

European & Foreign News.

INDIA.

The following by telegraph was received from Alexandria June 8th.

Bareilly was occupied by the Norkes, under the Commander-in-Chief, on the 7th of May. Very little resistance was offered, the garrison having dispersed on our approach.

Oude is also becoming quiet, and the landholders are tendering their submission.

Sir Hope Grant, with a strong force, guards the road between Cawnpore and Lucknow. Sir Hugh Rose advanced on Komos on the 7th of May, and completely defeated the enemy, killing 700 and capturing seven guns.

The disarming proceeds quietly in Western India.

The Commander-in-Chief occupied the cantonments the same day, having defeated the rebels at the Nuteza-bridge on the 5th.

On the 7th the whole of the city was in our hands.

Khar Bahadur and the Nena had escaped. Feroze Shah was said to have fallen.

The reported death of General Penny is confirmed. His column joined the commander-in-Chief during his advance upon Bareilly. The general himself fell on the 4th of May by grape-shot from guns on the road. The guns were taken by a charge of Carabineers.

Sir Hugh Rose, after defeating the Calpee rebels at Koonah (killing 400 or 500 men), marched to Calpee, and was at Gorake on the 8th.

A conspiracy has been discovered and suppressed in the wing of the 4th Bengal Native Infantry at Hoshiarpore, Punjab; six of the conspirators have been hanged. The wing had been sent to Jullundur.

According to French official reports, the condition of the English forces in India is such as to demand for a time the suspension of hostilities. Sir Colin Campbell asks for considerable reinforcements to be ready for operations when the hot season is over. He then calculates on finally crushing the rebellion.

FRANCE.

Marshall Baraguay d'Hilliers, who is now making a tour of inspection in the districts under his command, arrived in state last week at Nantes. He was received by the mayor, to whom he addressed a speech, in which he said, "Out of the pale of the empire there is no salvation for France. With the empire, on the contrary, there is for the country nothing but glory, prosperity, and honour. Let us therefore all unite to defend the empire and the Emperor."

The Moniteur has the following:—"The Emperor has had the pious idea of securing to France the possession of the habitation where the Emperor Napoleon I. ended his days, and of the tomb where his ashes repose. Associating itself with the august solicitude of his Imperial Majesty, the Legislative Corps has voted an extraordinary credit of 120,000 francs to be placed at the disposal of the Department of Foreign Affairs. The acquisition of those precious ruins is now an accomplished fact. On the 18th of March last a decree passed by the Legislature of St. Helena, and ratified on the 7th of May following by an order of the Queen of England, conferred upon the Emperor of the French, and his heirs for ever, the absolute right of property in the domain of Longwood and of the tomb of Napoleon I. Thus, thanks to the willing intervention of the Government of her Britannic Majesty, those sacred localities where incomparable destinies were fulfilled belong henceforth to France.

The following official notice appears in the Moniteur:—"About three months since the English journals pretended that the French Government was preparing extraordinary armaments. The Moniteur has contradicted the fact; the same assertions are now being renewed; we repeat our contradiction. The land and sea forces, settled a year ago for the budget of 1858, have not been increased."

With reference to this The Daily News correspondent says:—"It is notorious that the Mediterranean squadron has recently been augmented from eight to fourteen vessels, that 40,000 extra recruits were called out this spring, and that immense armaments far beyond what the defences of the country require, are going on, and have long been going on, not only at Cherbourg, but in every military port of the empire."

The Times' correspondent says:—"The News which I sent you some three months ago, that all the infantry regiments of the French army would be armed with rifles, is now confirmed by the Moniteur de l'Armee. The change is to be made with all speed. Orders have been given for the manufacture of 400,000 new rifles."

It is said that the military authorities have decided that it is not expedient to institute any legal proceedings against the military men engaged in the late duel in which M. de Pene was wounded, the civil authorities have negated the proceedings against the civilians.

ITALY.

The official Piedmontese Gazette announces that the King of Naples consents to the restitution of the Cagliari and the liberation of her crew. On Tuesday last, Count Carata replied to Lord Malnesbury's ultimatum. The King of Naples will pay the indemnity, 3,000,000, demanded for the engineers, and has given orders immediately to deliver up the Cagliari and her crew to be placed at the disposal of the English envoy, Mr. Lyons.

