CHRISTIAN MESSENGER THE

NOTICE.

226

THOSE of our Subscribers who commence from the beginning of the year and have not yet forwarded their subscriptions, will bear in mind that the time for payments in advance expired with the past month. Seme few have probably found the time pass more rapidly than they thought, and have unintentionally omitted to make their payments.

A proper regard to our present and fnture liabilities, and a desire to avoid the injurious consequences of having a large amount of arrearages on our books, has induced us to make the following offer before sending on accounts :---

Any such subscriber who can get a new subscriber to hand him ten shillings for one year from date, may send us a one pound note-ten shillings for himself. instead of twelve and six pence-and we will send to him and to every such new subscriber a copy of Caird's Sermon preached before the Queen, (48 pages) by return of post. This offer to continue till the end of July.

HALIFAX, JULY 16, 1856.

Christian Messenger.

The Eastern Association.

ITS EXTENT.

The district comprised within the boundaries of this Association includes Cumberland, Colchester, and the castern part of Halifax County, and all the parts of the Province eastward, together with Prince Edward Island. It is by far the largest, and comprehends a greater extent of country than both the Central and Western Associations combined, yet the number of Baptist churches is less than in either, arising partly. from the circumstance of the population being more scattered, and partly because other denominations prevail to a greater extent than in them. Still the gathering of ministers and delegates at Amherst, during the past week from the various churches, and the intense interest felt by them in the objects of the Association, shewed that they are an important part of the population. Several had travelled two, three and four hundred miles to be present, and meet their brethren on the occasion. Although the distance was so great, and the obstacles to be overcome to reach the appointed place so numerous, yet when arrived, all appeared to participate in the satisfaction afforded by the warm greeting they received. The good people of Amherst had made such ample arrangements for the reception of all, that no crowding was apparent. Every one appeared determined to enter into the religious enjoyment of the occasion and to make himself quite at home.

Lord's Day .- In the morning the Rev. Burnett spoke with much effect. The Re- such union. The very nature of things C. Colportage and Baptist Publica- ancestors." If the whole United States are fare, and the happiness he felt at seeing tions brought out remarks on the great des- to become properly Slave States, and the them walking in the truth.

The Rev. Mr. Rowe preached in the afternoon. In the evening Dr. Cramp discoursed from Isaiah xlv. 17 .-. " But Israel shall be saved in the Lord with an everlasting salvation : ye shall not be ashamed nor confounded world without end." In explaining the precious promises contained in the text he showed that Israel symbolized the church, the "everlasting salvation" proceeding altogether from the Divine appointment, and illustrating the marvellous lovingkindness of God-that the salvation itself is comprehensive, so that no man can be considered as saved who is not rescued from the dominion of sin ; that it is exclusively the work of God. The Father loving the world and giving his Son to die, the Sor. voluntarily suffering for sins, the just for the unjust,-the Spirit enlightening, renewing, sanctifying the soul; and that the salvation is everlasting, that is, arranged for in all its parts, and continually going on by the means of grace and by providential dispensations, all of them invested with a saving character, till at length the believer is conveyed to heaven, and finally delivered from all evil. In noticing the results of the accomplishment of the promise, he dwelt upon the happiness of the people of God, who are "not ashamed or confounded," but enjoy peace of conscience through faith in the Saviour,boldness in his cause while relying on his power and faithfulness,-comfort in all their sorrows, because their highest interests are secured, and hope of a blissful future, to be followed by the glorious triumphs of the heavenly state. Dr. C. congratulated the audience on the fact that these truths have been maintained uninterruptedly by the Denomination from the first meeting of the Association of Baptist churches in these Provinces, at Granville in the year 1800; when the venerable Joseph Dimock preached the introductory Sermon from this same text, down to the present time; and he closed by presenting to view the fulness and freeness of Divine

in the Three Provinces.

Oun American Papers, almost without exception, are still filled with the exciting topics of the late outrages in Congress, the disturbed affairs in the New State of Kansas, and the approaching Election of the President. The pith of all these matters may be comprised under a single category-the all-absorbing question of Slavery. Brooks, the ruffiian who committed the murderous assault on Mr. Sumner, the Senator from Massachusetts, is said to have been expelled from the House of Representatives. So far it is well, but a crisis of no common nature is impending over the future fortunes of the Great Republic. On the mode of its termination hang destinies the import of which it were difficult to estimate.

It sometimes happens that things which are really of most interest to us, interest us little. Such is the case as regards the process of public events on this side of the Atlantic as compared with the other. A great controvesy is now going on in our near neighbourhood in the issue of which it is quite impossible but that we ourselves, but more especially our posterity. must be utterance and earnestness of the preacher deeply implicated-the question of Negro
