THE CORPORATION .- On Friday next the Citizens will be called on to choose one of their number as Mayor, and six, to serve as Alderman of the City, and on the following day in Ward No 1, one in place of Alderman Donohoe, resigned. The former six will be for the term of three years. It is to be hopped that gentlemen of independent and high-principled minds will be placed in this highly important position. The present state and future prospects of Halifax demand men who have some regard for the honor of the City at home and abroad. Who will not only economize its funds, but who will protect its people from injustice and violence: men who can rise above selfishness. The decision of the City Council, on matters likely soon to come before them, will affect the character of the City much longer than the period for which they are elected.

A memorial, said to be signed by over 500 persons, has been presented to His Worship, the present Mayor, requesting him to allow his he has given his consent. We presume therefore that there will be no contest for that honorable office. The dignity which has marked His Worship's course in the past, will doubtless characterize his future administration. We shall be glad to see him surrounded by a council of intelligent and honorable gentlemen,

worthy of being so distinguished. Men capable of taking an enlarged view of their duties and determined, at any cost, to do them.

The following Order in Council was published in the last Gazette: At a Council held at Government House, on the

twenty first day of September, 1858.

His Excellency the Lieutenant Governor, The Honorable Mr. Johnston,

The Honorable Mr. Tobin, The Honorable Mr. Brown, The Honorable Mr. Marshall, The Honorable Mr. Tupper.

His Excellency communicates to the Council a to be issued at Pictou. despatch dated the 10th instant, from the Right Honorable the Governor General of Canada, enclosing a Minute of the Executive Council of that Province, approved by the Governor General, conveying an intimation that three members of the Canadian Council are on the eve of departure for England charged with urging on the atthe construction of the Inter-Colonial Railway to connect Canada with the Lower-Colonies, and suggesting that a fitting occasion is presented for the adoption by the Lower Provinces of such steps as they may think advisable to co-operate with Canada in promoting that object.

On full consideration and discussion of the subject the Council concur with His Excellency in opinion that Delegates be sent from this Province to unite with the other Colonial Delegates in again bringing the great question before the less than five minutes has been invented. Imperial Government; and His Excellency, by the advice of the Council, is pleased to appoint for this purpose, the Honorable Dr. Tupper, Provincial Secretary, and William A. Henry, Esquire, a member of the Provincial Legislature -and to associate with them the Honorable Mr. Dickey, a member of the Legislative Council now

TELEGRAPH TO SAMBRO .- There has been considerable talk lately about an Electric Telegraph for signals from Sambro to Halifax. Since the old-fashoned pole on the Citadel was removed much inconvenience has been experienced by merchants and citizens generally; a meeting was held last week at the Exchange when it was again talked about, a committee was appointed we believe, to gather further information and report at some meeting to be appointed. The meeting was informed that the old telegraph station might be put again into operation on payment of £250 a year. An ellectric wire would cost about £500, and it is said might be worked for £50 a year. It is only a matter of time of course it must be done. We trust that time will be