THE EMPEROR OF THE FRENCH AND THE COLPORTEURS.—A singular edict has appeared in the Moniteur relative to the circulation of books and pamphlets by the colporteurs, the individuals so much employed by our English Bible Society. This edict sets out with the assertion that 8,000,000 of immoral books were dispersed over the rural districts of France by 10,000 hawkers "about the year 1847," that is to say, before the happy period when a revolution prepared that country for its present ruler, "This was the consequence," we are told, "of the imprudent neglect that is adorned with the name of liberty." For six years the Imperial Government has sought to abate the plague, and not being so successful as could have been wished, severe measures are to be adopted. "It is the duty of the administration," we read, "to prevent foreign societies, possessed of considerable resources, from despatching agents to France with the view of producing agitation." We hope this does not mean that the Bible is the next danger to be apprehended in the land of Fenelon. At all events, it pretty clearly shows that the Emperor has a compact with the French clergy which may involve his retention of power.

JEWELS FROM LUCKNOW.—We learn that a lady residing at Clifton, the wife of a gallant major at present serving in India, has received a letter from her husband, which gives a glowing account of the treasure seized by our troops at Lucknow. As an earnest of his own success, he has sent her home a necklace of splendid pearls and some emeralds, one of which is believed to be of large value. The gems are in a comparatively rough state, the emeralds having been ignorantly and, we almost said, mercilessly drilled through. The letter speaks of a corporal in the gallant officer's regiment having got a bracelet which will probably be worth from 100,000l. to 200,000l. Another letter from a younger officer received at Clifton, states that the writer has got three superb embroidered shawls of rare workmanship and great price.—Bristol Mercury.

The Times' Naples' correspondent continues his reports of the eruption of Vesuvius. Writing on the 8th inst., he describes a vast bed of burning metallic-looking coke, 800 feet wide, sweeping down over smiling vineyards, carrying everything before it. The eruption is said to be on the decline. The whole scene is described as full of terrific grandeur. No life has yet been lost. A child who had fallen asleep was rescued just as the stream of lava was close upon it.

In the course of a lecture in the Theatre of the College of Surgeons, on Thursday week, Dr. Brown Sequard stated that he had found a spot in the brain, the point of the "pen" of the calamus scriptorius, not larger than the head of a pin, which, if touched, is instant death, as sudden as lightning. All the other parts may be cut or carved with impunity.

We are informed upon reliable authority that the trial of Dr. Bernard cost the Government no less a sum than 30,000l.

"Buy Me and I'll Do You Good." NOW IS THE TIME TO USE THE GREAT SUMMER MEDICINE.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c.—all of which are so compounded as to act in concert and assist Nature in eradicating disease.

The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life and vigour, purifying the blood, cleansing it from all humours, and causing it to course anew through every part of the body. They cure and eradicate from the system Liver Complaint—that main-wheel of so many diseases—Jaundice in its worst forms, all Billious Diseases and Foul Stomach, Dyspepsia, Costiveness, Humors of the Blood and Skin, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pain in the Side and Bowels, Flatulency, Loss of Appetite, and all kindred complaints caused by a torpid or diseased Liver, a disordered stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

If taken in large doses, Fever and Ague may be cured at once. This has become a standard medicine, and is decidedly the best the world ever saw.

Price 25 cts. the pint and 37 1/2 cts. the quart bottle. Orders may be addressed to GEO. C. GOODWIN & CO., or to G. E. MORTON & CO., Halifax, Wholesale Agents. June 30. 3 mths.

J. M. MARGESON, PHOTOGRAPHER.

(Opposite east side Province Building.)

MINIATURES taken daily, without regard to weather, in the finest style of the Art. Copying done in a superior manner.

GAMMELL & TUPPER.

Halifax June 29th, 1858.

IMPORTANT WORKS

RECENTLY PUBLISHED.

