A Farmer in Northup's Country Market, on Saturday, laid his purse down, containing a considerable sum of money, and while in the act of giving change to a person, it was stolen: but not only that, the unfortunate man had his horses' harness, exchanged for another set of an inferior quality.—Journal.

The Very Rev. James Dunphy, of Dartmouth, during his recent visit to Europe, was appointed Dean of the Archdiocese of Halifax, by His Holiness, Pope Pius IX! The Reverend Michael Hannan, has also received from His Holiness the Pope the degree of Doctor of Divinity!—Catholic.

As a truckman, named Gibbins, was driving rather too rapidly down Duke Street, on Thursday last, whilst standing erect in an empty box cart, the horse fell and the driver was thrown forward a distance of several feet, falling upon his head. He was taken up quite insensible, and conveyed to the Dispensary, where he received every attention at the hands of Dr. Morris. The sufferer is in a fair way to recover.—Recorder.

HOME MANUFACTURE.—A very elegant wagon was on Monday last exhibited before the store of Mr. John Lithgow, Bedford Row. This vehicle is the handy work of the Messrs. Currie, of Windsor, is capable of being converted into a double or single seated wagon at pleasure, and actually cost just one-half of what a similar article could be imported from the United States. It is highly gratifying to find our spirited mechanics protecting themselves by the only legitimate means—producing well and cheaply, and they deserve the most extended patronage the Province can afford.—Chronicle.

Prof. Morse writes to the Vice President of the Ocean Telegraph Company, that the practicability of telegraphing through a cable from Ireland to Newfoundland has been tested by an experiment of sending the current through 2000 miles of cable coated with gutta-percha. They were able to make as high as 270 telegraph signals or marks in a minute. This is considered decisive in favor of the direct route recently surveyed.

George Hoyt, Esq., chief operator, under date of No. 3, communicates to the Merchant's Rooms that the line of Telegraph between Halifax and Port au Basque, Nfld., and intermediate offices, is now in full operation. The line between that place and St. Johns is down, but expected to be in working order early on Tuesday (yesterday).

The Court of Sessions for this County, (Annapolis), commenced its sittings on Tuesday last, in the new Sessions building, just completed. The day was the most stormy we have had for months past, which, no doubt, contributed much to the small attendance on that day. The Sessions room, in our judgment, well adapted for the meetings of these Courts; the elevated dais, on which its members sit with their clerk, removes them from the inconvenience attending the disposition to crowd forward, which never fails to exert itself just at the moment it is desirable to have elbow-room. From each end of this platform a flight of steps leads to the jury rooms which are large and well-lighted; under these are the lock-up rooms, for which will probably be found a use during the coming year.—Western News.

SAD ACCIDENT.—William Seaman junr., residing in Tristram Settlement, Lot 34, met with an accident on the 1st October, instant which resulted in his death on Monday night last, the 13th instant. He was hauling brushwood for fuel and on passing his dwelling, stooped to remove a log of wood lying in the way of the cart, and at that moment, being close to the house, a part of the brush broke two or three panes of glass, the noise of which falling started his horse, and he fell, the wheel of the cart passing over one of his legs, breaking it in two places, and otherwise seriously bruising his body. He lingered for a number of days in great pain, when death terminated his sufferings. He has left a young widow, two children, and a large number of friends, to lament his untimely end.—1st.

TWO WOMEN EATEN BY WOLVES.—The following account of a shocking event which occurred in Canada, is from the Dumfries (Canada) Reformer, of Oct. 15th:

"Our pen has seldom had to record a more heart-rending circumstance than we are about to relate. Some ten days ago, in the northerly extremity of the township of Morington, two females went out in the evening in search of their cows, and not returning that night search was made in the morning, when, sad to relate, their skeletons were only to be found, their flesh having been completely devoured by the wolves. We are yet unable to record the particulars—the sad outlines only having as yet reached us. Our informant also states that a man in that locality has been missing for the last ten days. No trace of him can be found whatever, and fears are entertained that he met the same lamentable fate as the unfortunate women.

