

have half an hour before dinner, at 6 o'clock, to add a few lines. The shipping, two harbors, and views about here are the only things worth seeing. The entrance to the natural harbor is very narrow, and, like Havana, protected by Forts on either side. A new immense harbor built by breakwaters into the Mediterranean, gives one some idea of the growth of the shipping and trade of this port. But the views on the high hills, on either side of the entrance to the old harbor, surpass anything we have yet seen. I nearly choked yesterday with laughter, on the road from Lyons, at a station where we stopped a few minutes to feed. S. had gone into the eating saloon, and I met him coming out in great glee, saying, "I have had some *potash*." At first I was greatly puzzled to know to what use he could put such an ingredient at so early an hour of the morning, it being only 11, though I did not know of what benefit it could be to a Railway traveller at any hour of the day. The idea, however,—instantaneously with the smell—of soup (*potage* in French) came to my relief, and the matter so solved itself. But I occasionally keep complimenting him on his wonderful acquisition of French.

I must stop—the bell is ringing for dinner, and after that, time (in Marseilles) is at an end with us. Some great Prophet, (an Astronomer, I believe,) at Paris, says it is going to be at an end with all the world in June.

**Religious Intelligence.**

**PRESBYTERIAN.**—The fifteenth session of Queen's College, Montreal, was brought to a close about ten days ago. On the whole it seems to have been a successful session. The attendance was greater than in former years, amounting to within a very few of 120. Ten of those were students in Divinity, one of whom will soon be taken on trial for science by the Presbytery of Kingston, if the ensuing meeting of the Synod grants permission. I observe that the degree of Master of Arts has been conferred on John Livingston, Pictou, Nova Scotia; and an enquiry I have ascertained that all the students from Nova Scotia, four in number, have given great satisfaction. The business of the session terminated in the delivery of an admirable address by Dr. George, the vice-principal. It is expected to appear in the next number of *The Presbyterian*. A very pleasing incident occurred as the Vice-principal returned to his house. The students in his different classes, together with a deputation of his students in former years, waited upon him and presented him with a very handsome gold watch and appendages, valued at £61, together with an address expressive of their gratitude for his unwearied and self-sacrificing exertions in their behalf and of their admiration of his commanding abilities and christian character. —*Monthly Record.*

**MISSIONARIES APPOINTED.**—Two clergymen have been appointed as missionaries within the bounds of this Synod, who have not yet arrived in Nova Scotia—the Rev. James Patterson and the Rev. Thomas Tulloch. Hitherto our church has been too feeble to attempt any aggressive movement as we have still vacancies that were formerly supplied with fixed pastors. Should the active co-operation of the Colonial Committee be continued for some time longer we may be enabled to undertake, like other denominations around us, some missionary duty which will be both pleasing to ourselves, and profitable to our adherents in remote districts. —*ib.*

**SUICIDE OF A CLERGYMAN IN PRISON.**—The Rev. M. McClatchy, who was recently committed to jail in London, Canada, for alleged forgery of documents to defraud the provincial insurance company, committed suicide, on the 19th ult., by hanging himself with two handkerchiefs attached to the bars of his cell, where he had been placed alone the day previous, his insanity having been proved beyond a doubt.

The Presbytery of Baltimore have made the following decision on the case of William Chapman, a member of the Presbytery—who had been put under censure for marrying the sister of his deceased wife; 12 members of the Presbytery decided that he had been guilty of "an offence against edification," 6 that he had been guilty of "incest," and 2 that he had committed no offence, either against God or man.

**EPISCOPAL.**—Under the sanction of the Bishop of London, a series of twelve services are to be held on Sunday evenings, in Exeter Hall, for working men. The Bishops of Carlisle and Ripon, Dean Close. Drs. Millar, McNeile and other well-known evangelical clergymen, are engaged to conduct them. This is a bold attempt to rival Mr. Spurgeon, but it is doubtful whether the bishops and dignitaries will be able to fill the large hall to the same overflowing extent as was always the case when the youthful Dissenting preacher was announced.

It is said that twenty-six members of Parliament were counted amongst the congregation of the Rev. C. H. Spurgeon on Sunday morning week. Last Sunday, the Earl of Carlisle, Earl Grey, the Marquis of Stafford, the Duchess of Sutherland, and other distinguished persons, were present.

