ANDRIEU'S GREAT WORK.

THE RAKE'S PROGRESS.

SIR:—The object of this work is to picture the progress and consequent miseries of a familiar Vice—INTemperance—contrasted with the opposite virtue. The work has been got up at great expense, and in a magnificent style. As a work of Art, or as to its sad truthfulness, we challenge the severest criticism.

The success of such a work has been doubted by some, and we expect the opposition of such; consequently we must rely upon those who have encouraged the Artist to the undertaking.

The work covers nearly 20,000 feet of canvass—the figures are in life size, and the whole executed in the highest style of Art. With the interesting subject is combined every variety of Panoramic Painting, with Diaric effect.

May we rely upon your efforts to extend its influence?

Very Respectfully, &c., D. S. SIMPSON, Agent.

The following letter from REV. S. THURSTON, D. D. of Searsport, will explain:—

I have had the pleasure of witnessing the exhibition of Mr. Andrieu's new Panorama, styled 'The Rake's Progress.'

While I am no professed critic in the fine arts, I cannot suppress the opinion that it is a work of great artistic merit, showing in its conception and execution distinguished ability. Some of the scenes represented appear to me exceedingly fine.

The 'Drunkard's Family' is a picture of extreme wretchedness. The 'Fashionable Saloon' is a splendid representation of one of those fashionable places where are nurtured appetites that lead to ruin. 'The Farm in the West,' in both its states, is very life-like. In its improved condition, with its surroundings, the artist has given us a landscape of surpassing beauty. Then the scenes of the Governor's Inauguration are exceedingly rich. And the two Diaric representations are highly artistic and striking.

But while admired as a work of Art, the Panorama derives its chief value from the moral lessons it conveys. The declining progress of the young man in fashionable life—the wretchedness he inflicts upon a confiding family, and his miserable death afford an impressive warning against the first glass, and the first steps towards dissipation; while the rising career of the drunkard's son, and his honorable career, illustrates the value of temperance principles and resolute industry, and are fitted to stimulate young men of insouciant beginnings to noble aims and efforts. If the painting does not impress these lessons and exert a salutary influence, it will prove that men are slow to learn wherein lies their true interest.

My best wishes go with Mr. Andrieu, that he may reap large benefits to himself, and bestow them upon the community by exhibiting this new work of art.

SEARSPORT, Aug. 6, 1858. S. THURSTON.

P. S.—The artist has received numerous other letters from distinguished gentlemen (and ladies also) who have witnessed his exhibition.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in constipation, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Carter, of New Orleans. "Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City. "Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any other remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA—INDIGESTION.

From Dr. Henry J. Knox, of St. Louis. "The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY—DIARRHŒA—RELAX.

From Dr. J. G. Green, of Chicago. "Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practices as a Physician and Midwife in Boston. "I find one or two large doses of your PILLS, taken at the proper time, are excellent promoters of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION—COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada. "Too much cannot be said of your PILLS for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although laid enough in itself, is the progenitor of others that are worse. I have witnessed it originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD—SCROFULA—ERYSIPELAS—SALT RHEUM—TETTER—TUMORS—RHEUMATISM—GOUT—NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia. "You were right, Doctor, in saying that your PILLS purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system."

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&c.

From Dr. Edward Boyd, Baltimore. "DEAR DR. AYER: I cannot answer you what complaints I have cured with your PILLS better than to say that they ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it is under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INFLUENZA, CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurances of intelligent physicians, whose business it is to know; in short, if there is any reliance upon any thing, then it is irrefragably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures too numerous and remarkable to be forgotten.

A MARVELLOUS REMEDY!

For a Marvellous Age!!

HOLLOWAY'S OINTMENT.

The Grand External Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidney, disorders of the Liver, affections of the Heart, Inflammation of the Lungs Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by any means.

Erysipelas, Rheumatism and Scorbatic Humours.

No remedy has ever done so much for the cure of disease of the Skin whatever form they may assume, as this Ointment. Scabby, Sore Heads & Scrofula, or Erysipelas cannot long withstand its influence. The inventor has travelled over many parts of the globe visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds & Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings and tumours. Professor Holloway has despatched to the East, large shipments of this Ointment to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs	Corns (Soft)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore-throats
Bite of Mosquitoes and Sand Flies	Fistulas	Skin-diseases
Coco bay	Gout	Scurvy
Chiegs-foot	Glandular Swellings	Sore-heads
Chilblains	Lumbago	Tumours
Chapped hands	Piles	Ulcers
		Wounds
		Yaws
