THE examination of the students of this instiution took place on Wednesday last and following days. A large number of those interested in the work assembled to witness the proceedings. On Wednesday and Thursday the classes under the charge of Messrs. Mulholland and Randall were examined in Reading, Arithmetic, Algebra, ing instruction; in the course of which some of pool Transcript. the pupil-teachers practically illustrated their acsulrements by conducting exercises with a class of hildren on the platform for that purpose. At the close of the examination the Principal

delivered an address to the teachers on the importance of the position they would be called to ocsupy. The Hon. A. G. Archibald then spoke to the assembly on the good results that might be expected from the instruction received at the Institution, and introduced one of the Commissioners of Schools from Halifax who briefly addressed the

Dr. Forrestor then announced the names of twelve of the students, to whom First Class Diplomas would be given; one of whom Mr. Calkin, who we understand had been some time engaged in teaching, received a £5 scholarship besides a present of books placed in the hands of Dr. F. for the purpose by Rev. Mr. Leaver.

About thirty were announced as deserving second dass Diplomas; some of these however were stated to be of a higher grade than others. The Principal said that he and his coadjutors had used their best judgment and the utmost care and attention in deciding on those who should receive those distinctions.

We would suggest the propriety of some means being used in the distribution of these certificates of proficiency, by which the pupil teachers would know that a record is kept of their, work through the session, on the production of which they would stand; and not on the result of two or three days examination in public.

The Principal closed by some affectionate remarks to those who had finished their course and were about to leave the Institution for active labour in the work of training the rising generation.

REWARD OF MERIT. - Capt. McKenna, of the Board of Works, late Superintendent of Sable Bland, has received ex R. M. S. Arabia, an elegunt and massive gold Medal from the Fishermen's and Mariners' Royal Humane Society, London, as a testimonial of his successful exerious in saving human life, while in charge of that Humane Establishment. It is understood that it has been mainly through the representations of the philanthropic Miss Dix, hat this tribute has been extended to the worthy recipient. The medal is about the weight of an American \$25 piece, is richly chased with appropriate devices: in the circle on one side is the never to be forgotten motto: "England expects every man to do his duty;" and the outer rim bears the simple inscription, Captain Matthew McKenna" 1855. The whole is suspended by an elegant blue ribbon, and neatly done up in a suitable case. Also five silver medals for George Stevens, William Busby, Solonion Knock, Alexander De Young and George Soward. The medals, about the 172 of a \$20 piece, are all of the same pattern, with the name of each recipient inscribed on the rim, and each bearing the same national

CONVENTION OF DEAF MUTES .-- The Concord (N. H.) Reporter says that the first meeting of the New England Gallaudet Association of deaf mutes held in that city on Wednesday last, was fully attended, and was a very interesting occasion. There were present some 200 deat mutes, ladies and gentlemen.

The exercises consisted of an opening address by the President, Thomas Brown of Henniker, reading of scripture and prayer, by Samuel A. Lewis of Connecticut, a deaf mute preacher, reading of the Constitution by the Secretary, and an oration by Prof. Laurent Clerk at Hartford-all in sign language. The orator was very animated in his manner of delivery, and his audience often attested their appreciation of his eloquent signs by clapping of hands. Rev. Thomas Gallaudet of New York, a son of the distinguished founder of the Hartford Asylum, interpreted the orator's sign language to the hearing portion of the

It had then the appearance of a globe of fire as large as a good sized orange, with a broad tail of light extending about 18 inches from the body. The two gentlemen later, presenting the same appearance, and was high in the heavens at half-past eleven o'clock, when they went home. At that hour one of night, from the same place the same persons again saw it rise about twenty minutes before eleven o'clock, and then it first occurred to one of them (our informant) that it might be a comet. He ceased to watch it about midnight, but the watchmen observed it up to half-past one o'clock this morning. It did not seem so large as on the previous nights, but still far exceeded the most brilliant form in which the planet Jupiter has ever been beheld. As the greatest comet on record is really due about this time, and as the extreme sultriness of the weather would seem to warrant the belief that such a celestial visitor was near at hand.

We understand it has also been observed in Canada.

BT Mrs. Hardy, No. 119 Suffolk street, writes us that she has been troubled with worms for some three years and that she used one vial of Dr. M'Lane's Celebrated Vermifuge, prepared by Fleming Bros., Pittsburgh, Pa., which brought away fifty large worms. Her usual good health immediately returned.

Mrs. Quigby, No. 182 Essex street, New York, under date of November 23, 1852, writes us that she had a child which had been unwell for better than two months. She procured a bottle of M'Lane's Vermifuge, and administered it. The child passed a large quantity of worms, and in a few days was as hearty as ever it had been. Parents, with such testimony before watched it for an hour, and the watchmen on | them, should not hesitate when there is any reason to the wier observed it also. On Thursday night suspect worms, and lose no time in procuring and adthey all saw it again. It rose a few moments ministering Dr. M'Lane's Vermifuge. It never fails, and is perfectly safe.
