Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of diseases.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

As a FAMILY PHYSIC. From Dr. E. W. Cartwright, of New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

FOR JAUNDICE AND ALL LIVER COMPLAINTS. From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DYSPEPSIA — INDIGESTION. From Dr. Henry J. Knox, of St. Louis.

The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them.

DYSENTERY — DIARRHOEA — RELAX. From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alternative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

INTERNAL OBSTRUCTION — WORMS — SUPPRESSION. From Mrs. E. Stuart, who practices as a Physician and Midwife in Boston.

I find one or two large doses of your PILLS, taken at the proper time, are excellent promoters of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

CONSTIPATION — COSTIVENESS. From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your PILLS for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your PILLS affect that organ and cure the disease.

IMPURITIES OF THE BLOOD — SCORFULA — ERYSIPELAS — SALT RHEUM — PLETTOR — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

You were right, Doctor, in saying that your PILLS purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS — &c.

DEAR DR. AYER: I cannot answer you what complaints I have cured with your PILLS better than to say all that see ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly.

Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints: Croup, Hoarseness, Asthma, Croup, Whooping Cough, Bronchitis, Incipient Consumption, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business it is to know; in short, if there is any reliance upon any thing, then is it irrefragably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefits conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

Prepared by Dr. J. C. AYER, PRACTICAL AND ANALYTICAL CHEMIST, LOWELL, MASS. AND SOLD BY MORTON & COGSWELL, HALIFAX.

A MARVELLOUS REMEDY! For a Marvellous Age!!

HOLLOWAY'S OINTMENT.

The Grand External Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by any means.

Erysipelas, Rheumatism and Scorbatic Humours.

No remedy has ever done so much for the cure of disease of the Skin whatever form they may assume as this Ointment. Scabby, Sore Heads, Scrofula, or Erysipelas cannot long withstand its influence. The inventor has travelled over many parts of the globe visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds & Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings and tumours. Professor Holloway has dispatched to the East, large shipments of this Ointment to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:—

Table with 3 columns: Bad Legs, Corns (Soft), Rheumatism; Bad Breasts, Cancers, Scalds; Burrs, Contracted and Stiff Joints, Sore Nipples; Bunions, Stiff Joints, Sore-throats; Bite of Mosquitoes and Fleas, Erysipelas, Skin-diseases; Sand Flies, Gout, Scoury; Cocoy bay, Glandular Swellings, Tumours; Chiego-foot, Ulcers; Chilblains, Lumbago, Wounds; Chapped hands, Piles, Yaws.

The publishers of this volume, believing that Christians in other parts of the country will be glad to enjoy some of that truth which God has so peculiarly owned and blessed as preached in the great metropolis, have requested these pastors of different denominations to furnish one of their ordinary discourses delivered in the midst of the present great awakening, for the purpose of making

A MEMORIAL VOLUME

of this work of God

These Sermons are the earnest, pungent expressions of their heart and mind at a time when God is doing great things in their churches, whereof they are glad. And although they would not have committed these sermons to the press had they looked merely to the praise of men, they are willing that we should send them forth to be read in public and private, in city and country, in the remotest regions where our language is spoken, as their testimony to the truth, and its simple power under the Holy Spirit in turning men from the error of their ways to the love and service of God.

The JOURNAL will be divided into two departments, the EDUCATIONAL and the AGRICULTURAL, each occupying a larger or smaller space, according to circumstances.

In the EDUCATIONAL DEPARTMENT will be discussed all topics appertaining to the theory and practice of education, whether in the primary or advanced stages, the qualifications, the duties, the difficulties, and the rewards of the Teacher, with a compendious summary of Educational Intelligence, Reviews of New School Books, &c.

In the AGRICULTURAL DEPARTMENT will be considered the various Sciences that bear most directly on the cultivation of the Soil, such as Geology, Vegetable Physiology, and Organic Chemistry,—the best and the surest method of securing the largest amount of produce at the smallest expense and with the least injury to the soil,—the present condition of Agriculture in the Province, with suggestions for its improvement—all illustrated by the operations carried on in the Experimental Garden and Farm connected with the Normal School—together with a short monthly statement of all that is going on in those countries where the interests of Agriculture occupy the position to which they are entitled.

In one word, the Journal shall have for its aim the unfolding of those principles on which all real progress in these two branches of a nation's welfare depend, as well as the applying of the same to the condition and circumstances of the Province of Nova Scotia.

This Periodical will be published the first week of every month, and will contain 16 quarto pages. The price will be ONE DOLLAR per annum, payable in all cases in advance.
