The general state of trade and business in England is satisfactory, although it is probable the breaking out of the Eastern wars may interfere with the reductions, which were so earnestly looked for; especially the removal of the Income Tax, deservedly the most unpopular of all taxes on account of its mode of collection, which is of neccessity, to a large extent, very inquisitorial.

The general state of Europe at present is pacific. The English and French Governments are about withdrawing the troops which they have hitherto kept up in

Mr. Labouchere the Secretary for the Colonies, is about introducing a Bill into the House of Commons to repeal the monopoly of the Hudson's Bay Company, in the vast Territories situated to the North and North West of the Canadas, comprising all the British possessions on the N. W. and said to contain upwards of a half a million of square miles; a wast part of it in a moderate, healthy climate, and composed of the richest soil, abundantly watered by lakes and rivers. It is now occupied by a few wandering tribes of Indians and by the hunters of the Hudson Bay Company, who are of course averse, from Colonizing it, and only keep up such establishments as serve for collecting their furs. It is said that the whole population of the United Kingdoms might be amply accommodated in this at present almost unbroken wilderness. We sincerely trust it will shortly be opened for the emigration of the old country.

It appears that at length all causes of difference between England and the U. States, relative to Central America have that the two nations have nothing now to friendly relations and the active developement of their commercial intercourse.

The note from Mr. O'Brien, accompaning it and that from Mr. Johnston in reply are pleasing indications of deserving merit, and of apprecation of talent.

NEW YORK, March 19, 1852. LET THERE BE NO SECRETS IN MEDICINE, or rather no pretended secrets. Dr. AYER takes the honorable honest course, and right because it is honest. He goes to work and invents the best remedy which medical skill can devise for the cure of certain complaints then publishes what it is and maintains his monopoly of it solely by making it cheaper, better, more perfect, than anybody else can. If the people would exact this of all who offer medicines, they would have much less tracle and trash to swallow .... New Orleans Organ.

# HAIR RESTOATIVE

WE CALL THE ATTENTION OF ALL, OLD AND YOUNG, to this wonderful preparation, which turns back to its original color, gray hair-covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions— causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair, will, preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call, then upon the bald, the gray, or diseased in scalp to use it; and surely, the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.

WATERTOWN, Mass., May 1, 1855. PROF. O J. WOOD; Allow me to attest the virtues and magic powers of your Hair Restorative. [From the Washington Star.]

Among the many preparations now in use for the restoring, preserving and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general, use throughout the States.
