And then concludes— "But when we turn back to the Scriptures preceding the narrative, and find repentance and belief demanded as the terms and indispensable conditions of baptism, then the case above imagined applies in its full force."

As Mr. S. wishes to enlighten us on this subject we commend to his attention an interesting work on "The Progress of Baptist Principles in the last hundred years," by Thomas F. Curtis.

We learn from the Provincial Wesleyan of the 29th ult., that at the recent camp meeting at Wallace—

"The Holy Spirit in a most overpowering degree, was poured out, the blood of sprinkling was applied, the word was made resistless by application of the Holy Ghost, and over 60 or 70 persons must have been brought to obtain a knowledge of the remission of sin through faith in the atonement."

The minister who wrote the communication further says:—

"When the superintendent of the Circuit put the question—Who have been justified?—Twenty-four persons stood upon their feet.—When he put the further question,—Who have been fully saved from sin? Twenty-three arose and testified that the "Blood of our Lord Jesus Christ God's son cleanseth from all sin."

We do not learn from the Word of God that any such distinction was made in the days of the Apostles. It was then "Believe on the Lord Jesus Christ and ye shall be saved."

THERE is no longer any doubt as to the existence of an extensive and rich gold field on Fraser's River, and we learn by our last mail from England, that a Bill has been brought in and passed in the House of Commons, constituting another British North American Colony, including a territory of about 400 miles square, of which Vancouver's Island forms a part.

OUR European news by the last Steamer is to the 17th July. The French War excitement in England seems in a great measure to have subsided, and Her Majesty at the invitation of the French Emperor, is about to pay a brief visit to France, to be present at a great fête, in celebration of the completion of the works and fortifications of Cherbourg, a large naval port on the western coast of France.

THE Russian Emperor is, without doubt, organizing great changes in the social condition of the Peasantry of the Empire. This vast mass of human beings have hitherto been attached to the soil, and whenever estates have passed from one great landholder to another have been bought and sold with the freehold.

The news from India is of a mixed nature—frequent advantages had been gained over parties of the rebel Sepoys, but in a few instances they had also prevailed against parties of the native Chiefs in our employ.
