

Albany is finally reached. This city is one of the oldest settlements in the Union, is the capital of the State, and stands 144 miles north of New York.

Numerous interesting Baptist Churches are to be found in every part of this land, many of them supplied with efficient pastors, while others, as in Nova Scotia, are suffering for want of pastoral labour.

But I am already overstepping my limit, and for the present must draw to a close. In my next I shall give you some account of my tour to Rochester, and Niagara Falls.

Obituary Notice

MR. ANDREW EATON.

Died—At Cornwallis on the evening of the 8th ult. ANDREW, son of Mr. Athren Eaton aged 34 years. The death of this young man was alarmingly sudden and painful.

The deceased was employed during the entire day upon which he died, upon the public roads, he worked in his usual health and spirits—and had the same prospect of life as any other healthy robust, young man.

Our departed friend—leaves a deeply distressed widow to whom he had been married but four months.

In this trying Providence, we rejoice to know she is enabled to make the Lord her trust—and while her heart bleeds under this mysterious stroke, can humbly submit to God's righteous appointment.

Appalling Catastrophe.

PARTICULARS OF THE BURNING OF THE STEAMER "MONTREAL."

Montreal, June 29.—On Friday night the Montreal left Quebec at four o'clock, with about thirty cabin passengers on board, and some four hundred and fifty, or five hundred emigrants.

When the steamer reached about twelve miles from Quebec, above Mr. Atkinson's place, at Carouge Bay, Mr. Hayes came outside the saloon at the after part of the steamer, when he observed a smoke rising from the midships of the boat over the saloon.

The flames, after the smoke was at first perceived, did not take more than ten minutes to envelope the whole vessel, and in two hours she was utterly destroyed, so that hardly a vestige of the vessel could be seen.

himself, after remaining, as he believes, nearly half an hour hanging on to the vessel's side found it too hot to remain there any longer, and struck out boldly for a boat which he saw approaching.

Besides those who were taken on board the Napoleon, a few persons, Mr. Hayes thinks not more than twenty, succeeded in swimming on shore to some rocks in the immediate neighborhood of the beach.

Only three cabin passengers are reported to be saved out of the whole number.

Mr. Hayes was so long in the water as to have brought on excessive cramps, which caused swelling in the joints, and afflicted him with the most excruciating pain.

While in the water, either hanging on to the steamboat or to the small boat by which he was eventually saved, he was repeatedly grappled by unfortunate persons in the act of drowning, and at the moment when he laid hold of the boat's gunnel, he believes that six persons, chiefly women, had hold of his skirts.

These the boatmen took in before they extended any aid and comfort to him, and during this final struggle for life his sufferings of mind and body were excessive.

On one hand a poor creature would be seen perched on an outside part of the steamer, where a resting place could be obtained only by the closest hold with both hands and feet, and there hanging in torture till driven by the smoke and flames he or she had to take the fatal plunge into the cold river below.

In another direction strong men might be seen seeking to secure themselves about the irons of the guards or the paddles. Some of them lost their hold and sank at once.

The unlucky vessel just destroyed was a vessel about two years old, owned and built by Mr. Wilson, of Quebec. Her engines were the old ones belonging to the Sydneyham.

It seems, from rumors which were afloat on board the Napoleon, that the Montreal had been on fire previously while getting up her steam, and that precautions had been taken with a view to any such casualty as that which finally occurred; but this is at present uncertain.

It appears that there was no boat on board the Montreal which could be put to the slightest use in saving the passengers.

The emigrant passengers were almost all Scotch, who had arrived out in the James McKenzie.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR; FROM THE WORST SCROFULA DOWN TO A COMMON PIMPLE

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of bites. Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself.

There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of those aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c. the discovery has done more good than any medicine ever known.

No change of diet ever necessary. Eat the best you can get and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.
