His Majesty's Packet Nocton, arrived at Halifax in 39 days from Falmouth, has brought London dates to the 11th March. The most material information they furnish is Mr. Canning's restoration to health, so far as to enable him to resume those important discussions which now seem almost wholly to depend upon the exercise of that great and enlightened Statesman's transcendent abilities: He is, at least, the consummate master of his various duties, and the questions pending at the present moment evidently rely on him for their chief support and strength. The Earl of Liverpool is also said to be gradually recovering.

CATHOLIC QUESTION.

Sir Francis Burdett moved the following Resolution in the House of Commons on the 5th of March:—"Resolved, that this House is deeply impressed with the necessity of taking into its immediate consideration the disabilities imposed on the Roman Catholics of Great Britain and Ireland, with a view to their relief." The object of this Resolution, as it appeared from Mr. Canning's Speech, was merely to ascertain whether the House was in a temper likely to give a favourable reception to a Bill, previous to any attempt being made to introduce it; a measure which the Right Honourable Secretary decidedly approved and therefore supported. When Mr. Canning had concluded his Speech, Sir F. Burdett said a few words in reply, and begged to change the word necessity for expediency, and to expunge the word immediate.

The House then divided upon the Resolution as amended, when there appeared—

Table with 2 columns: For the Resolution, Against it, Majority against the Resolution. Values: 272, 276, 4.

The Question relating to the Corn Laws was brought before the House of Commons on the 1st of March by Mr. Canning, and a series of Resolutions moved by the Honourable Secretary for regulating the importation of Corn into the United Kingdom; but our present limits compel us to defer the particulars until next week.

St. John, April 28, 1827.

Brig White Oak arrived at New-York, 14th inst. in lat. 32. 48. long. 45. 50. fell in with the wreck of the brig Olive Branch, of St. John, bowsprit and part of her mainmast standing—hatches off, cabin window gone, and rudder unhung—was lumber loaded, and full of water.

The American ship Alexander, Baldwin, at Liverpool, from Charleston, saved the

crew and passengers (John Robson and Gilbert Henderson of Miramichi,) from the barque Flora, Rayne, from St. John, for Liverpool, on the 15th Feb. lat. 30, lon. 37, having sprung a leak nine days previous, and becoming water-logged. During the nine days that the unfortunate crew and passengers were in that situation, they subsisted on a few biscuits, but without water.

KING'S COLLEGE, WINDSOR, FEB 7

And the Honorary Degree of Doctor in Civil Law, was conferred on the following gentlemen.—

The Venerable AUBREY GEORGE SPENCER, Archdeacon of Bermuda; the Venerable GEORGE OKILL STUART, Archdeacon of Upper Canada; the Rev. JOHN MILLIDGE, Rector of Annapolis; the Rev. THOMAS BOULBY ROWLAND, Rector of Shelburne; JAMES STEWART, Esq. H. M. Attorney General of Lower Canada; BENJAMIN DE ST. CROIX, Esq. M. D. of Charlotte Town, in Prince Edward Island.

Miramichi, April, 10.

A practice has prevailed here for some time, and we are aware of the particular facts in some instances, of persons applying for Land in the possession of another, who without having any other title than a receipt for the payment of the fees, or the land merely allotted to him, had gone on in making improvements. Such iniquitous attempts have, we believe, always been defeated, but it is requisite that something more should be done; it is requisite in short, that steps should be taken in the proper quarter to prevent not only the possibility of success on the part of the applicant for the benefit of his neighbour's labour, but to prevent also the necessity of the rightful owner being compelled to undertake a journey to Fredericton to establish his claim to the property; and we are glad to observe that this is now doing; the Circular Letters from the Surveyor General's Office, which will be found in our first page, if properly attended to by the Deputy Surveyors, will throw such a body of information into that department that any future attempts of this nature will be detected at once.

On the other hand, those who have hitherto neglected to improve their Land, in compliance with the conditions of their grant, we now see the necessity of doing so, and possibly in many cases this advice may come too late. But there can be no injustice in transferring the Royal Bounty from the hands of him who will not profit by it, to the hands of him who will.

SUMMARY.

In the House of Lords, the Marquis of Landsdowne postponed his notice of motion on the Catholic question, to the 15th March.

Dr. Kitchiner, so long known and respected in the literary, musical, and dramatic world, died suddenly at his house, in Warren Street, Fitzroy square.

The Right Rev. Dr. King, Bishop of Rochester, died at Wells on the 22d February.

London, Feb. 25.

The Duke of Buckingham is again mentioned as the probable successor of Lord Amherst in the Government of India, we know that nothing has yet been determined upon in this respect.

Last year there was coined of gold and silver at the Mint, about six millions and half in value. All the gold has been delivered to the Bank, or elsewhere, and the very little of the silver remaining.