**NEW ADVERTISEMENTS.**

**County of Halifax, SS.**  
**OFFICE OF CLERK OF THE PEACE,**  
HALIFAX, June 2, 1857.

ONE of Her Majesty's Justices of the Supreme Court having in accordance with the Act entitled "An Act to authorise Assessment for RAILWAY DAMAGES,"

Passed at the last meeting of the Legislature, appointed TUESDAY, the 16th day of June instant, for the Prothonotary of the County of Halifax, to draw the names of Twenty Eight persons to assess the damages sustained by individuals through whose lands the Railway passes.—All parties interested are hereby notified of the same, and that the drawing of the said Jurors, will take place between the hours of Ten o'clock in the forenoon, and Twelve o'clock, at noon.

JAMES S. CLARKE, Clerk of the Peace.

**NOTICE!**

**Valuable Farm and Saw Mill FOR SALE.**

THE SUBSCRIBER offers for Sale the valuable FARM and half of the SAW MILL, situate near the Gulf of St. Lawrence, in what is called the Chapman Settlement, at Tidnish, containing, by estimate, 250 ACRES; about 40 acres of cleared land, and about 40 more variable uncleared intervals land: with good Buildings, plenty of Logs to supply said Mill, and a good stream of water for Grist Mill or other Machinery. The whole will be sold at a low price, and a very liberal credit given; one third of the purchase money in advance, the remainder secured on the property. For further particulars apply to the Subscriber, on the premises, or to Dr. Nathan Tupper, at Amherst.

THOMAS BLEAKNEY.

Tidnish, May 6, 1857.  
June 10.

**Professor O. J. Wood's HAIR RESTORATIVE,**  
FOR PRODUCING HAIR ON BALD HEADS, AND RESTORING GREY HAIR TO ITS NATURAL COLOR.

THIS ASTONISHING AND UNEQUALLED PREPARATION HAS NEVER FAILED TO PRODUCE A growth on Bald Heads, when used according to the direction, and turn hair back to its original color, after having become gray, and reanimate it in all its original health, lustre, softness and beauty. Removes at once all scurf, dandruff and unpleasant itching, scrofula, eruptions and feverish heat from the scalp: It also prevents the hair from becoming unhealthy and falling off, and hence acts as a perfect HAIR INVIGORATOR AND TONIC.

A gentleman of Boston writes to his friend in New Bedford thus:

To your inquiries, I would reply, that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose, and pulled out freely; but I found that before I had used all the second bottle (which was eight weeks) my hair was entirely changed to its original color: light brown, and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen any thing like white hair starting from the roots: and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish to ask.

July 1, 1855.

[From the Boston Herald.]

SOMETHING WORTH KNOWING.—By using Professor Wood's Hair Restorative, gray hair can be permanently restored to its original color. The subjoined certificate from Johnston & Stone, Gardiner, Maine, is but one of the many instances that are daily coming to our knowledge, of its wonderful effects. It is no longer problematical, but a self-evident truth, as hundreds in our community can testify.

GARDINER, Maine, June 22, 1855.

DEAR SIR: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours respectfully,  
DANIEL N. MURPHY.

Professor O. J. WOOD.

BROOKFIELD, Massachusetts, Jan. 12, 1855.

DEAR SIR:—Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant itching tendency with which I have been troubled from childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit.

Yours truly,  
J. K. BRAGG.

Pastor of the Orthodox Church, Brookfield, Professor WOOD.

[From the Missouri Democrat.]

WOOD'S HAIR DYE.—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public, enjoys a better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formerly of a coarse and dry nature. It has also, we understand, a tendency to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With such recommendations in its favor, we hardly perceive how any lady or gentleman should be without so valuable an adjunct to their toilet.

O. J. WOOD & CO., Proprietors, 512 Broadway, New York, and 114 Market Street, St. Louis, Mo. June 10.

**THE GREATEST MEDICAL DISCOVERY OF THE AGE.**

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

**EVERY KIND OF HUMOR;**  
FROM THE WORST SCROFULA DOWN TO A COMMON PIMPLE

HE has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of bile.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself.

There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c. the discovery has done more good than any medicine ever known.

No change of diet ever necessary. Eat the best you can get and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

THE PRINCIPAL OFFICE for the STATE OF MAINE and BRITISH PROVINCES, is at the Drug and Medical Establishment of H. H. HAY, 15 & 17, Market Square, PORTLAND, MAINE, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States, and British Provinces. Price \$1.00.

MORTON & COGSWELL, General Agents; JOHN RICHARDSON; AVERY, BROWN & CO.; DEWOLF & Co.; JOHN NAYLOR; WM. LARGLEY; THOS. DUNDERRY.—Halifax Agents, G. W. McLENNAN, London-derry, and Druggists generally throughout the province. For Sale at Dr. CARRITT'S Drug Store, Amherst. May 21.

BIBLES, from 1s. 10d. to 40s., at the "Christian Messenger" Office.
