

**THE 10TH OF AUGUST AT LUCKNOW.**—After these had been knocked over, the leaders tried to urge on their men. Again and again they made the attempt, but back they had to go by a steady fire. Their chiefs came to the front and shouted out, "Come on—come on—the place is ours—it is taken." And the Sepoys would then rush forward, then hesitate, and finally get under cover of the stockade, and keep up a fearful fire. Some hundreds of them got under the Cawnpore battery, but found the hand-grenades rather disagreeable, and had to belt rather sharp. Poor Major Banks came up, and cheered us during the hottest fire, and we were glad to see him. Our shell now began to fall amongst the enemy, and this still further roused their indignation; you could hear additional yells, and horrid imprecations on the heads of all Christians. No less than three times were we assaulted by enormous odds against us, and each attack was, thank God, successfully repulsed. There we were, a little body, probably not eighty men in all, *i. e.*, Cawnpore battery, our post and Captain Germon's, opposed to several thousands of merciless, blood-thirsty fanatics. We well knew what we had to expect if we were defeated, and each individual fought, as it were, for his very life; each loophole displayed a steady flash of musketry, as defeat would have been certain death to every soul in the garrison. Had the outposts fallen, they were in such immense numbers that we could never have turned the enemy out, and then not a man, woman, or child, would have been spared. It was, indeed, a most anxious time and the more so as we did not know how matters were progressing at other points. We dreaded that the others might have been even further pressed than we were. At intervals I heard the cry of "More men this way," and off would rush two or three (all that we could possibly spare) here and there; and then the same cry was repeated in an opposite direction, and again the men had to rush to support their comrades who were more hotly pressed, and so on; as the pressure became greater at particular places, men rushed to those spots to give assistance. During this trying time even the poor wounded men ran out of the hospitals, and those who had wounds in the legs threw away their crutches and deliberately knelt down and fired as fast as they could out of the loopholes; others, who could do little else, loaded the muskets, whilst the able-bodied soldiers fired; and in this odd manner these brave men of her Majesty's 32nd upheld the honour of their nation, and strained every nerve to repel the furious attacks of the enemy.—*From Captain Anderson's Siege of Lucknow.*

**THE PAST WINTER IN EUROPE.**—In the northern latitudes of Europe, Asia and America the weather has been unusually mild. In Switzerland, flowers were blooming in the open air as late as the end of December. In the cities of northern Germany scarcely any snow has fallen, and the weather although variable, has been, in the main, spring like. In Siberia, too, but little snow has fallen during the entire winter. While the North has been thus favored all accounts from the Southern portions of Europe concur in describing the winter as unexampled in severity. In "sunny Italy" the thermometer has reached nine degrees below zero, while snow has fallen in quantities, causing great suffering among the poorer classes who abound in that ill-governed country. The accounts from Turkey—the land of the pomgranate, of dates, of figs and olives, are still more gloomy. Nothing like this winter has been experienced since 1812. A letter from Pera, states that the upper portion of the Golden Horn is frozen over. Great numbers of wolves prowl about the outskirts of the city alike attacking animals and human beings. Immense masses of snow interrupt travel. Mechanics and traders are obliged to close their places of business, to keep out the drifting snow. Fuel, in consequence of its scarcity, is very high. Many persons have been frozen to death, not only in the open air, but in houses—if the miserable hovels, accessible to the air on all sides, which serve the poor for shelter, deserve the name of houses. The flocks of sheep in the vicinity have been almost entirely destroyed, etc. etc.—*New York paper.*

**REMARKABLE COINCIDENCES.**—A celebrated Roman was told to beware of the Ides of March; and our own statesmen should be equally cautious respecting the 22nd of February, which has been of late years singularly fatal to the Governments of this country. On the 22nd of February, 1851, Lord John Russell was defeated on Locke King's motion, and resigned. On the 22nd of February, 1852, Lord John Russell's administration was finally broken up. On the 22nd of February, 1855, Lord Palmerston's administration was broken up by the retirement of the Peelites; and on the 22nd of February, 1858, Lord Palmerston's second administration finally resigned, in consequence of the vote of censure conveyed by Milner Gibson's motion.—*Glasgow Daily Mail.*

**ANOTHER "SALETTE" MIRACLE.**—The *Interet Public* of Tarbes says:—"A considerable agitation has been of late manifested in the neighbourhood of Lourdes (Hautes-Pyrenees) by a visit which a young girl of fourteen, named Bernadette Savi, the daughter of a day-labourer, pays every morning early to a grotto in which springs forth a gush of water forming a rivulet, not far from the banks of the Gave. This girl affirms that the Virgin Mary has appeared to her, and ordered that she should every morning, for a fortnight, pray in the grotto during the space of half an hour. A vast number of persons accompany her in her visits, believing fully in the truth of her assertion. At first, when she kneels down, she is represented as being pale, and almost convulsed; but as her communication with the Virgin proceeds, her features become calm and radiant. We understand that not less than 5,000 persons are present now each morning near the grotto, and that the authorities are beginning to disapprove of such assemblages."

**LIBERALITY OF PHYSICIANS.**—It has always been said that physicians would disparage any remedy, however valuable, which they did not originate themselves. This has been disproved by their liberal course towards Dr. J. C. AYER'S preparations. We have always had confidence in the honorable motives of our medical men, and are glad to find it sustained by the liberal welcome they accord to such remedies as Ayer's Cherry Pectoral and Cathartic Pills, even though they are not ordered in the books, but are made known to the people through the newspapers.—*New Orleans Delta.*

**From a well known and highly respectable Physician in Canada West.**  
PRESCOTT, C. W., Nov. 29, 1855.  
Dear Sir: It affords me pleasure in complying with your request, in giving an expression of my opinion of the virtues of the *Oxygenated Bitters*.  
It is now nearly two years since I recommended its use to some of my patients, in a variety of Chronic Diseases, and with the most happy effects.  
It has proved very useful in Dyspepsia, Nervous Headache, derangement of the Stomach, and General Debility. Therefore let all those who are afflicted with the above diseases, try the *Oxygenated Bitters*, and their success is certain.  
I am, Sir, yours truly,  
R. W. EVANS, M. D., & Druggist.  
JOHN NAYLOR and MORTON & COGSWELL, Agents, Halifax.

We are glad to learn that Perry Davis' Pain Killer is having so large a sale in our city. We have every reason to believe it to be an almost never failing cure for pain, and as such is a medicine no family should be without.—*Montreal Pilot.*  
Davis' Pain Killer—from the reports of dealers in this city, we think no proprietary medicine has had a larger sale. Its valuable properties, as a speedy cure for pain, cannot fail to be generally appreciated, and, no family should be without it, in case of accident, or sudden attack of dysentery, diarrhoea, cholera morbus, and even Asiatic cholera, yields to its magic power, as we see by reports from those sections in the southwest where the disease has been particularly virulent the past Summer.—*Montreal Transcript.*

Messrs. Perry Davis & Son:—Permit me to acknowledge the benefit of your valuable medicine—the Pain Killer. I have been afflicted for two years and a half with a severe pain in the stomach and breast, and never found any relief until I tried Davis' Pain Killer, to which I cheerfully attribute my restoration to good general health. I consider it the best family medicine in use, for restoring and building up a debilitated system to its natural vivacity and vigor of life.
