

the Derby Cabinet seems doubtful. His lordship is a very clever but somewhat eccentric statesman, and very apt to act independently of the opinions of others.

The Supreme Court closed its sittings after Easter Term on Tuesday, the 25th ult., after a fortnight's Session. Owing to the protracted Session of the Legislature very few causes were tried, many of those on the Docket going over till next term.

We learn by late telegraphic despatches from New York, the following items of European intelligence:—

By the Steamer City of Washington, with dates to the 12th inst.

Cotton Market firm, with advance of 1/2. Breadstuffs—market dull. Sugar dull.

INDIA.—The Calcutta Mail of April 9th had arrived. Lucknow was perfectly tranquil. The hot weather had commenced. A campaign in Rohilkund was considered inevitable.

The fourth Bengal Light Cavalry, 160 strong had been brought to court martial—sixty sentenced to be hanged, remainder to be transported for life.

CHINA.—Lord Elgin had reached Ningpo. Ministerial crisis in England regarded imminent.

A resolution has been passed in the House of Commons, censuring the Government for the publication of their despatch to the Governor General of India, with regard to his proclamation to the people of Oude. Lord Ellenborough assumed all the responsibility and resigned. His resignation had been accepted.

The Oaths Bill as amended by the Lords had been taken up. Lord John Russell moved that the amendment be not agreed to, and a clause admitting Jews to Parliament be restored. Motion carried, 263 to 150.

A motion to admit Baron Rothschild a member of the Committee appointed to draw reasons for disagreeing with the Lords on their amendment to the Oaths Bill was carried 251 to 196.

All the wire of the Atlantic Cable has been coiled on board the Agamemnon and Niagara. The ships were expected to leave on the 25th of May.

By the steamship Africa with dates to the 15th inst.

Breadstuffs declining. News from India one week later, but unimportant.

Resolutions moved in the house of Lords for censuring Government were rejected by a majority of nine.

Debate in the house of Commons still pending.

General Intelligence.

Foreign and Domestic.

THE CITY COUNCIL have decided to recommend a PUBLIC HOLIDAY on the 8th of June, and the closing of places of public business. They have also agreed to a memorial to Her Majesty the Queen, respecting the Bill for the assessment for the Railway.

The Episcopalians belonging to St. Paul's Church congregation have agreed to form a division of their parish, making that portion south of Morris Street the new parish of St. Luke's. This will constitute St. Luke's Church no longer a Chapel of Ease, but the parish will have the honour of nominating their own Rector.

The schooner Seaman's Bride, purchased by the Home Government for the survey of the coast of Nova Scotia, left here yesterday morning for the prosecution of this service, under the command of Captain Shortland.—We believe it is the Captain's intention to winter either at Saint John, N. B., or Annapolis, N. S.—Sun.

THE RAILWAY.—ANOTHER ACCIDENT has occurred which will, we fear, defer the opening of the Railway.

A new powerful Locomotive intended for the Nova Scotia Railway was washed overboard from the deck of the Schr. Junieta on her passage from Portland to Halifax, in the gale of Monday night the 24th. It was insured for \$8,000.

Those locomotives at present on hand are not considered of sufficient power for drawing freight cars over Ardoise Hill.

We learn that on Thursday last a locomotive passed over the parts recently finished. The Commissioners expected to go over the line on Monday last.

A steam engine is to be used in constructing the bridge over the Shubenacadie on the Truro line.

A gentleman at the Magdalen Islands, writing to a friend in Pictou on the 22nd inst says:—"This has been a great season for herring. About two hundred vessels have been here, and it is thought that over 200,000 barrels have been taken."

We learn by the Express that a MARINE RAILWAY, is about to be constructed on the point of land jutting out into the harbour south of the steamboat at Dartmouth. Mr. Hiram Smith, an American Engineer of some celebrity, has examined the site and pronounced in favour of it. Doubtless the commercial community are fully alive to the importance of this undertaking, and will give it that encouragement which it deserves. The probable success of the project has been frequently discussed, and its paying properties pretty well ascertained. A. F. Pillsbury, Esq., American Consul, together with a few of our enterprising citizens, are taking an active part in the matter.

James B. Sawyer, Esq, (son of Sheriff Sawyer of this city) has been appointed sub-collector of colonial revenue at Placentia, N. F., in place of Wm G. Bradshaw, Esq, deceased.—Express.