Analytical Concordance of the Holy Scriptures; or, THE BIBLE PRESENTED UNDER DISTINCT AND CLASSIFIED HEADS OR TOPICS. By JOHN EADIE, D.D., L.L.D. Price 15s.

No Biblical Student would willingly dispense with this Concordance when once possessed. It is adapted to the necessities of all classes,—clergymen and theological students; sabbath school superintendents and teachers; authors engaged in the composition of religious and even secular works; and, in fine, common readers of the Bible, intent only on their own improvement.

The purchaser gets not only a Concordance, but also a Bible, in this volume. The superior convenience arising out of this fact,—saving as it does, the necessity of having two books at hand, and of making two references, instead of one,—will be readily apparent.

A Commentary on the Original Text of the Acts of the Apostles. By HORATIO B HACKETT, D.D., Prof. of Biblical Literature and Interpretation, in the Newton Theo. Inst. Price 11s. 3d.

This most important and very popular work has been thoroughly revised; large portions entirely rewritten, with the addition of more than one hundred pages of new matter; the result of the author's continued, laborious investigations and travels since the publication of the first edition.

The Epistle of Paul to the Romans. With Notes, chiefly Explanatory. Designed for Teachers in Sabbath Schools and Bible Classes, and as an Aid to Family Instruction. By HENRY J. RIPLEY, Prof. in Newton Theo. Inst. Price, in cloth, 4s.

Our Little ones in Heaven. Edited by the Author of "The Aimwell Stories," &c. Price 2s. 6d.

This little volume contains a choice collection of pieces in verse and prose, on the death and future happiness of young children.

The Greyson Letters. Selections from the Correspondence of R. E. H. Greyson, Esq. Edited by HENRY ROGERS, Author of "The Eclipse of Faith." Price 6s. 3d.

Full of acute observation, of subtle analysis, of accurate logic, fine description, apt quotation, pithy remark, and amusing anecdote. . . . A book, not for one hour, but for all hours; not for one mood, but for every mood; to think over, to dream over, to laugh over.—Boston Journal.

The Letters are intellectual gems, radiant with beauty and the lights of genius, happily intermingling the grave and the gay.—Christian Observer.

The Old Red Sandstone; or, NEW WALKS IN AN OLD FIELD. To which is appended a Series of Geological Papers, read before the Royal Physical Society of Edinburgh. By HUGH MILLER, L.L.D. A new, improved, and enlarged edition. Price 6s. 3d.

Altogether possessing, for a rational reader, an interest superior to that of a novel.—J. P. Smith, L.L.D. "I know not a more fascinating volume in any branch of British Geology."—G. A. Mantell, L.L.D.

CHRISTIAN MESSENGER Office, Halifax. June 30.

THE NEW YORK PULPIT, in the Revival of 1858.

Being Sermons preached in New-York and Brooklyn during the past Winter, by twenty-five distinguished Pastors.

1 vol. 40 pages. Price \$1. Five thousand copies have been sold in three weeks.

Fourth Series of Sermons of the Rev. C. H. Spurgeon. 1 vol., 12mo. Price \$1.

Uniform with Series One, Two, and Three, and "Saint and his Saviour."

Select Discourses, TRANSLATED FROM THE FRENCH AND GERMAN. By the Rev. H. C. Fish and D. W. Poor, D.D. 1 vol., 12mo., about 400 pages. Price \$1.

Embracing twenty-five of the choicest discourses of Adolphe Monod, F. W. Kraunacher, Aug. F. G. Thielen, and Julius Muller, with Dr. Monod's celebrated lecture on "The Delivery of Sermons," and a fine Steel Portrait of the Author.

The Life and Mission of Woman. By ADOLPHE MONOD, D.D. Translated from the French. 12mo. 82 pages, with a Portrait from Steel. Price 50 cents.

Glimpses of Jesus; or CHRIST EXALTED IN THE AFFECTIONS OF HIS PEOPLE. By the Rev. W. P. BALFERN, of England. 18mo., 267 pages. Price 60 cents.

This is an excellent book for young converts and inquiring minds.

Olshausen's Commentaries on the New Testament. Edited by A. C. KENRICK, D.D. Now complete in 6 vols. Price in cloth, per volume \$2; Library sheep, \$4.25; Half calf, \$3.

