

John B. Gough embarked at Boston with his family, on the 16th, for England. It is reported that he is engaged by the London League and the Edinburgh Temperance League to deliver four lectures a week for three years, or six hundred lectures. Eight months of the year to be spent in lecturing in England, and four months in Scotland.

Noah Noyes, the oldest man in Newburyport, now in his 87th year, made his annual journey on foot to Boston last week. He went over the old road, tramping off like a lad of sixteen, and returned on Friday, not as much wearied but that he could attend church all day on Sunday, walking some two miles from his home.

A young lady in Layton, Ohio, came very near losing her life in consequence of the extraction of a tooth. The removing of the molar severed an artery, and the profuse bleeding continued, interrupted by but short intervals, for nearly two days. It was finally checked, but not until she had lost between one and two gallons of blood.

NEW JERSEY PEARLS.—It is stated by one well qualified to judge, that the total amount realized from the pearls found in this State is about \$6,000. They have cost the finders about double that, in labor, time, &c. Over 1,000 persons were engaged in the search at one time, and a large portion of the mussels in the State have been exterminated.

SAD AND SINGULAR OCCURRENCE.—The Vermont Chronicle relates the death of an aged woman named Lydia Woodward, at Waterbury, in that State, from injuries received by the attack of a vicious ram. She had been gathering strawberries in a pasture, when attacked, and was found in a dying state, with her skull and several ribs broken.

According to the Boston Directory, 879 of the business men of that city reside in Charlestown; 348 in Cambridge, 826 in Roxbury, 634 in Chelsea, 366 in Dorchester, 341 in Newton, 336 in Somerville, 163 in Medford, 181 in Malden, 140 in Melrose, 128 in Salem, 93 in Waltham, 90 in West Cambridge, 85 in Lexington, and 22 in Concord. The steamer Isaac Newton, which ran upon a rock, and sank in April last, is running again between New York and Albany. She is in excellent condition, and stronger than ever. To raise, repair and furnish her, has cost one hundred thousand dollars.

The Courier de Havre states that no fly will enter a room in which a wreath of walnut leaves has been hung up. The experiment is worth trying.

The distance from Maine to Mobile, half the distance to London, may be accomplished on the railroad in three days.

THE BRITISH MINISTER A SABBATH KEEPER.—The Philadelphia Presbyterian says, that a commodore in our navy not long since called at Lord Napier's residence in Washington, on the Sabbath. The servant who came to the door informed him that his lordship did not receive visitors on Sunday.

"But I am Commodore——" replied the visitor.

"It makes no difference, sir," said the servant, "he will not receive you."

"But go and tell him Commodore——has called."

"I'll do so, sir, if you insist upon it; but I know he'll not receive you, for it is not his custom to receive visitors on Sunday."

The finale was, that the commodore had to depart without seeing the minister.—N. Y. Evangelist.

Professor O. J. Woods' HAIR RESTORATIVE,

FOR PRODUCING HAIR ON BALD HEADS, AND RESTORING GREY HAIR TO ITS NATURAL COLOR.

THIS ASTONISHING AND UNEQUALLED PREPARATION HAS NEVER FAILED TO PRODUCE A growth on Bald Heads, when used according to the direction, and turn hair back to its original color, after having become gray and restate it in all its original health, lustre, softness and beauty. Removes at once all scurf, dandruff and unpleasant itching, scrofula, eruptions and feverish heat from the scalp. It also prevents the hair from becoming unhealthy and falling off, and hence acts as a perfect

HAIR INVIGORATOR AND TONIC.

A gentleman of Boston writes to his friend in New Bedford thus:

To your inquiries, I would reply, that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years, and it was very thin on the top of my head, and very loose, and pulled out freely; but I found that before I had used all the second bottle, (which was eight weeks) my hair was entirely changed to its original color, light brown, and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen any thing like white hair starting from the roots: and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish to ask. Yours, etc., July 1, 1855.

[From the Boston Herald.]

SOMETHING WORTH KNOWING.—By using Professor Wood's Hair Restorative, gray hair can be permanently restored to its original color. The subjoined certificate from Johnston & Stone, Gardiner, Maine, is but one of the many instances that are daily coming to our knowledge, of its wonderful effects. It is no longer problematical, but a self-evident truth, as hundreds in our community can testify.

GARDINER, Maine, June 22, 1855.

DEAR SIR: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours, respectfully, DANIEL N. MURPHY.

Professor O. J. Wood.

BROOKFIELD, Massachusetts, Jan. 12, 1855.

DEAR SIR:—Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant itching tendency with which I have been troubled from childhood, and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit.

Yours, truly, J. K. BRAGG.

Pastor of the Orthodox Church, Brookfield.

[From the Missouri Democrat.]

WOOD'S HAIR DYE.—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public, enjoys a better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formerly of a coarse and dry nature. It has also, we understand, a tendency to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With such recommendations in its favor, we hardly perceive how any lady or gentleman should be without so valuable an adjunct to their toilet.

DYER'S HEALING EMBROCATION

EXTERNAL—INTERNAL REMEDY.

THIS valuable External and Internal Remedy originated with a skillful and Scientific Chemist, who found it difficult to obtain an article that would with certainty, and in a short space of time, effect a cure of Wounds, Bruises, Cuts, Burns, &c. By various experiments he at length discovered a preparation which answered his most sanguine expectations, and its peculiar virtues becoming known to his friends, he was induced by them to prepare it for general use.

Since its first introduction to the public some important additions and improvements have been made in its composition, increasing its value and making it applicable to a greater number of diseases, especially in those of the stomach and bowels, and it is now used internally with, if possible, greater success than Externally.

DYER'S

Healing Embrocation

Is a perfect pain destroyer and an invaluable Remedy for Rheumatism, Cuts, Wounds, Scalds, Burns, Bruises, Cholera Morbus, Diarrhoea, Sore Throat, Swellings, Cramp, &c.

It is indeed truly gratifying to us to receive such indisputable proofs of the value of this astonishing remedy, as are daily presented us. We know its true value experimentally, and do not hesitate to recommend it as superior to any other Medicine for similar purposes, and we are willing at any time to refund the money, if it does not give entire satisfaction, or possess all the virtues we ascribe to it. Be sure and get the genuine.