The wolves were never before known to be so numerous, or so voracious as they are this season in this section of the country. It is regarded as unsafe to be alone on the public highways after dark. Reports are reaching us almost every week of some of their ravages through the country. Almost every body has been visited by them and mischief done to a greater or less extent.

A farmer in North Easthope, had thirty sheep killed in one single night by them. They drove them to the barn yard, and killed them there. A few nights previous they killed twelve belonging to the same man.

Bears are also numerous and remarkably saucy. A Mr. Bennett of Morington, was attacked a short time ago, in his own field, a little after dark, by an old bear with three cubs. He fought her off till some of the neighbours came to his relief. An immense one was killed in Morington a few days ago."

M'Lane's Worm Specific.

PREPARED BY FLEMING BROS.

The following, from a customer, shows the demand which this great medicine has created wherever it has been introduced.

BLOSSBURG, Tioga Co. Pa., March 30, 1856.

MESSRS. FLEMING BROS.—Gentlemen:—In consequence of the great consumption of your "Worm Specific" in this place and vicinity, we have entirely exhausted our stock. We should feel obliged by your forwarding, via Corning, N. Y., 20 dozen, with your bill, on the receipt of which we will remit you the money.

From the wonderful effects of said "Specific" in this neighbourhood, there could be sold annually a large quantity, if it to be had, (wholesale and retail) from some local agent. If you would compensate a person for trouble and expense of vending, I think I could make it to your advantage to do so.

Yours, respectfully, WM. M. MILLORY.

Per W. E. PORTER.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS. of PITTSBURGH, PA. All other Vermifuges in comparison, are worthless. Dr. M'Lane's genuine Vermifuge, also his Celebrated Liver Pills, can now be had at all respectable Drug Stores. None genuine without the signature of FLEMING BROS.

Our billingsgate neighbor of the Gazette accuses us of quackery, because we publish Dr. AER'S advertisements.—Now this same editor knows the Pharmacopeia itself is not more free from the suspicions of quackery than his medicines. He knows they are endorsed by the medical Journals of this country, are used and prescribed by our best physicians, and have the commendation of professors and eminent men of character too exalted for his comprehension; and he knows too that they have done and are doing in this community an amount of good which the utmost stretch of his ability can never hope to equal. Holloway's Pills, a certain cure for Coughs and Asthmatic Complaints.—Mrs. Monteith, of Liverpool, Canada, took a violent cold, which resulted in a severe cough, assuming an asthmatic tendency. With the violence of the coughing; she became thin and emaciated, and her dissolution appeared to be near, when she determined to try the effect of Holloway's Pills, this medicine quickly relieved her, the bowels became regular, the phlegm was thrown off the chest, and the disorder vanished like snow before the sun. She describes the effects of the remedy as truly marvelous, and recommends all sufferers to have recourse, without delay, to Holloway's Pills.

She professed Christ in her youth and was a consistent member of the church for about eight years. Her end was peace. The leaves are falling and every thing in nature is fading, while disease is spreading around, and desolation and death follow. While the judgements of God are in the earth, O may the inhabitants learn righteousness!—Com. by Rev. R. S. Morton.

The almost fabulous cures which is said to have been effected by the use of G. W. Stone's Vegetable Liquid Cathartic, should induce the afflicted to give it a thorough trial. We believe it is an excellent remedy in those cases for which it is recommended. See advertisement in another column.—Boston Traveller.

The method of changing the color of the Human Hair, and keeping it in healthy vigor, until recently was imperfectly understood, but the introduction of Clireugh's Hair Dye and Tricopherous has made assurance doubly sure in the production of a beautifully natural Black or Brown, as may be desired. Accordingly hundreds whose hair was falling off, or turning grey, have wisely decided to use the genuine Tricopherous, or Dye.

The Campaign in the Crimea has been productive of many important benefits to Europe, but the campaign of 1812 probably resulted in more singular benefits to AMERICA in having produced so great a discovery as that of the Russia Salve, obtained from a Russian Prisoner who emigrated to New England, bringing with him the secret of its composition. This celebrated Salve has since become almost universal in its application for the cure of old sores, scalds, whitlows, and all wounds. Redding & Co., Proprietors.
