

European Intelligence.

FRANCE.

The French Government is to set its face against the Russian railroads. It has been intimated to the semi-official journals that they are not to publish advertisements relating to these railroads.

On Wednesday the Emperor received Count Kisselef, who presented his credentials as Russian Ambassador, at the Court of the Tuileries. In reply to the prefatorial speech of the count, the Emperor said—

"Monsieur le Comte, as soon as the treaty of peace was signed, it became my constant care, without weakening my former alliances, to mitigate by a generous demeanour (adoucir par des bons procedes) all that which the strict execution of certain conditions might make severe, I learnt with pleasure that my Ambassador at St. Petersburg, animated by these sentiments, had succeeded in winning the good-will of the Emperor Alexander. The same welcome awaits you here, you may rest assured; because, independently of your own personal merits, you represent a Sovereign who so nobly knows how to impose silence on and remissions, which war so often leaves behind, to think only of the advantages of a sincere peace by entertaining friendly relations."

There appears to be a real dissatisfaction felt in the French capital at the conduct of the Emperor in spending so much time in the country, and at the state of things in general. "Two or three members of the Cabinet, at all events," says the Paris correspondent of The Times, "have spoken their minds very freely, and, under the circumstances, very boldly, on the present state of affairs. Very energetic measures of repression must be taken before long; but the repression must be applied elsewhere than in the streets, to remove discontent and murmuring. Several arrests were made on Sunday and Monday."

Referring to the rumours of "difficulties" between the English and French Cabinets, The Morning Post says:—"It is of the highest importance, at a moment like the present, to dispel the exaggerations of rumour, and to record the truth simply. We, therefore, emphatically state that we have reason to believe that never at any time was the alliance between England and France more solid and faithful than it is now. We believe that there is now the certainty that the two Governments will act together as in the past; and that together they will insist on the fulfilment of the treaty for which both fought and conquered."

The Debats of Monday contains a letter from Berlin of the 13th, which says:—"It was asserted yesterday, in well-informed circles, that a courier from the Russian Government had just passed through Berlin, carrying to M. Kisselef, at Paris, a note formally demanding of the French Cabinet the convocation of a congress at Paris to definitively settle the difficulties which have arisen in the interpretation of the treaty of the 30th of March."

RUSSIA.

Russia, in order to hasten the meeting of the second conference, has declared that she abandons her claim to the Island of Serpents. The conference will, therefore, have to decide only on the Bolgrad question.

News from St. Petersburg states that a rather large corps of Russian troops is concentrating near the frontiers of Persia and Turkey, in order to make Russian influence prevail, should the affairs of Persia and Afghanistan assume a serious character.

TURKEY.

Accounts have been received from Constantinople to the 2nd inst. Lord Stratford had installed the Sultan a Knight of the Garter. The ceremony took place with as much magnificence as that observed in England at the installation of the Emperor Napoleon. The Sultan had given a sabre ornamented with diamonds, to Lord Lyons as a testimony of his satisfaction.

A telegraphic despatch from Constantinople of the 10th is published by a ministerial morning paper, as follows:—

"An English gun-boat, having attempted to pursue into the Sea of Azoff some Russian vessels which had captured Turkish vessels engaged in smuggling salt, was fired upon by the fort of Yenikale.

"The English interdiction the approach of Russian ships to the Isle of Serpents."

AUSTRALIA.

MELBOURNE, August 15th.—Notwithstanding the heavy rains, which have interfered materially with the diggers, the mines continue to yield beyond the usual average of gold, and the quartz mining operations are reported to have become exceedingly successful. Tin and copper appear to exist extensively in several widely-spread localities.

The wet season was nearly over, and trade beginning to improve. Agriculture is advancing prosperously. A much larger tract of land is under cultivation than during previous years, and the crops promise very favourably. The establishment of telegraphic lines throughout the entire colonies was attracting much attention.

Mr. Enoch M. Wilson

HAS REMOVED HIS SCHOOL to No. 168 Hollis Street, formerly occupied by Dr. Jennings, where he is prepared to receive Pupils, and give instruction in all the ordinary branches of ENGLISH EDUCATION.

