CROPS WESTWARD.—Mr. W. H. Sabean writes from Weymouth, Sept. 15th, 1857.—

DEAR SIR.—The hay crops in this section of the country were rather below the average; but the grain crops appear promising.

The potato crop is very good for now-a-days; but little rot compared with former years of a late date.

Nova Scotia is not without her representatives in the strife now raging in the East. Lieut. Col. Inglis, (son of the late Bishop) is with his regiment (the 32d) at Lucknow.

Calcutta is about two months from Delhi, so that the troops which left England in August, are not likely to reach that focus of murderous ferocity and abomination before January.—*Jour.*

STEAMER CENTRAL AMERICA FOUNDERED.—UPWARDS OF FOUR HUNDRED LIVES LOST.—The steamship Thomas Swann, which arrived at Charleston from New York on the 17th inst., reports having spoken, on the 15th inst., about 15 miles north of Cape Hatteras, the Norwegian bark Eloese, which had on board forty passengers of the steamship Central America, who stated that the Central America foundered on the 12th inst., with 500 passengers on board, only sixty of whom were saved.

The steamer Central America was bound from Aspinwall for New York, via Havana, and is said to have been well provided against accidents. She had specie to the amount of \$1,600,000, on board, about \$500,000 of which was insured in New York, and the remainder in London.

FURTHER PARTICULARS.—The brig Marine succeeded in recovering 26 women and children, and 20 men.

The steamer was lost 200 miles from Cape Hatteras.

A despatch from New York says:—The insurance companies have resolved to pay the losses at once, upon proof of loss, without taking advantage of the 30 days' delay allowed them. The foreign insurance will be paid at the same time, according to a clause in the policies. The steamer Central America was valued at \$300,000 was not insured.

She had 600 or 700 life preservers, and six life boats, capable of carrying at least 50 men each. Two of them were Francis's metallic boats, and the others were wooden boats with air-tight tanks.

The aggregate loss will be near two and a quarter millions of dollars.

Henry H. Childs of New York, one of those saved, says that the Central America left Havana on the 8th inst. Next day it blew a gale. About 11 o'clock on Friday, the passengers first heard that the vessel had sprung a leak. They instantly went to work forming in line to bail out the engine room, and after some hard work succeeded so far as to get up fires again, but they were soon after extinguished forever.

After 7 P. M., a heavy sea, for the first time, washed the decks, and then all hope was abandoned. Life preservers were at hand, and were distributed to all, and two rockets were fired. Soon after a tremendous sea washed the deck from stem to stern, and the boat went down, leaving from 400 to 450 persons floating on the waves.

These for some time strove to cheer each other and spoke words of hope, and for two hours only three were drowned, but after that they began to grow exhausted, and one by one they passed into eternity. The storm was now quite over. About 1 o'clock the narrator was alone in the wide ocean, 200 miles from land. Yet he could occasionally hear shouts and other noises that satisfied him there were still other survivors. About two o'clock he saw a vessel about a mile distant, and struck out for it. He was fortunate enough to reach it, and was taken on board. It proved to be a Norwegian, barque, sailing from Belize. Some of his fellow-passengers were on board, and she continued to cruise about for some hours, and picked up several. The crew of this vessel were on short allowance. Soon after, they fell in with the Saxony, which gave them some provisions, and took several of those saved from the wreck on board.

Important Discovery.—A real Remedy for Asthma, has been found in Jonas Whitcomb's Remedy, prepared by Joseph Burnett & Co., Tremont Street, Boston. It has never failed to give relief even in the most severe cases.

Chilblains.—This painful affection may be easily cured by a few applications of Perry Davis' Vegetable Pain Killer. It is equally effectual in curing scalds, burns, &c. No family should be without it.

TAPE WORM CURED BY DR. M'LANE'S CELEBRATED VERMIFUGE. NEW YORK, August 2, 1852.

A certain lady in this city testifies that, after using Dr. M'Lane's Vermifuge, prepared by Fleming Bros. of Pittsburgh, she passed a tape worm ten inches long; and has no hesitation in recommending it to every person afflicted with worms; as, in her opinion, it far exceeds every other remedy now in use.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS., of PITTSBURGH, PA. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS.

Bite of a Rattlesnake cured in five minutes.

Messrs. PERRY DAVIS & SON—GENTS.—A merchant of Linneons, in this State, informs me that recently one of his sons was severely bitten on the leg by a rattlesnake, from the effects of which he suffered most dreadfully. The family chancing to have some of Perry Davis' Pain Killer in the house immediately commenced bathing the bitten place, without knowing whether it would or not, afford the least relief, but surprising as it may seem, the poison was soon observed to exude from the wound, and in five or ten minutes the young man fell asleep, entirely free from pain, or any effect from the bite except the flesh wound, which healed very soon.

DR. H. E. MORRILL, A SKILFUL PHYSICIAN OF NEW YORK CITY.

In his remarks on Dyspepsia, says—The most effectual medicine to improve the tone and energy of the stomach, is that prepared by Dr. Geo. B. Green, and called the Oxygennated Bitters.

I would publish the recipe for preparing this valuable medicine, if I knew what it was, but as I do not, I can only recommend its use. It seems to me to be improperly called "Bitters," at least in the proper acceptation of that term, for it contains no alcohol or other spirits, and is rather sour than bitter. Though here, by the way, I cannot too earnestly caution the dyspeptic sufferer against using "bitters," the basis of which is alcohol or other ardent spirits. They no more impart real energy to the stomach, than a whip gives strength to a horse. The stimulation which they excite is only temporary, and sure to be followed by a reaction, which at length will inevitably wear out the stomach. The medicine of which I am speaking, obviates these objections.
