Resolutions were unanimously passed expressive of surprise at the attempt to deprive the colonists of valuable rights, and the unwise and nistaken policy of making the concessions indicated by the Treaty.

The fourth resolution was, "That a Petition he prepared and presented to the Legislature soliciting their earnest and hearty co-operation with the people of Newfoundland, in averting appearance of their articles. the danger threatened by the proposed conces-

Prince Edward's Island.

We have received from a friend in Prince Edward's Island No. 1 of "The Protector and Christian Witness" edited by a committee of Brotestant Gentleman. It is published by G. T. Haszard, and has its columns well filled with religious and other matter. Its editorial corps may be taken as an index of its objects. On the subject of Temperance it says "it heartily desires the suppression of drunkenness," and that "multitudes are still ignorant of the power of moral suasion."

It will doubtless do good service in the cause which it is to be devoted. We hail its ap-Pearance, and wish it much success.

We find in its columns the speech of His Excellency the Lieutenant Governor, delivered on the opening of the Legislative Sessions, After treating on various local topics, His Excellency refers to the question of education; which has of late commanded so much attention, in the following terms:

"As those laws will shortly expire which have given to this Colony a well merited preeminence in securing to the rising generation the blessings of a Free Education, it will be for you to consider the expediency of continuing or

re-enacting them. I am fully sensible of the fact, that the educational establishment of this Island involves a very heavy charge upon its revenue, which is small in comparison to those of the sister Provness; a charge which is larger than is incurred for a similar purpose in older, wealthier and taore populous communities; and amounting in all to one-third of the public income. But keeping in view the great advantages that acerue from such an expenditure - advantages Poultry-Chickens which are felt by the present generation, but which will be still more sensibly apparent to future ones, -I strongly incline to the opinion, Calf-skins, per fb. that the public money could not be better ap- Yara, plied than in fostering that free system of public Potatoes, per bushel, instruction which has hitherto given such general satisfaction to the people of this Colony, and which has been referred to in terms of com Do. (cotton and wool,) mendation by our fellow subjects in other portions of Her Majesty's dominions.
