HE PSALMIST with SUPPLEMENT of 106 hymns A Collection of vocal Music, for Singing-Clas ses, Schools, and Social Circles. Arranged in four parts. To which are prefixed the Elements of Vocal Music, with Praetical Exercises. By LOWELL MASON, Doctor of Music, University of New York. 192 pages.

> HIS little work, just published, is received with universal favor, and is undoubtedly destined to be the most popular School Music-Book ever published in America. "The Normal Singer," says the Preface, "if it be indeed normal, must be right, or a book in which the principles of song are treated according to their true relations to the great work of education, or to human improvement, goodness, and happiness. It must be right in the end at which he aims, and right in its details, or in the means which it employs." The music is mostly new, embracing, however, a few of the gems from the "Juvenile Lyre," "Juvenile Singing School," and other of Dr. Mason's juvenile works published many years since. It is so arranged that it can be sung in one, two, or four parts, August 13.

r HIS valuable External and Internal Remedy origia nated with a skillful and Scientific Chemist, who found it difficult to obtain an article that would with certainty, and in a short space of time, effect a cure of Wounds, Bruises, Cuts, Burns, &c. By various experiments he at length discovered a preparation which answered his most sanguine expectations, and its peculiar virtues becoming known to his friends, he was

induced by them to prepare it for general use. Since its first introduction to the public some important additions and improvements have been made in its composition, increasing its value and making it applicable to a greater number of diseases, especially to those of the stomach and bowels, and it is now used Internally with, if possible, greater success than Externally.

ALWAYS SOMETHING NEW. READ THIS --- OLD AND YOUNG

PROFESSOR WOOD'S

Hair Restorative,

S, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the dandruff and itching, cure all scrofula, and other cucure, as if by magic, nervous or periodical headache; make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling, to extreme old age.

The following is from a distinguised member of the medical profession :

ST. PAUL, January 1, 1855. PROFESSOR O. J. WOOD-

DEAR SIR : Unsolicited, I send you this certificate. After being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced, on hearing of yours to give it a trial. I placed myself in the hands of a barber, and had my head rubbed with a good stiff brush, and the Restorative then applied and well rubbed in, till the scalp was aglow. This I repeated every morning, and in three weeks the young hair appeared and grew rapidly from August last till the present time, and is now thick, black and strong-soft and pleasant to the touch ; whereas, before, it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your restorative about twice a week, and shall soon have a good and perfect crop of hair. Now I had read of these things-and who has not ? but have not seen hitherto any case where any person's hair was really benefitted by any of the hair tonics, etc., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it already has a large and general sale throughout the Territory. The people here know its effects, and have confidence in it. The supply you sent us, as wholesale agents for the Territory, is nearly exhausted, and daily inquiries are made for it. You deserve credit for your discovery; and 1, for one, return you my thanks for the benefit it has done me, for I certainly had despaired long ago of ever effecting any such result.

Yours, hastily, J. W. BOND.

Firm of Bond & Kelley, Druggists, St. Paul.

[From the Editor of the Real Estate Advertiser.]

Bosron, 27 School Street, March 20, 1855. DEAR SIR : Having become prematurely quite gray, L was induced, some six weeks since, to make a trial of your Restorative. I have used less than two bottles. but the gray hairs have all disappeared; and although my hair has not fully attained its original color. yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry; and it has ceased to come out as
