Pic-Nic .- The Granville Street Sabbath School held their annual pic-nic on Wednesday last, in the beautiful grove of Mr. Shields. On the way to the grounds, by permission of Mr. Hutton they were taken through the Horticultural Gardens, and were much pleased with the floral beauties there displayed. The young people immediately entered into the agreeable recreations with hearty good-will. About 5 o'clock they appeared at the well-filled tables. The exercise and fresh air had given all keen appetites, which were soon fully satisfied. Again the juveniles were roaming over the fields and engaging in their sports, whilst teachers and friends partook of refreshments. After which all were called together and briefly addressed by the pastor, the Rev. D. Freeman. and by Rev. S. N. Bentley. Some pieces of music were sung with much animation and spirit, and all returned to their homes well

pleased with their afternoon's enjoyment.

LOST IN THE WOODS .- A correspondent of the Liverpool Transcript states that a woman named Mary McMullin left her home, five miles from the Cross at Albany, Co. Annapolis, August 18th, to look for a cow. On the morning of the 19th she was seen in Brookfield going north. Gangs of men were searching spectfully invited to attend. the woods for three days without finding her. She is reported since to have been found, after wandering about the woods for fifteen days The woman is about fifty years of age, single, and considered to be somewhat deranged for the last twenty years. She was bare footed and bare-headed when she left kome.

The Western News in giving an account of successful farming, publishes the following "facts stranger than fiction":-

"Mr Levi Phinney has now growing on about one acre of land, a root crop estimated at more than nine hundred bushels. The land was formerly a swamp which now bears in its bosom this enormous crop. After clearing and burning the soil, the first crop was wheat, and a great crop it was, though we are not in possesplanted with green crop, and from first to last not which there will certainly be 400 bushels.

equally effectual in curing headache, pain in the stomach or bowels, dysentery, diarrhoea and cho-

Asthma - We cannot, we believe, render to those of our readers who suffer, from the Asthma, a greater service than by inviting their attention to the advertisement of Jonas Whitcomb's Remedy in another column.

Is Consumption curable?—We cannot doubt that in many cases of seated Consumption a cure has been effected solely by the use of the Wild Cherry preparation of Dr. Wistar. Its healing effects are certainly wonderful.

DR. H. E. MORRILL, A SKILPUL PHYSICIAN OF NEW YORK CITY,

In his remarks on Dyspepsia, says-The most effectual medicine to improve the tone and energy of the stomach, is that prepared by Dr. Geo. B. Green, and Durno's Catarrh Snuff—postage only six pence.

I would publish the recipe for preparing this valuable medicine, if I knew what it was, but as I do not, I can only recommend its use. It seems to me to be improperly called "Bitters," at least in the proper acceptation of that term, for it contains no alcohol or other spirits, and is rather sour than bitter. Though here, by the way, I cannot too earnestly caution the dyspeptic sufferer against using "bitters," the basis of which is alcohol or other ardent spirits. They no more impart real energy to the stomach, than a whip gives strength to a horse. The stimulation which they excite is only temporary, and sure to be followed by a reaction, which at length will inevitably wear out the stomach. The medicine of which I am speaking, obviates these objections.