DISGRACEFUL.—Some miscreant on Friday evening 21st inst, cut the telegraph wire on Mount Thom., 61 miles from Pictou, and carried away about 100 feet of it. The line could not be repaired until Saturday evening, and very great inconvenience was in consequence experienced by several persons who were depending upon the telegraph as a medium of business communication. A liberal reward is offered by the directors of the Telegraph Company for the conviction of the criminal.—Eastern Chronicle.

MACKEREL.—Immense quantities of Mackerel have been on the coast during the last week, along the South Western shore. A considerable number were taken at several places along the shore of Halifax county. The great bulk of them, however, passed on Eastward. We trust the deferred hopes of our fishermen may now be realized, and that the want they have been suffering may be removed and they may have all their wants supplied.

We are informed that the catch of Herrings on the North Shore is greater this season than it has been for several years. A gentleman who was at the Little Cape a few days since informs us that Herrings could be purchased at 4d. per hundred. Salt was very scarce. One man had thrown about 20 barrels on his land, not having salt to cure them.—Sackville Borderer.

Mrs. John Moren, of Wallace, retired to rest on Tuesday evening, the 18th inst., apparently in the enjoyment of good health, but in less than half an hour afterwards she was a corpse.

RATHER AN UNENVIABLE SITUATION.—One day last week, we are told, a Micmac whilst travelling through the country south of Rosette, encountered no less than five bears, one of which was of mammoth size. We could not obtain particulars, though anxious to do so; we believe, however, he succeeded in making the larger one bite the dust, by a ball from his rifle, and wounding two others. Another of these troublesome customers, we have heard, was captured near Aylesford lately.—Bridgetown Examiner.

We are glad to perceive in many places around here, that our farmers are doing away with the unsightly pole fences, and substituting board thereof. This is as it should be, and shows a desire on their part for improvement. We hope, ere long that the pretty board fencing, or hedging, will be universally adopted.—lb.

FIRE AT BADDECK.—On the night of the 13th inst, John Campbell, Esq., and Mr. Malcolm Campbell, retired from their shop about half-past eight o'clock, P. M., leaving all matters safe; but about half-past 3 o'clock, A. M., of the 14th inst, a fire broke out in an outer store where no fire had ever been kept, and so fiercely that all exertions to stop the flames were useless. Loss about £1,600, partially covered by Insurance.—C. B. News.

The Roman Catholics at the Acadian settlement, Bell's Creek, are about to build a new Chapel there—the Contracts for which have been already accepted.—lb.

On Saturday last, Daniel McIntyre, and Curry, of Glace Bay, met a watery grave, by the upsetting of a boat, in which they had been employed baiting their "Trout lines." A Coroner's Inquest was held on the body of McIntyre—the only one of the two whose mortal remains had been recovered. By this melancholy event two families are left bereaved and in destitute circumstances.—lb.

FIRE!—The Barn of Mr. John Purney was consumed by fire early yesterday morning. It contained a quantity of hay, farming implements, &c. &c. Loss about 60 or £70.—Yarmouth Herald.

The store of Mr. William F. Brown, at Montague, was nearly destroyed by fire on Monday night last, and the goods all burnt or much damaged. Loss about \$600. No insurance.—lb.

19 guns were fired on the return of the Yarmouth Members.

P. E. ISLAND.—We perceive by a despatch from New York that a resolution has passed the Imperial Parliament, granting one hundred thousand pounds to Prince Edward's Island, at a rate of interest not to exceed 4 per cent. The object of this grant, it appears, is to purchase the large Estates so long held by non-residents, by which improvements on the Island have been so much retarded. We shall be glad to hear of its supplying our neighbours with a large amount of the circulating medium.

MODERN skill has culminated in Ayer's Pills. Invention did its best in this production. A masterly art has combined the subtle essences of remedials into a compound that penetrates to the foundations of disease, and expels the very seeds of disorder from the blood. Such a remedy was needed and since we have it we want our readers to know what it is.

A SURE CURE FOR A FELON.—When the soreness first commences, or even when far advanced, it can be relieved and entirely cured by holding the finger or part afflicted in Perry Davis' Pain Killer for half an hour. It has been thoroughly tested, and proves a never failing remedy. A felon is a troublesome thing, and we would advise all so troubled to test the remedy.

PERRY DAVIS' PAIN KILLER.—The thousands who have been relieved, as well as the thousands who have the most unbounded confidence in Perry Davis' Vegetable Pain Killer will read among our special notices this week, another of the additional evidences of the power of the application. We are doing an act of humanity, when we urge every family to possess themselves of it.—Buffalo Christian Advocate.

For sale by most of the medicine dealers throughout the world. Morton & Cogswell, and John Naylor, Agents, Halifax, N. S.