HOURS OF ATTENDANCE.—For DAY SCHOOL, from 10 A. M. to 4 P. M., and for EVENING SCHOOL, from 7 past 7 to 3 past 9, P. M. Nov. 19.

READY MADE CLOTHING.

In which departments very decided advantages will be offered to the Purchaser Nov. 5. R. BILLING, JUNR., & CO.

PROFESSOR WOOD'S Hair Restorative.

It has worked Miracles.

THAT ALL THE BALD AND GRAY CAN BE restored perfectly to original growth, and color so far as their locks are concerned does not admit of doubt; besides it will cure every possible disease of the scalp, whether developed as dandruff itching or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing as if by magic; nervous or periodical head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling, to any imaginable age. Read and judge.

Millford, Worcester Co., Mass., Nov. 1855.

PROF. O. J. WOOD—Dear Sir; I take great pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length and growing fast.

Yours, truly, HENRY GOODRICH.

CHARLESTOWN, Mass., Aug. 9, 1855.

GENTS:—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been, would induce me to give this public acknowledgement of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully yours, &c., MRS. R. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston. Boston, Oct. 19, 1855.

GENTS:—At your request and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown.

Yours respectfully, MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield.

BROOKFIELD, Mass., Jan. 12, 1855.

Prof. Wood—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood, and has also restored the hair which was becoming gray, to its original color. I have used no other article, with anything like the same pleasure and profit.

Yours, truly, J. K. BRAGG.

[From the Jersey City Telegraph]

WHAT IS IT FOR?—THIS WOOD'S HAIR RESTORATIVE?—It is a question asked daily by hundreds. We answer without hesitation or fear of contradiction, that it is the article known which will do all it promises for the human hair. It will renew its growth—it will stop its falling—it will restore its natural color! It is not a Hair Dye, but a speedy and efficacious Restorative.

The Elements of Geography.

BY H. REID,

DALHOUSIE COLLEGE, HALIFAX.

THIS Work contains the General Principles of Geography, the Elementary Parts of Physical Geography, a condensed sketch of the Geography of the leading countries in the world, with British America, Europe, Great Britain and the United States of America at greater length;—being a School Book, designed (see preface) for those who must leave school early, and as an introductory work or first course for all

IN PREPARATION.

A Second Course of Geography.

TO Complete the Author's plan; embracing the higher portions of Physical Geography, the Geography of British America, further details on France, Germany, and other leading countries touched lightly in the "Elements;" Chartography, the use of the Globes, and Miscellaneous Useful Tables;—being also a School-book, but designed for more advanced students; and forming, along with the "Elements" a complete School "System of Geography" adapted for British America. October 8.

THIS valuable External and Internal Remedy originated with a skillful and Scientific Chemist, who found it difficult to obtain an article that would with certainty, and in a short space of time, effect a cure of Wounds, Bruises, Cuts, Burns, &c. By various experiments he at length discovered a preparation which answered his most sanguine expectations, and its peculiar virtues becoming known to his friends, he was induced by them to prepare it for general use.

Since its first introduction to the public some important additions and improvements have been made in its composition, increasing its value and making it applicable to a greater number of diseases, especially to those of the stomach and bowels, and it is now used internally with, if possible, greater success than Externally.

DYER'S Healing Embrocation

Is a perfect pain destroyer and an invaluable Remedy for Rheumatism, Cuts, Wounds, Scalds, Burns, Bruises, Cholera Morbus, Diarrhoea, Sore Throat, Swellings, Cramp, &c.

It is indeed truly gratifying to us to receive such indisputable proofs of the value of this astonishing remedy, as are daily presented to us. We know its true value experimentally, and do not hesitate to recommend it as superior to any other Medicine for similar purposes, and we are willing at any time to refund the money, if it does not give entire satisfaction, or possess all the virtues we ascribe to it. Be sure and get the genuine.

A. H. FIELD,

(Successor to C. Dyer, Jr.)

SOLE PROPRIETOR AND MANUFACTURER, Providence, R. I.
