The Grand External Remedy.

REV. EDWARD MANNING.

By the aid of a microscope, we see millions of little openings on the snrface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by any means.

Erysipelas, Rheumatism and Scorbutic Humours.

No remedy has ever done so much for the cure of disease of the Skin whatever form they may assume, as this Ointment. Scurvy, Sore Heads Scrofula, or Erysipelas cannot long withstand its influence. The inventor has travelled over many parts of the globe
