Mr. Mills' house was one of the few in that quarter which escaped the great fire in 1825.

NASSAU, Jan. 13.—The Lively, of this Port, about 8 days since, found the hull of the Brig Emerald, of Halifax, wrecked at Mayaguana, and saved several puncheons of Rum. —*Novascottian.*

BEWARE OF IMITATIONS.

THIS article is now, beyond all dispute, considered by every Physician of extensive practice in the United States as the best known external remedy in all cases of Bruises, Sprains, Gout, Rheumatism, Cramp, Numbness, Stiffness of the Neck or Limbs, Chilblains, Chapped Hands, Stings of Insects, Vegetable Poisons &c.

The use of this celebrated remedy is not confined to the American States. Orders for it are constantly received from South America, the West Indies, Nova Scotia, Lower Canada, and in one instance orders were received from England and Russia.—In a late letter, to the Proprietor from St. Salvador, the writer observes, "Your Opodeldoc begins to be well known and fully appreciated," &c.

Certificates have been received, sufficient to fill a column of a paper. A few only of the first respectability are attached to the directions—among which is one from a Physician of the highest grade in Europe or America.

Pause before you Purchase.

No one circumstance can more fully prove the value and great demand for this Medicine, than the numerous servile and contemptible imitations in existence—some have so closely imitated the stamp and type of the outside wrapper, as to be difficult of detection, except only by the omission of the NAME. Therefore, as you value your Life or Limb, be sure to ask for and receive

only, or you may be most wretchedly imposed upon.

At the same place may be had, the

*Aromatic Snuff,*

celebrated throughout the American Continent, in cases of Catarrh and Headache, Drowsiness, Depression of Spirits, Vapors, Dimness of Eye-sight, and all disorders of the head. From its most fragrant and grateful quality, it completely counteracts the effects of a bad atmosphere, and being greatly antiputrescent, is indispensable for all who watch with or visit the sick.

is recommended by Dr. MITCHELL, of New-York, M. D. L. L. D. Professor of Botany and Materia Medica in their College of Physicians: The SNUFF, by Dr. WATERHOUSE, Professor of the Theory and practice of Physic in the University of Cambridge.
