Charles Shaw Lefevre, Speaker to the House of Commons, the "first Commoner of England," lays down his office, held for 18 or 20 years, with the sincere regret of all parties, and hopes that his well-deserved, honourable retirement may possess many years of quiet enjoyment. Her Majesty, according to custom, answers the Commons' request that she would show some mark of her esteem to Mr. Speaker, by expressing her willingness; and commanding the assistance of her faithful Commons to resolve what such mark of favor shall be. Such is the formal routine of Mr. Speaker's creation as a Peer, and ascent to the Upper House.  
The fight for principle rapidly approaches. England understands the question, nerves herself for its discussion, and will soon assert, with undeniable voice, whether the efforts of factious opposition shall succeed, or whether we are still to say—P. P. Palmerston, Premier; P. P. Palmerston and the People! So, at all events, Mr. Editor, says  
**YOUR SPECIAL CORRESPONDENT.**

**Provincial Parliament.**

**LEGISLATIVE COUNCIL.**  
As several members of the Council have had leave of absence on "urgent business," the debates have been of the most meagre and desultory character, the following will perhaps show rather what has been done in the lower house, and something of what there is to do in the Council, than what has been done.

**TUESDAY, March 24.**  
**MESSAGE FROM THE HOUSE OF ASSEMBLY.**  
The House of Assembly, by message, transmitted the following bills:  
A bill to amend the jury law.  
A bill to incorporate the trustees of the Free Church congregation at the Broad Cove interval, in the county of Inverness.  
A bill to limit the erection of wooden buildings in the city of Halifax.  
A bill to authorize the sale of the old Baptist meeting house in Windsor.  
A bill to alter the time of holding the sessions for the county of Victoria.  
A bill to incorporate the trustees of Knox's Free Church at Baddeck, in the county of Victoria.  
To which bills they desired the concurrence of this house. The bills were read a first time, and the second, fourth, and sixth of them were referred to a select committee, consisting of Hon. Messrs. Morison, McKeen, and Archibald. The third bill was referred to a committee, consisting of Hon. Messrs. Archibald, Bell, and Keith.

**HOUSE OF ASSEMBLY.**  
Proceedings in the Legislature have been of so little interest that the morning papers have scarcely alluded to them; we give below a few items.

**TUESDAY, March 24.**  
The Revenue Bills were taken up for the third reading.  
Upon the Act relating to Light House Duty, Mr. Killam moved the following clause should be added:  
"All vessels shall pay their light duties on their clearance and not on their entrance."

He thought it wrong for vessels to pay light duties twice on one voyage, as they were liable to under the present law.  
Mr. Morrison thought there was no need for any alteration.  
Mr. Henry said there would be danger of fraud in the alteration proposed.  
Mr. Killam was also of opinion that by the law vessels need not pay light duty twice, but the Collectors thought differently.  
Mr. Henry explained the operation of the law—vessels registered in the Province on clearing out—others on entering.  
Mr. Wier suggested that the light duties with regard to large ships coming into the harbor in distress, should be reduced one-fourth.  
Mr. Tobin thought it would lead to fraud.  
Mr. Marshall said if the duty was raised at all it should be raised on the large steamers which only pay 6d per ton for one voyage and pay nothing more during the year; and not on the coasters.  
Mr. Morrison thought it would not be advisable to admit vessels in distress free of duty.  
Mr. McLellan thought vessels coming into port in distress received benefit from the light houses and therefore should pay for it.  
Mr. Wier said it was not his intention to raise the duties on our vessels, but to reduce it. He thought the duties in the United States were not so heavy as here. He moved that all ships coming into the harbor in distress, not being bound from one port in this province to another, should pay 3s. per ton Light duty, instead of 6d.

Mr. Killam seconded.  
Mr. Henry was of opinion that a great many questions would arise under that clause as to whether the vessels were actually driven in in distress or not.  
Mr. Wier—Every ship owner agrees with me that it is hard to have to pay this duty when vessels are obliged to seek shelter in a harbor from storms.  
He also said there was no wharfage paid in New York.  
Mr. Morrison denied this, and said he had paid it for years.  
Mr. Henry—If this resolution is passed you will lose one half of those duties now collected in the Strait of Canso—as every other vessel will

say they are in distress. This will make a serious difference in the revenue.  
Mr. Wier—There is no other place in the world where a ship has to pay a whole year's light money for one entrance.  
The amendment passed in the negative.  
Mr. McLellan moved an amendment to the license law: that the shop licenses be abolished except in the city of Halifax.  
Mr. Henry—It is necessary that these bills should be sent to the Council for concurrence this afternoon. He must again observe that this mode of dealing with the revenue bills was irregular. These amendments should have been moved in committee.  
The amendment passed in the negative 16 to 11.

