The Grand External Remedy. By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through hone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by any means.

### Erysipelas, Rheumatism and Scorbutic Humonrs,

No remedy has ever done so much for the cure of disease of the Skin whatever form they may assume, as this Ointment. Scurvy, Sore Heads Scrofula, or Erysipelas cannot long withstand its influence. The inventor has travelled over many parts of the globe visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds & Ulcers. Some of the most scientific surgeons now rely solely

on the use of this wonderful Ointment, when having to cope with the worst cases of sores wounds, ulcers, glandular swellings and tumours. Professor Holloway has despatched to the East, large shipments of this
