

On Sabbath the 18th, Father Crandall, now in his 87th year, preached the opening sermon from 2 Chronicles vi. 18.—"But will God in very deed dwell with men upon the earth," &c.

On Monday morning, after a sermon by the Rev. W. Hall, the sale of pews took place. The Christian Visitor informs us:—

"There are in the house, above and below, 120 pews; an upset price was put upon them sufficient to cover the expenses of the building, and purchasers were called upon to bid for choice. The first choice was purchased by O. Jones, Esq., for £40 above the upset price, making the entire cost £80.

The other religious denominations in the place showed their good will by coming in and purchasing pews, and several who had not been accustomed to attend any place of worship, were also among the purchasers.

THE CONCERT was given by the Germain St. Choir on Monday evening, Mr. Chaloner performing on the organ. The weather proved unpleasant, but notwithstanding the attendance was good, and the choir acquitted themselves in a manner that excited the admiration of all who heard them.

All deeply deplored the absence of the late pastor, our much lamented Brother Emerson. He had taken a deep interest in the erection of the house, and looked forward with pleasing anticipations to its opening, as affording increased facilities for the promotion of truth in Moncton, but before the time came for the realization of his hopes, he was removed to the "House not made with hands, eternal in the heavens."

Mr. W. Gremley writes from Newcastle of the great success which is attending the ministry of the Rev. G. Seely, in that place.

Rev. A. D. Thomson, we are sorry to find, has been obliged by affliction in his family to return home for a few days. He intends to resume his Agency at Windsor, Hantsport, Halifax, &c. shortly.

A man named Brown was drowned on Friday night, 23rd. He is supposed to have walked over the Ballast wharf, under the influence of intoxication.

James Duffy, about 21 years of age, was charged before W. Schoullar, Esq., in King's County with committing a rape on Ann Mulcahy. On being discovered by a person passing he threatened to shoot him.

SHOCKING MURDER.—On Wednesday last, a man named McNeill, son of Mr. R. McNeill, of Vernon River, was committed to Jail for the wilful murder of MR. WILLIAM LANE, of "Alberty Plains," Georgetown Road. The following are the particulars, as they have been related to us:—McNeill was a servant in the employ of Mr. Lane, and on Tuesday morning last, Mr. L. upbraided him for lying in bed so late in the morning, and informed him that if he could not attend better to his business he would have to discharge him. They both left the House for the Barn, and after being absent some time Mrs. Lane called to her husband to come to breakfast. Some time elapsed, and Mr. Lane not making his appearance, Mrs. L. proceeded to the Barn, and there found her husband lying on the floor dead, with his brains knocked out.—McNeill had disappeared. The alarm was at once given, and on examining the body, it appeared that the deceased had received three blows on the head with an axe, which must at once have deprived him of life. It is supposed the unfortunate deceased was in the act of repairing his Barn, and while engaged in driving a nail, McNeill must have struck him behind with an axe, and after killing him, left the premises. He was afterwards taken at Vernon River, and brought to town as above named. Mr. Lane was a young man, with a wife and two children—he bore an excellent character, and was much esteemed by all his neighbours. He was a son of Mr. Edward Lane, of Dunstaffnage, St. Peter's Road. McNeill is said to be of unsound mind.—Protector.

MONTREAL, OCTOBER 26.—Sir William Eyre has left the seat of government, and is now in this city. Rumor says he is about to leave this country for Britain, perchance for India. The removal of troops now going on reduces the

British American station, we suppose, to a Major General's command. Sir Edmund Head is expected by the Indian on Sunday or Monday next, to resume his duties as Governor General.

THE DECIMAL CURRENCY IN CANADA.—All promissory notes having three months to run, which are intended to be presented to the Banks for collection or discount, should, from to-day, be expressed in dollars and cents. All the Chartered Banks of Canada made this request by public advertisement a few weeks ago. A note at three months dated to-day, will fall due on the first of January next, the day on which the new system of accounting, in as far as the Banks and the Government can establish it, is to commence.