Mr. McLellan moved a resolution that the advalorem duties be reduced from 10 to 8 1-2 per cent.  
Mr. Henry thought the long resolution just proposed would make a very good speech for the hustings, addressed to people who did not know anything about the subject; but he did not see how it could be put on the Journals when the real facts are so contrary to the statements contained in the resolution. The gentleman had started with wrong premises, and then endeavored to sustain his position by figures.  
Mr. McLellan defended his position.  
Mr. Wade thought this motion would do very well for an electioneering dodge, but it ought not to go on the Journals of the House.  
Mr. Esson said, it was absolutely necessary to raise the revenue considerably: It was a mistake to say that the duties on wines were reduced.

The resolution passed in the negative, and the bills were ordered to be sent to the council for their concurrence.

**PROF. WOOD'S**  
**HAIR RESTORATIVE.**  
**WE CALL THE ATTENTION OF ALL OLD AND YOUNG,** to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair, will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call, then upon the bald, the gray, or diseased in scalp to use it: and surely, the young will not, as they value the flowing locks, or the winking curl, ever be without it. Its praise is upon the tongue of thousands.

WATERTOWN, Mass., May 1, 1855.  
PROF. O. J. WOOD: Allow me to attest the virtues and magic powers of your Hair Restorative. Three months since, being exceedingly gray, I purchased and soon commenced to use two bottles; and it soon began to tell, in restoring the silver locks to their native color, and the hair which was before dry and harsh, and falling off now became soft and glossy, and it ceased falling; the dandruff disappeared, and the scalp lost all the disagreeable itching, so annoying before, and now, I not only look but feel young again.  
Respectfully, yours, etc.,  
CHARLES WHITNEY.  
NEW YORK, Oct. 2, 1855.  
PROF. O. J. WOOD—Dear Sir: After reading the advertisement in one of the New York journals, of your celebrated Hair Restorative, I procured a half pint bottle, and was so much pleased with it that I continued its use for two months, and am satisfied it is decidedly the best preparation before the public that at once removed all the dandruff and unpleasant itching from the scalp, and has restored my hair naturally, and, I have no doubt, permanently so.  
You have permission to refer to me, all with entertain any doubt of its performing all that is claimed for it.  
MISS FEKK, 26 1/2 Greenwich Av.  
I have used Professor O. J. Wood's Hair Restorative, and have admired its wonderful effects. It restored my hair where it had fallen off; it cleans the head and renders the hair soft and smooth—much more so than oil.  
MARY A. ATKINSON.  
Louisville, Nov. 1, 1855.  
STATE OF ILLINOIS, Carleise, June 27, '55.  
I have used Professor O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought prematurely gray, but by the use of the "Restorative" it has resumed its original color, and, I have no doubt, permanently so.  
SIDNEY BREESE,  
Ex-Senator United States.  
[From the Washington Star.]  
Among the many preparations now in use for the restoring, preserving and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general use throughout the States. This preparation possesses the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer our readers to the advertisement for a few of the innumerable certificates which have been sent by parties, who have been benefited by it, and who feel happy in giving testimony to its wonderful effects produced on the hair.

**THE GREATEST**  
**MEDICAL DISCOVERY**  
**OF THE AGE.**  
DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures  
**EVERY KIND OF HUMOR;**  
FROM THE WORST SCROFULA DOWN TO A COMMON PIMPLE  
He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.  
Two bottles are warranted to cure a nursing sore mouth.  
One to three bottles will cure the worst kind of pimples on the face.  
Two to three bottles will cure the system of biles.  
Two bottles are warranted to cure the worst canker in the mouth and stomach.  
Three to five bottles are warranted to cure the worst case of erysipelas.  
One to two bottles are warranted to cure all humor in the eyes.  
Two bottles are warranted to cure running of the ears and blotches among the hair.  
Four to six bottles are warranted to cure corrupt and running ulcers.  
One bottle will cure scaly eruption of the skin.  
Two to three bottles are warranted to cure the worst case of ringworm.  
Two to three bottles are warranted to cure the most desperate cases of rheumatism.  
Three to four bottles are warranted to cure the salt rheum.  
Five to eight bottles will cure the worst cases of scrofula.  
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.  
Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.  
In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.  
Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.  
In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.  
Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.  
I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c. the discovery has done more good than any medicine ever known.  
No change of diet ever necessary. Eat the best you can get and enough of it.  
**DIRECTIONS FOR USE.**—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.
