

Hon. Attorney General would not say a word on the letter at the present moment—nor until the whole particulars were before the House.

Hon. Sol. General introduced a Bill to regulate the Currency. It was founded on the decimal principle, as adopted in Canada, and would facilitate our trade with the United States.

Dr. Tupper's motion was resumed and Messrs. Moses, Tobin, Wier, Chambers and others, addressed the House.

House opened at 12 o'clock, when the adjourned debate was resumed.

Mr. M. I. Wilkins commenced the debate and delivered an eloquent speech which lasted over two hours, and was succeeded by Mr. McLellan, who spoke for about an hour and a-half against the amendment.

The Hon. Prov. Sec. then addressed the house for more than an hour, after which Mr. Marshall rose and occupied another hour in favour of the amendment, when the Hon. J. W. Johnston closed the debate for the evening in a speech which occupied nearly three hours.

Mr. Marshall, from the Committee on the petition of James Carmichael and others, of New Glasgow, praying for aid to deepen the harbour of Pictou, reported, recommending a grant of £1,000 for that important object.

Hon. Mr. Johnston asked leave to introduce a Bill for amending the "Probate Law."

Mr. McKinnon asked special leave to introduce a petition from the inhabitants of St. Andrew's, respecting their Grammar School.

A number of Bills were read a second time and sent to Committee.

Dr. Brown introduced two petitions—one from males, another from females of King's County—in favour of a Prohibitory Liquor Law.

Mr. McLearn.—Petition on the same subject from inhabitants of Truro.

Prov. Sec. laid upon the Table Report of River Fisheries.

House went into committee on the adjourned debate.

Mr. McKinnon opened the 7th day's debate. He was in favor of Government by a party for the whole people—not Government by a Party for a party.

Mr. McLellan.—The Government have never acted as a Party for the benefit of a Party.

Mr. M. I. Wilkins.—Mr. Killam's amendment does not say that the Government have so acted.

Mr. Tobin.—The Government could not remain a single hour at the head of affairs if they were to act in the arbitrary manner alluded to.

Hon. Mr. Johnston.—Why not? Have they not remained in power after numerous arbitrary acts? If it were not for the Attorney General's remark that he would neither announce nor denounce, the principle that "to the victors belong the spoils," this resolution would be unnecessary.

Mr. Marshall.—If the Government intend to act on Lord Grey's despatch, let them say so at once, and have an end of quibbling.

Mr. Annand maintained that the amendment was an implied vote of want of confidence.

Hon. Attorney General followed to the same effect.

Hon. Solicitor General maintained that all the charges against the Government were proved to have been false.

House adjourned for an hour.

On resuming, Hon. Attorney General addressed the House till 6 o'clock at which hour the house had decided the division should take place—Dr. Tupper protesting that he should have had the right of reply.

A call of the house was moved, however, and the division being taken on Mr. Killam's amendment, it was lost—28 to 21—names as follows:—For the Amendment, Hyde, Whitman Ryder, Wilkins, McKeagney, Tupper, Johnston, Thorne, Brown, C. J. Campbell, McFarlane, Killam, Churchill, McKinnon, McLearn, White, Bill, J. Campbell, Bent, Moses, Marshall.

Mr. M. I. Wilkins moved for the appointment of a Committee on the Bill for appointing trustees of certain public Lands in Lunenburg.

Mr. Geldert Presumed that the plan of the Township and the Grants were all the evidence that was necessary to settle the question.

Hon. Attorney General suggested that the matter should be referred to the Committee on Private Bills.

Mr. Wilkins.—Why should not a Churchman be on that Committee? The interests of the Church are concerned; if the Attorney General's church were concerned, he would like to be represented on it. I want one or two Churchmen on it, and a good Methodist.

The subject was referred to the above committee.

Mr. McKeagney here rose and asked leave of the House to move, at the request of the Hon. Mr. McLeod, that that gentleman's name be added to the affirmative on the division on the amendment which was negatived last night.

Mr. M. I. Wilkins seconded the motion.

Hon. Attorney General.—It would be very indelicate to oppose this motion; but it will be contrary to all precedent, and once granted, we should not be able to stop.

Hon. Mr. Johnston had seen an instance in accordance with this motion in the debates of the Assembly of New Brunswick.

Mr. M. I. Wilkins would have no objection to add Mr. Campbell's name to the majority if this motion passed.

