PROFESSOE WODD'S Hair Restorative,

It has worked Miracles.

THAT ALL THE BALD AND GRAY CAN. BE restored perfectly to original growth, and color so far as their locks are concerned does not admit of doubt; besides it will cure every possible disease of the scalp, whether developed as dandruff itching or in the shape of cutaneous ernptions-even scald-head -and in no possible case will it fail of curing as if by magic, nervous or periodical head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling, to any imaginable age. Read and judge.

Millford, Worcester Co., Mass., Nov. 1855. PROF. O. J. WOOD-Dear Sir; I take great pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Kestorative. As far back as 1836, my hair commenced failing off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement. I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and grawing fast.

Yours, truly, HENRY GOODRICH.

CHARLESTOWN, Mass., Aug. 9, 1855. Gents :- Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been, would induce me to give this public acknowledgement of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots were it was bald. 1 have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully yours, &c., Mrs. R. A. STODDARD.

From Mrs. Ingalis, a well known nurse in Boston. Boston, Oct. 19, 1855.

GENTS :- At your request and being so highly e sed with the effects of the Restorative, I am free to state that my hair had become quite thin, and en tirely white. I have for the last five years b en in the habit of using dye but hearing of the extraordinary effects of this article, I was induced to try it. My also to its former color, which is light brown,

Yours respectfully, MRS. INGALLS.

One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even bills, and lost much time, without being cured entirely even then. HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold set-tled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Br. Mackenzie, I tried your Pills. Their effects were slow, but sure. By per-severing in the use of them I am now entirely well.

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States. Its wonderful cures of pulmonary complaints have made it al-ready known. Nay, few are the families in any civilized comry on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the sub-tle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formida ble and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for in larger sizes fants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared We have abundant grounds to believe the CHERRY PROTORAL saves more lives by the consumptions it prevents than these i enres. Keep it by you, and cure your colds while they are enu-ble, nor neglect them until no human skill can master the in excrable canker that, fastened on the vitals, eats your life away All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more that assure them it is still made the best it can be. We spare ncost, no care, no toil to produce it the most perfect possible, anthus afford those who ret on it the best agent which our skilcan furnish for their cure:
