United Kingdom. This document is as follows

JULY 29.

"We, the undersigned ministers of the gospel, are convinced, by personal observation within our own sphere, and authentic testimony from beyond it, that the immediate cause of most of the crime and pauperism, and much of the disease and insanity, that afflict the land; that everywhere, and, in proportion to its prevalence, it deteriorates the moral character of the people, and is the chief outward obstruction to the progress of the gospel; that these are not its accidental attendants, but its natural fruits; that the benefit, if any, is very small in comparison with the bane; that all schemes of regulation and restriction, however good as far as they go, fall short of the nation's need and the nation's duty; and that, therefore, on the obvious principle of destroying the evil which cannot be controlled, the wisest course for those who fear God and regard man, is to encourage every legitimate effort for the entire suppression of the trade, by the power of the national will, and through the form of a legislative enactment."

"The proceedings of the Conference were fol-Hall. Thousands on thousands crowded in, until every part of the building was filled. Whatever may be the feeling in other places, it is evident that in the metropolis of England's manufacturing industry and wealth this question has taken a very ing men and working women, having evidently hastened from their work, sat listening with almost breathless attention, and cheered every conclusive argument and apt illustration, with the enthusiasm so characteristic of the hardy sons of toil."

He concludes with the following pertinent effections :

"What may be the future history of our country in respect to this question cannot be conjectured. Yet faith in human progress-faith in the destiny of our world-faith in a glorious millennium of peace and purity. and truth and right, and, above The charges which have been brought all, faith in the power, and presence, and promises On our first page will be found a few of against the clergy that the progress of in- of Him who made our world for his glory, and tion, it is quite impossible to overate its the happy fruits which have followed well temperance has been rather encouraged who declares that "his glory shall yet be revealed, and all flesh shall see it together"-lead us to hope that intoxicating beverages, bitherto regarded by many as the good creatures of God, shall not for ever be used as the most potent instruments for

value; either to ourselves or our posterity. But however great or difficult to overcome, may be the obstacles opposed to its complete success, the Baptist Denomination are deeply and irrevocably pledged to its accomplishment. It is most encouraging to feel assured that they are fully competent to the task. The past history of their efforts leaves no doubt on this head: . Under such a view of the case we would say to the friends and supporters of our Educational Institutions, let there be no desponding thoughts or half-heartedness in the matter. It may possibly be suggested that so many of the ablest and most liberal individuals of our body have on former occasions contributed so freely, that it would be unfair to ask, and unreasonable to expect, that they should make further sacrifices to any extent in the same cause. But we must not reason thus; and we feel satisfied that the persons alluded too will not do so. We think that no one should be called on, or expected to give beyond what his means will fairly justify, but we do not believe that the liberal donor to our Institutions. if he be at all able to give, will withhold his hand in time of need, from doing further all that he conveniently can, in aid of objects, of the value of which in his own view, he has already given so decided a proof. The example of munificence set by the Baptists and which led the way to so many noble imitations in other societies, has given ample proof that among our own people, we have no churls to deal with, in sustaining our great Denominational objects But in the growing state of our community there are hundreds of persons, who have never yet had the privilege of contributing to the good work, but who will feel it not only a duty but a pleasure, to come forward with their offerings to a cause in the success of which the future interest, not only of ourselves but of the public at large are so deeply involved. Our own was the first voluntary Educational movement of importance in the Province. It is that also we believe in which most has been done. and which upon the whole has been the most successful. The eyes of the commu-

directed efforts to benefit seafaring men. than otherwise by them, will after this have A spirit of improvement in this respect is to be very considerably modified. REV. MR. GOUCHER .--- We observe with much regret that the Rev. W. G. Goucher of the West Yarmouth Church, has been compelled from ill health, to relinquish his charge. Brother Goucher during his brief incumbency of four years has been one of tive congregations must exert a powerful of Walker's Filibusterers from Nicaragua. our most esteemed and active labourers in the Lord's Vineyard. The spiritual oversight which he has exercised during that period has been at a crisis of probably more importance than almost any other in jects. A correspondent of the London might have been reasonably hoped that his the history of a church of Christ-a period during which the spirit and maxims that are to operate and govern in its future career, are inculcated and established with much effect, and on which the whole of the subsequent character and usefulness of the body will largely depend. The instructions of the Pastor who first cements and consolidates the elements of the infant christian society, will most likely be longest remembered and leave their deepest impress on its future history. We feel assured that the influence of Br. Goucher's ministry has been of the most salutary kind, as regards the formation of the character of his church in the inculcation of sound doctrine and practical piety, and we sincerely trust his health may be speedily restored, and that he may be enabled to reassume the all im-Jesus Christ.

days the conference sat, cannot fail to have sequence. brought out facts and arguments which Freeman writes :---

"They have an executive committee in Manchaster, and a council of corresponding members in all parts of the kingdom. During the past year they have collected about 9,500l. to carry on their agitation, and by them have the ministers of religion been asked to give a deliverance on the subject. The response has been a most unmistakable one, for, in addition to those who assembled at the Conference, it transpired during the proceedings that 600 or 700 more had given their adhesion to the principle of a 'Maine Law.'"

"Lest any should suppose that there is a desire to interfere with the liberty of the subject so justly dear to every free-born Englishman, it may just be is barely the size of a man's little finger. stated, in limine, that the practical measure sought by the Maine Law, then, is a permissive law, which may be applied to any district in which a sufficient majority fully and fairly represented demand its application. Probably they would not object to lightning speed, is composed of seven balloting a town or district on a universal suffrage, portant duties of a faithful minister of but perhaps 'the new idea' is not yet sufficiently developed to say in what shape it might be most fitly embodied."

"The proceedings were all opened with prayer
