

MONTREAL contains a population exceeding 80,000. In the year ending July 4th 1858 there were 2436 deaths.

United States.

A FREE LIBRARY AND LECTURE-ROOM FOR WORKING WOMEN has been started in New York. At the first public meeting called to promote its establishment £2000 were subscribed.

POISONED - Patrick McCormick, a lodger in the Bowery Hotel, died suddenly from the effects of arsenic, which he had purchased to kill rats, and which became mixed with some candy in his pocket by the leaking of the paper containing it.

INDICTMENT OF OFFICIALS.—A large number of ex-office-holders have been indicted on various charges of malfeasance, such as conspiracy to cheat, fraud, perjury, false pretences violation of city ordinances, misdemeanors, and other technical peccadilloes, which seem to be rapidly becoming the rule rather than the exception with such men as manage to get themselves into the places where the people's money is to be handled.

FANTASTICALS.—The Irishtown Rangers, a company of Fantasticals from the Fifth Ward, Brooklyn, paraded yesterday, and marched to Flushing for target practice. They were dressed in grotesque uniforms, and presented altogether a novel appearance.

BURNED TO DEATH.—Two men and twelve horses were burned to death by a fire which broke out on Thursday evening of last week in the stables in rear of No. 494 Sixth Street.

HIGH TIDE.—On Monday of last week, the prevalence of easterly winds caused the water of the Bay to overflow several streets near the Battery. Some damage was done to property in the cellars, and an immense number of wharf rats found a watery grave.

THE ATLANTIC CABLE.

VALENTIA, October 15.—Nothing stirring beyond the fact that the cable between the island and the mainland, which belongs to the British and Irish Magnetic Telegraph Company, again failed on the 12th, and although the weather was far from fine yesterday, it was under-run by their agent, Mr. Walker, and found to have broken or been severed about ten yards nearer the island than the last time.

It appears that on the 20th of Sept. the powerful instruments made by Mr. Henley were first used, and intelligible signals were received in Newfoundland on that and the 3 following days.

THE PRINCE AND PRINCESS FREDERICK WILLIAM. A letter from Berlin, of October 9th, says:—In all the intrigues which are taking place for power and influence it is satisfactory to know that the Prince Frederick William keeps most steadily aloof.

DEAF AND DUMB.—Mr. Thomas Pattison, a deaf and dumb coach painter in Edinburgh, about to emigrate to Australia, was last week entertained by eighty of his friends, labouring under the same privation. An elder of the

Deaf and Dumb Benevolent Society, he was held in high respect; and during the evening he was presented with a copy of Kito's Illustrated Bible. Eloquent and effective speeches were made by the mutes; but as there was no deaf and dumb reporter present, the oratory is not found in the newspapers.

The London Board of Works have taken the first practical step for the main drainage of the metropolis. On Friday they resolved to advertise for tenders to construct the high level sewer on the north side of the great city.
