

A telegraphic report from Wolfville, via Yarmouth, reports that the Hantsport and Wolfville offices have been injured by the lightning of Sunday.

Since writing the above we learn that a barn at Winkworth, and another at Newport, together with hay, horses, &c. were all burnt up.

A picnic was held at Cornwallis on Monday 4th inst., for the purpose of celebrating the opening of the Toll Bridge recently built there.

Prince Edwards Island.

The City and its vicinity was visited by a very severe thunder storm accompanied with hail and rain of the heaviest description.

The Bank of P. E. Island, we are happy to perceive by the advertisement in this day's paper, has commenced operation.

FIRE INCENDIARISM.—Between Saturday night and Sunday morning last, Aug. 10th, the house, barn, bed and bedding, clothes furniture and farming utensils, belonging to James Conway, (blind), of the West River, near Crosby's Mills Lot 30, was consumed by fire.

New Brunswick.

DISASTROUS FIRE.—A fire broke out on Tuesday, August 6th, in Waterloo Street, St. John, N. B. In spite of the most vigorous efforts to stay its progress, the fire gradually licked in house after house, extending along Waterloo street first, and almost at the same time burning the backs of the houses in Union street, and then extending to three houses in Brussels street.

In Brussel Street there were three houses burned and three in the rear of them. In Union Street there were also, we believe, three houses consumed. In Waterloo Street three or four houses we understood were destroyed.

Besides these, we have to record the total destruction of the Tannery of Mr. Ritchie, with the valuable machinery, plant, &c. Mr. Ritchie had been burnt out only a short time previously, and we believe, had not sold a single side of leather made on his new premises, his valuable stock being only just ready for sale.

Two young men, named Culken, were drowned on Sunday last, by falling off some logs near Bear's Head. They were brothers, and were aged, respectively, 21 and 15 years.

The honorary degree of D. D. has been conferred upon the Rev. Richard Knight, Wesleyan Minister of St. John, N. B., at the recent commencement of Genesee College, Lima.

United States.

Rev. E. A. Crawley, D. D., formerly of Nova Scotia, has undertaken the charge of the Mount Auburn Female Seminary, in the suburbs of Cincinnati, with a full corps of teachers. It is to open in September next. Its situation, and the character of the parties concerned in its establishment and management, promise a successful enterprise.

Some unpleasant feeling had been caused in St. John's Newfoundland by the singular conduct of the commander of the U. S. Steamer Arctic. On the 29th ult., that steamer entered the harbour and passed close under the stern of H. M. Ship Pylades, then riding at anchor there, without showing any act of courtesy such as is usual on such occasions; and it was not until a boat from the Pylades pulled along side of the Arctic that the latter dipped her flag.

YARMOUTH, AUGUST 9, 1856.

Dear Brother Selden.—I have just received from Rev. O. Chute, the sum of £38 5s. 6d. received by him from different sources, for the French Mission, in which is included £5 5s. 6d. from Granville Street Church Sabbath School, £1 3s. 2d. collected in the Free Christian Church in Argyle, &c., all of which will appear in the Treasurer's account at the year's end.

Yours, &c., WILLIAM CHURCHILL, Treasurer French Mission.

DEAR BROTHER,

Feeling an interest in the cause of Christ, and wishing its advancement, and having an interest in his most precious blood, and knowing that the word of His grace is the chief means for performing the great work by the enlightening and sanctifying influence of the Holy Spirit, I therefore send one dollar to be transmitted to the Bible Union, to give the word of God to those whom Arthur Crawley, is labouring amongst.

A HELPER IN CHRIST.

A GOOD COMPARISON.

The Rev. William Roulatt a well known Methodist clergyman, residing at Naples, draws the following amusing but apt comparison between Dr. M'Lane's celebrated Vermifuge, prepared by Fleming Bros., of Pittsburgh, Pa., and a ferret:

"A ferret, when placed at the entrance of a rat-hole, enters the aperture, travels along the passage, seizes upon the rat, exterminates his existence and draws the animal's defunct carcass to the light. And in like manner have I found Dr. M'Lane's American Vermifuge to operate upon worms, those dreadful and dangerous tormentors of children. This remedy, like the ferret, enters the aperture of the mouth, travels down the gullet, hunts round the stomach, lays hold of the worms, shakes the life out of the reptiles, sweeps clean their den, and carries their carcasses clear out of the system. This, at least, has been the effect of the Vermifuge upon my children."

A neighbor of Mr. Roulatt, Mr. John Briggs, adopts the simile of the reverend certifier, thus both giving their most unequivocal approval of this great specific, after having witnessed its operation upon their own children. Let others try it, and be satisfied.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS. of PITTSBURGH, PA. All other Vermifuges in comparison, are worthless. Dr. M'Lane's genuine Vermifuge, also his Celebrated Liver Pills, can now be had at all respectable Drug Stores. None genuine without the signature of FLEMING BROS.

To the Million.—Prof. Wood, of St. Louis, has, after years of deep study and untiring research, succeeded in presenting to the public an article superior to any now in use, and indeed it is truly a wonderful discovery—we advert to his Hair Restorative; in the only article that has been completely successful in restoring his gray locks, removing dandruff, itching, scurf, &c. It restores the gray-headed to more than the original beauty; adds new lustre to locks already luxuriant; having the effect on coarse, harsh hair to render it glossy and watery; sustains permanently hair that is loose or falling; and many other qualities which will become known as soon as used.

The pride of mankind is singularly developed in the keeping and arrangement of the hair; perhaps from the fact that it is the only portion of the human body that we can train in any way we choose; how important then, having this portion left to our care, that we should use all the means science has placed in our hands to render it beautiful and permanent. If you would have beautiful hair, glossy hair, permanent hair, hair with its natural color elegantly preserved to extreme old age don't fail to purchase Wood's Hair Restorative.—[Daily Iowa State Gazette.

Holloway's Ointment and Pills.—A severe attack of Gout cured by their use.—M. Martin of Paris, Canada, was frequently attacked with gout, which confined him to his room for weeks together; each time it was with increased virulence, and additional trouble to subdue. Sickened with the system of medicine hitherto adopted he commenced taking Holloway's Pills, well rubbing the Ointment into the parts affected, these two remedies cured him in a little more than six weeks, and he has not since had any return of the complaint, although it is now nearly two years since this cure was effected.

NEW ADVERTISEMENTS.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF Colds, Coughs, and Hoarseness.

BIRMINGHAM, MASS., 20th Dec., 1855. Dr. J. C. Ayer, I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people. HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTREAL, L. I., writes, 30 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisis, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856. Sir: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856. DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which she could not procure greater relief. She was steadily falling, until Dr. Stronach of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well. Yours, with gratitude and regard, OLLANDO SHELBY, of SHELLVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all round us bespeak the high merits of its virtues.—Philadelphia Ledger.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they can be used with the greatest safety to all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the everyday complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use, and certificates of their cures of the following complaints:—Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels, and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best, and there is for them, and they should have it.
