Croup, Whooping Cough, Influenza. SPRINGFIELD, MISS., Feb. 7, 1856.

Beernan Aven : I will sheerfally certify your Provonal is the best remedy we possess for the cure of Whooping Obugh, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our Boople. HIRAM CONKLIN, M. D.

AMOS LEE, ESQ., MONTEREY, IA., writes, 3d Jan., 1866; "I AMOS LEE, ESQ., MONTEREY, IA., writes, 3d Jan., 1866; "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PROTORAL by the advice of our clergyman. The first dose relieved the sereness in my throat and Inngs; less than one half the bottle made me sompletely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856. Ses : Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALMON, MONRON Co., Iowa, writes, hept. 6, 1855 : "During my practice of many years I have found wothing equal to your CHERRY PROTORAL for giving case and re-tef to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon

Consumption.

Probably no one remody has ever been known which oured so many and such dangerous cases as this. Some no human aid can reach ; but even to those the CHERRY PECTORAL affords resief and comfort.

Asyon House, Naw York City, March 5, 1856. Dooren Avan, Lowman: I feel it a duty and a pleasure to inborns you what your CHERRY PEDFORAL has done for my wife. She had been five months laboring under the dangerous symp-toms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as also used to be but is free from her courts, and calls herself well used to be, but is free from her cough, and calls herself well. Yours, with gratitude and regard,

stives, do not despair till you have tried Aven's CHERRY PROTORAL. It is made by one of the best medical chemista in the world, and its cures all round us bespeak the high merits of its virtues. — Philadelphia Ledger.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that which is known to man. Innumerable proofs are shown that these Phils have virtues which surpass in excellence the ordina-ry medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to sure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which based and grow distemper, stimulate al- giah or disordered or-gans into their natural action, and ' gart healthy tone with strength to the whole system. Not ally do they cure the every-day complaints of every body, but also formidable and danger-sus diseases that have baffied the best of human skill. While they produce powerful effects, they are, at the same time, in di-minished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not sub-stantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent chergymen and physicians have lent their sames to certify to the public the re-liability of my remedies, while others have sent me the assur-ance of their conviction that my Preparations contribute im-

mensely to the relief of my afflicted, suffering follow-men. The Agent below named is pleased to furnish gratis my Amer-ican Almanac, containing directions for their use, and certifi-cates of their cures of the following complaints : --

Try Them!

7 E mean GERRY'S PECTORAL TABLETS for Coughs and Colds, which, slowly dissolved in the mouth, directly act on the lungs and bronchial tubes when diseased. The common practice has hitherto been to pour large doses of physic into the stomach, thereby not only losing their effects, but inducing dyspepsia, and other diseases of the digestive organs. We say, try them.

Mason's Normal Singer,

A Collection of vocal Music, for Singing-Clas ses, Schools, and Social Circles. Arranged in four parts. To which are prefixed the Elements of Vocal Music, with Practical Exercises. By LOWELL MASON, Doctor of Music, University of New York. 192 pages.

HIS little work, just published, is received with universal favor, and is undoubtedly destined to be the most popular School. Music-Book ever published in America. "The Normal Singer," says the Preface, "if it be indeed normal, must be right, or a book in which the principles of song are treated according to their true relations to the great work of education, or to human improvement, goodness, and happiness. It must be right in the end at which he aims, and right in its details, or in the means which it employs." The music is mostly new, embracing, however, a few of the genss from the "Juvenile Lyre," "Juvenile Singing School," and other of Dr. Mason's juvenile works published many years since. It is so arranged that it can be sung in one, two, or four parts. August 13.

HIS valuable External and Internal Remedy originated with a skillful and Scientific Chemist, who found it difficult to obtain an article that would with certainty, and in a short space of time, effect a cure of Wounds, Bruises, Cuts, Burns, &c. By various experiments he at length discovered a preparation which | Port Hood; T. & J. Jost, Sydney; J. Matheson & Co. answered his most sanguine expectations, and its peculiar virtues becoming known to his friends, he was induced by them to prepare it for general use. Since its first introduction to the public some impor-

tant additions and improvements have been made in its composition. increasing its value and making it ap-plicable to a greater number of diseases, especially to those of the stomach and bowels, and it is now used Internally with, if possible, greater success than Externally.