SHELDON, BLAKEMAN & CO., PUBLISHERS, No. 115 Nassau-st., N. Y.

June 30.

A LARGE Assortment of Religious Tracts, in packets, at 1s. 3d. per packet.

"Christian Messenger" Office.

GEORGE FRASER. Halifax, July 7th, 1858. I m.

COMPLETE DENTAL ESTABLISHMENT.

DRS. MACALLASTER & PAINE,

Surgeon Dentists,

49 Granville Street,

(At the Sign of the Golden Tooth.)

RESPECTFULLY announce to their patrons, friends, and others, that they are fully prepared to treat any case in Surgical or Mechanical Dentistry, in the most approved manner.

ARTIFICIAL TEETH, from one to an entire Set, inserted on the improved "Atmospheric Pressure" principle, without the use of Springs or Clasps, or in any other style known to the Dental profession.

Beautiful specimens of PLATE WORK, on Gold and Silver, may be seen at their rooms, which for style, finish, and durability, they believe cannot be surpassed.

FILLING TEETH.—This is the most certain and only sure remedy for Carious or Decayed Teeth. When the operation is performed before the vitality of the tooth is injured its preservation may be regarded as certain.

By the use of a new preparation of Adhesive Gold a tooth is not only arrested from further decay but it is restored to its original form and utility.

CLEANSING TEETH.—There is nothing that will be so sure to destroy the teeth as to allow the tartar to remain around their necks, for it sooner or later works its way under the gums, loosening the teeth and causing their premature loss. The tartar can always be removed, restoring them to their original colour and whiteness.

EXTRACTING TEETH.—Experience has taught them that the best and surest way of Extracting is by the application of well made forceps nicely adapted to the shape and condition of the tooth to be removed. The superiority of their new instruments (manufactured expressly for them) over those in use previously, is acknowledged by all for whom they have operated.

THE BENUMBING PROCESS.—By the application of a benumbing agent, the principal Element of which is ice, they are enabled to produce a local insensibility in the region of the tooth to be extracted, thereby rendering the operation painless, or nearly so. This new process has been in practice nearly three years, and they believe is destined to supersede the use of chloroform, which has proved fatal in many instances.

The Proprietors of this Dental Establishment (the largest and most complete in the British Provinces) will always be happy to explain their different methods of inserting Artificial Teeth, and they would here improve the opportunity of returning thanks for the liberal patronage they have received, and hope, by keeping pace with the improvements in the profession, to deserve a share of public consideration, and the continuance of that class of patronage with which they have thus far been honoured.

Halifax, July 7th, 1858.

CERTIFICATE.

HAVING taken a heavy cold about four years ago, it settled on my legs up as far as my hips, and in a short time I lost the use of them so as not to be able to move one foot before the other and at last not to be able to move any part of my legs without assisting them, consequently I became partially confined to my bed; then the spine became affected and during three years that I was thus afflicted I had the best medical advisers and also made use of all the medicines said to be beneficial in such cases, but instead of getting better I got worse and though but a young man I came to the conclusion that I should have to linger out my days in impotence and suffering, as there seemed to be no help for me. I had given up in despair when I heard of a man of about my age and afflicted much in the same manner was cured at Mills Village, in Queens County, by LAWRENCE N. YOUNG, BOTANIC PHYSICIAN of that place. I wrote immediately to him and he came to see me, and what shall I further say or how shall I publish enough his time, for after attending me a few months with his Medical Inventions and Medicines, I am able to walk about, and in a short time more will, under the blessing of God, in the use of means be able to attend to my business. I would say that if there is any person afflicted with the same complaint as mine, or who have lost the use of any of their limbs in the same way, I firmly believe they would get relief by securing the services of Lawrence N. Young.

ISAAC HUBLY, St Margaret's Bay, 7th May, 1858.

This is to certify that I have been acquainted with Isaac Hubly before and since his sickness and think his being cured one of the most extraordinary cases of cure I have ever seen.

JAMES WALKER, Deputy Land Surveyor, St Margaret's Bay.