No doubt many notes have been drawn in pounds, shillings and pence within the last few weeks, which have not yet been presented to the Banks for collection or discount; and we should fancy that in the case of these, the new regulation might be sufficiently complied with by putting the amount in dollars and cents over or under the figures representing the amount of the note. Perhaps, also, those merchants who do not immediately alter the form of figures in their books, but who draw notes in dollars and cents, in compliance with the request of the Banks, may find it convenient to write under the figures expressing dollars and cents, others expressing pounds, shillings and pence.—Montreal Globe, Sept. 29.

The Steamship Vulcan, with the 9th Regiment, left Quebec on Saturday, 17th inst.

The telegraphic announcement of the arrival of the steamer Asia, on Saturday, brought an item of news, which, although in itself of a most painful nature, as affecting the connections and relatives of the late Mr. Locke, a gentleman of large property, and originally a partner in the firm of Messrs. Harrison, Watson & Co., Bankers, Hull, has, at the same time, given very sanguine hopes that the claims of the Hull Bank will be paid in full, and thus enable the extensive firm of Messrs. E. Burdall & Co., of Quebec, to resume business, we hope, at no distant day,—a circumstance at which the many friends of this establishment in Quebec and Canada West will greatly rejoice. It is said Mr. Locke, who has committed suicide; had a property worth between £8,000 and £10,000 a year, and was never gazetted out of the Bank, although he has ceased to be a partner for nearly twenty years.—Quebec Chronicle.

SIR JOHN PAKINGTON, M.P., ON INDIAN AFFAIRS.—The annual dinner of the Worcestershire Agricultural Society was held at Worcester on Friday evening. Sir John Pakington in responding to a toast, spoke at some length on the all-engrossing topic of the day. He stated that he had received a private letter a few days since from the Governor of Ceylon, who wrote that we in England had hardly yet a full conception of the danger which we had escaped, for that India had been saved by the premature outbreak at Meerut. In another fortnight, had not that outbreak taken place, there would have been a simultaneous massacre of all the Europeans in India; and his correspondent used this remarkable expression, that "he verily believed there would not have been a European left to tell the tale." We had been saved that danger by the premature outbreak at Meerut. This, then, he would say was the time for Englishmen to prove their loyalty, and at all events to support the throne; and this done, he believed the triumphant result would be to re-establish our dominion in India. With regard to the atrocities of the Sepoys, justice must be vindicated, crime must be punished, the power of England must be asserted, and the horrible deeds committed must be treated as they deserved. Englishmen demanded this, but, he would say, let it be done in no vindictive spirit. Let justice be tempered with mercy. It might be, perhaps, not an acceptable sentiment to them, but it was a sentiment deep in his heart, and when they came to deal with the matter, after the victory had been gained, let them bear in mind that our own hands were not clean. India had not been governed as it ought. It was only yesterday that he had submitted to the astonished eyes of a large party in a country house official proof that in collecting the revenues of India there had been practised in the name of England—he would not say by the authority, but he feared not without the knowledge of Englishmen—there had been practised tortures little less horrible than those which we now deplored. This must be borne in mind in the day of reckoning, and in dealing with the question let them bear in mind these two great cardinal objects: first, that as a great nation we must re-establish the authority of the sovereign in India; and, secondly, that when that authority is re-established India must be better governed.

EPIDEMIC CHOLERA.—A circular with reference to epidemic cholera has just been issued by the General Board of Health, Whitehall. It says:—"Cholera has again become epidemic in several of the Baltic ports, and at Hamburg. On each of the three former occasions, when the disease has visited England, its first appearance in our eastern seaports followed closely on its epidemic outbreak in the last-named city. During the past three months, there has been observed in London, and in some other parts of England, a very unusual fatality from diarrhoea; and this derangement of the public health is such as, on the previous occasions referred to, preceded the commencement of the epidemic periods of cholera. The General Board of Health deems it expedient to call the attention of local boards of health to these facts, and most earnestly recommends that the powers vested in such boards for the protection of the public health be exercised from the present time with especial vigilance."
