

On Monday, at half-past 4, p. m., intimation was given from the Halifax Telegraph Office that "The Message from Her Most Gracious Majesty the QUEEN to the PRESIDENT of the United States is now passing through Nova Scotia."

By the kindness of Jesse Hoytt, Esq., at 8 o'clock last evening we were favoured with a copy of the following Message from Her Majesty to the President of the United States, and President Buchanan's reply to Queen Victoria.

HER MAJESTY'S MESSAGE!

VALENTIA VIA TRINITY BAY, N. F. August 16th, 1858.

To the President of the United States, Washington.

The Queen desires to congratulate the President upon the successful completion of the great international work in which the Queen has taken the deepest interest.

The publication of the Queen's Message had been delayed until this time, but it was then announced that the above was sent on to Washington, and that President Buchanan had, in return, sent the following to Queen Victoria:

THE PRESIDENT'S REPLY!

WASHINGTON CITY, 16th August, 1858.

To Her Majesty Victoria Queen of Great Britain:

The President cordially reciprocates the congratulations of Her Majesty the Queen on the success of the great international enterprise accomplished by the science, skill, and indomitable energy of the two countries.

May the Atlantic Telegraph, under the blessing of Heaven, prove to be a bond of perpetual peace and friendship between the kindred nations, and an instrument destined by Divine Providence to diffuse religion, civilization, liberty, and law throughout the world.

In this view, will not all the nations of Christendom spontaneously unite in the declaration that it shall be forever neutral and that its communications shall be held sacred, in passing to the places of their destination even in the midst of hostilities.

JAMES BUCHANAN.

How much of glorious anticipation may we not cherish from this cordial interchange of feeling between the two greatest nations on earth rejoicing in one common language.
