

The weather since our last, has been highly favourable to the grain crop, which is fast becoming ripe for the sickle. The potato crop has suffered more from the blight than we anticipated; yet we believe, as far as it can now be judged of, that there will be a tolerable good yield of that wholesome and indispensable esculent.—*Cape Breton News.*

The farmers in P. E. Island are receiving a rich reward of their toil this year. All sorts of crops are above the average.

The Montreal Com. Advertiser of Aug. 28 says:—"A child of four months old, of respectable French Canadian parents, met with a singular death on Monday night. It fell from its mother's arms during her sleep, and the string of its cap catching upon the post of a cot at the side of the bed, it was suspended and strangled. When the mother woke in the morning, she missed the child, and looking for it found it hanging dead. It was an only child."

The Canadian government has granted four million acres of land to aid in constructing a railroad from Quebec to Montreal, along the north shore of the St. Lawrence, to the city of Ottawa, and thence to Sault St. Marie. This road is to be completed within five years.

United States.

It is said that in cutting through Oliver street, in this city, for the purpose of extending the Bowery, a tomb-stone was exhumed, and a perfect skull found beneath it: the former bearing a Hebrew inscription dated about four centuries back, or nearly forty years before the discovery of the Western world by Columbus. If genuine, the relics were probably transported from Europe by some Jewish emigrant.—*Examiner.*

One hundred dollars damages were obtained, on the 12th ult., in Newark, N. J., for a breach of contract, made by the Overseers of the Poor and a farmer, which stipulated that an apprentice, bound by indenture to said farmer by the Board, should be taught to read and write, as provided by the statute. The boy was not so taught, and he sued the farmer, recovering the above verdict, all the law allowed.

Mrs. Ruhamah Birge, of Coventry, N. Y., recently deceased, continued to card, spin and weave one hundred yards of cloth a year, till she was ninety years of age! She lived to be 97, and when dying, she raised her hand and closed her own eyes.

One thousand men are said to be now at work on the Leviathan steamer building in London. It is expected in Portland, Me., in May next, and a large wharf is being built for its accommodation.

California.

TERRIBLE CONFLAGRATION.

On Saturday, the 18th inst., we witnessed the most terrible conflagration ever known in California, though California has become noted for its great fires. One city, Nevada, the largest and most flourishing mining city in the State, was totally destroyed by fire. Every church, and there were five, every banking-house, store, shop and grocery, save two fire-proof, lay smouldering in ruins. Our house of worship, the most beautiful church in any mountain, city or town in California, is no more. A court-house just completed at an expense of fifty thousand dollars, with all the county records is destroyed. Not a vestige of the county, town or city records is left. Eight of our citizens, young men in the prime of life perished in the flames, and many others were badly burned. Two of these young men, supposing their buildings fire-proof, voluntarily remained in them. Four others were in a fire-proof building as they supposed; closing the shutters until the flames cut off all hope of escape. Their bones were found side by side in the cellar of the building. There were twenty-six (so-called) fire-proof buildings, and only six withstood the test, and two of these were saved with great difficulty. A person who has never witnessed a California fire, can form no idea of this awful conflagration. In twenty minutes after the fire broke out our city seemed to be but a lake of fire. Men, women and children, fleeing for their lives in every direction. Mothers, with two or three children in their arms, hastening from their dwellings, without saving a garment except their present attire. Not less than 500 buildings, covering an area of 100 acres, were consumed in less than one hour and a half. The fire broke out about 4 o'clock in the afternoon, when the heat of the sun was most oppressive, when every thing was as dry as the sun could make them. We had had no rain for about three months. Besides, our lumber is all full of pitch, and our buildings lined from top to bottom with cotton canvass instead of being lathed and plastered. A high wind arose as the fire broke out, and the flames rolled like an ocean wave from building to building. More than one-half of our citizens have lost all they possessed.

There were husbands and fathers who had wives and children in the Atlantic States, who had been looking anxiously for their return. They had promised again and again that they would return home, and they had now made a little fortune and were soon to leave for home. But now all is swept away.—*W. & R.*

A Great Blessing to the Afflicted.

If Dr. M'Lane, the inventor of the celebrated Liver Pills, prepared by Fleming Bros., Pittsburgh, Pa., used these pills for several years in his practice, before he could be induced to offer them to the public in such a manner as to make them known throughout the country. This learned physician felt the same repugnance that all high-minded men of science feel in entering the lists against those unscrupulous empirics who obtrude their useless nostrums upon the public, and rely upon a system of puffing to sustain them. Convinced, however, of the real value of the Liver Pills, and influenced by the plain dictates of duty, the Doctor finally authorized Fleming Bros., of Pittsburgh, Pa., who are now the sole proprietors, to manufacture and place them before the public. This great medicine has not disappointed the expectations of his friends the medical faculty, at whose instance he was induced to place them before the public in their present popular form. From every quarter do we hear the most gratifying accounts of their wonderful curative effects—the East and the West, the North and the South, are alike laden with "tidings of great joy" from the afflicted. These wonderful Pills have completely conquered the great scourge of America, the Liver complaint.

If Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, manufactured by FLEMING BROS. OF PITTSBURGH, PA., There are other Pills purporting to be Liver Pills, now before the public. Dr. M'Lane's genuine Liver Pills, also his celebrated Vermifuge, can now be had at all respectable drug stores. *None genuine without the signature of FLEMING BROS.*

Read this.—From William H. Young, of New York, distributing agent.

"My business being to distribute pamphlets through the various States of the Union, keeps me constantly on my feet, causing them to swell and produce an unnatural color, and shape, and great suffering of my joints and limbs, thereby causing me a great deal of trouble, I found by applying Dyer's Healing Embrocation this trouble was at once removed. I shall not hesitate to recommend it to my friends, throughout the country, as being one of the best remedies I have ever used for stiffness of the limbs, lame back or anything of this kind.