Mr. Parker thought the passage of this motion would be very inconsistent on the part of the government. A gentleman might as well vote by Telegraph as in this manner.

Mr. Annand—I was once denied the privilege of recording my vote on a Railway measure.

Mr. M. I. Wilkins.—You would have been on the majority. Mr. McLeod is on the minority, and has a particular interest in having his name added.

The Speaker.—It can only be done by unanimous consent.

Several members objected, and the discussion dropped.

PROHIBITORY LIQUOR LAW. Messrs. Esson, Annand, Bill, McLellan, and Morrison, presented petitions from Musquodoboit, Halifax, King's County, Digby, and Colchester, for the passage of a Prohibitory Liquor Bill.

The House went into Committee and passed the following bills:—Fire Engine, Windsor. Township of Morristown, Sydney. Caledonia Lodge, Pictou. Burns' Free Church Sydney.

Legalizing Grand and Petit Juries, of Richmond, without amendment.

The Bill for authorising the draining of a Peat Bog, near Liverpool, with an amendment.

THE DEBATE. Hon. Attorney General moved the renewal of the debate, and hoped that no gentleman on the Government side would occupy time in further discussion.

Mr. McFarlane spoke against the Government, generally.

Mr. Morrison succeeded, in one of his original and humorous speeches in favor of the Government.

Mr. John Tobin preferred his Bill of Indictment against the present Government—in the appointment of Mr. Philip Dodd as superintendent of Sable Island; and of Mr. Wallace to the Collector's office in Halifax. He would only support the Government while they elevated their own supporters to office.

Mr. Killam followed against the Government and Mr. Annand on the other side.

Mr. Esson introduced a Bill to amend the Health Laws of Halifax,—read a first time.

Petitions were presented on the Prohibitory Law by—Mr. Archibald, from Stewiacke. Mr. White, from Guysborough. Mr. McFarlane, 4 from Cumberland. Mr. Moses—8300 names from Yarmouth. Mr. McKeagney, from Cape Breton.

Mr. C. J. Campbell reported on the petition of Edward Archibald and C. H. Harrington, against the application—adopted.

The Constitutional Debate was again opened by Mr. Chambers in favor of the Government.

Mr. C. J. Campbell on the other side.

Mr. Annand delivered an hour's speech, in which he entered the lists on all the points on which the Government was assailed.

DYER'S HEALING EMBROCATION. AN EXTERNAL INTERNAL REMEDY.

THIS valuable External and Internal Remedy originated with a skillful and Scientific Chemist, who found it difficult to obtain an article that would with certainty, and in a short space of time, effect a cure of Wounds, Bruises, Cuts, Burns, &c. By various experiments he at length discovered a preparation which answered his most sanguine expectations, and its peculiar virtues becoming known to his friends, he was induced by them to prepare it for general use.

Since its first introduction to the public some important additions and improvements have been made in its composition, increasing its value and making it applicable to a greater number of diseases, especially to those of the stomach and bowels, and it is now used internally with, if possible, greater success than externally.

It is indeed truly gratifying to us to receive such indisputable proofs of the value of this astonishing remedy, as are daily presented us. We know its true value experimentally, and do not hesitate to recommend it as superior to any other Medicine for similar purposes, and we are willing at any time to refund the money, if it does not give entire satisfaction, or possess all the virtues we ascribe to it.

Be sure and get the genuine. A. H. FIELD, (Successor to C. Dyer, Jr.) SOLE PROPRIETOR AND MANUFACTURER, Providence, R. I. D. Taylor, Junr., Broad Street, Boston, general agent for British Provinces.

KENNEDY'S Medical Discovery

THE GREATEST OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth. One to three bottles will cure the worst kind of pimples on the face. Two or three bottles will clear the system of bile. Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas. One to two bottles are warranted to cure all humor in the eye.

Two bottles are warranted to cure running of the ears and blotches among the hair. Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin. Two or three bottles are warranted to cure the worst case of ringworm. Two or three bottles are warranted to cure the most desperate cases of rheumatism.

Three or four bottles are warranted to cure the salt rheum. Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed, growing in the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old; to old people of sixty; and has seen poor, puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound, it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to. No change of diet ever necessary. Eat the best you can get, and enough of it.

Principal Office of the Medical Discovery for the State of Maine and the British Provinces, is at the Drug Establishment of H. H. HAY, 15 & 17, Market Square—Portland, Me. To whom all orders should be addressed.
