Ayer's Pills
 Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.
 Subjoined are the statements from some eminent physicians, of their effects in their practice.
 AS A FAMILY PHYSIC.
 From Dr. E. W. Cartwright, of New Orleans.
 "Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."
 FOR JAUNDICE AND ALL LIVER COMPLAINTS.
 From Dr. Theodore Bell, of New York City.
 "Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."
 DYSPEPSIA — INDIGESTION.
 From Dr. Henry J. Knox, of St. Louis.
 "The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion, with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."
 DYSENTERY — DIARRHOEA — RELAX.
 From Dr. J. G. Green, of Chicago.
 "Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children."
 INTERNAL OBSTRUCTION — WORMS — SUPPRESSION.
 From Mrs. E. Stewart, who practices as a Physician and Midwife in Boston.
 "I find one or two large doses of your PILLS, taken at the proper time, an excellent promotor of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."
 CONSTIPATION — COSTIVENESS.
 From Dr. J. P. Vaughn, Montreal, Canada.
 "Too much cannot be said of your PILLS for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although had mostly in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your PILLS affect that organ and cure the disease."
 IMPURITIES OF THE BLOOD — SCROFULA — ERY-SIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.
 From Dr. Ezekiel Hall, Philadelphia.
 "You were right, Doctor, in saying that your PILLS purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.
 "Such remedies as you prepare are a national benefit, and you deserve great credit for them."
 FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS — &c.
 From Dr. Edward Boyd, Baltimore.
 "DEAR DR. AYER: I cannot answer you what complaints I have cured with your PILLS better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."
 "Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever."

Ayer's Cherry Pectoral
 Was long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, GHOEP, WHOOPING COUGH, BRONCHITIS, INCRIPENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business it is to know; in short, if there is any reliance upon any thing, then it is irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtue, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never forget, and produced cures too numerous and remarkable to be forgotten.

Prepared by Dr. J. C. AYER,
 PRACTICAL AND ANALYTICAL CHEMIST,
 LOWELL, MASS.
 AND SOLD BY
 MORTON & COGSWELL, HALIFAX.

J. M. MARGESON,

WETMORE, VAUX & McCULLOCH,
 No. 12 GRANVILLE STREET.
 Nov. 17.

THE FINE ARTS.
The Works of the European Great Masters reproduced for every one.
"STUDIES FROM THE GREAT MASTERS"
 in all the beauties of Oil Colour and Shading of the original Paintings, with Illustrative descriptions. Imperial Quarto. By WILLIAM DICKES, London.
 These elegant works of Art are suited either to ornament the Drawing Room Table, or, framed, to constitute a Gallery of High Art.
 The Works of Carracci, Hess, Correggio, Murillo, Guercino, Sir Joshua Reynolds, Titian, Rubens, Rembrandt, De Vinci, Raphael, Michael Angelo, Perugino, Massaccio, and Giotto will, as this work progresses, be reproduced.
 As each part is complete in itself, no fear of diminished interest need be entertained from its serial appearance once a month.
 "The work before us is an attempt, and a successful one, to produce coloured copies of works by the great painters, which shall be worthy to lie on the drawing-room table of the amateur, and yet be cheap enough to find a place in the cottage of the mechanic. A copy is given, about 8 1/2 inches by 6 1/2, of a picture by Correggio or Guido by Reynolds or Hess, in which the drawing light and shadow, and colour are all carefully and, broadly speaking, correctly rendered.
 "The plates before us are copies of oil-paintings, and by a kind of glazing of the shadows something of the depth as well as transparency of oil is given. The process by which they are produced must necessarily be a simple one, and admit of rapid working, to allow pictures of so much excellence to be sold at so low a price. We understand that a large sum of money has been embarked in the enterprise; and besides money and mechanical skill, artistic knowledge has been embarked also. Being fully assured that whatever tends to popularise Art, to put within the reach of the humbler classes works not merely of a high order of excellence, but such as they can appreciate and enjoy, deserves the support of all who wish to see refinement more generally diffused, we are anxious to commend the "Studies of the Great Masters" to the notice of our readers.
 "The first plate is from the 'Ecce Homo' (or, as it is here called, the 'Christ crowned with Thorns'), of Guido, which was bequeathed to the National Gallery by the poet Rogers. The force of the expression, the depth and vigour of the colour, and the broad sketchy treatment, are very fairly rendered. The second plate is the 'Infant Samuel' of Sir Joshua Reynolds, a work the homely simplicity of which will always make it a popular favourite, whatever be its fate with the professors of aesthetics. Quite in a different style, and more elaborate, is the plate after the 'Christ Blessing Little Children' of Hess. Here we have one of the leading works of the modern German school; a composition of seventeen figures on a gold background, instead of the depth of tone of the former plates, we have in this the dry severity of the modern fresco. The next plate is a reproduction of Correggio's well-known 'Holy Family' (the 'Vierge au Panier'), one of the gems of our National Gallery. Hardly would Doo's engraving we fancy if hung on the cottage-wall, so vividly revive the recollection of a visit to the National Gallery, so effectually appeal to the imagination and the sympathy of the great class to whom even the occasional sight of a painting of a high order is a luxury.
 "We know of nothing that would so 'glorify the room' (to borrow one of Sydney Smith's happy expressions) as to hang up a good copy — as nearly as might be colour for colour, tint for tint, light, shadow, expression, each and all as in the original, — of one or other of the best works of Correggio or Raffaele, of Titian or Cornelius, of Perugino or Reynolds, of Tintoretto or of Turner, of Reubens or of Landseer, of Marillo or of Scheffer, according as the owner's taste should lead him to prefer form or colour, divine expression or homely truth, poetic grandeur, or prosaic accuracy.
 "In the parts before us all the subjects selected are scriptural. A fair sprinkling of secular subjects will be given in future numbers.
 "The prints are not only surprisingly cheap, and at the price surprisingly good; but they would be, even at a much higher price, very creditable performances. Both the artist (Mr. Dickes) and the publishers deserve every praise for the style in which they are produced, and we heartily wish their speculation good speed."
Literary Gazette.
 Each part contains two of these rare pictures, with description, in a handsome wrapper. Price 3s. cur., or four copies of the same number for 10s.
 The first three No's. have arrived.
 Only a few spare copies have been as yet imported.
 Nov. 24. "CHRISTIAN MESSENGER" Office, No. 49 Granville Street, Halifax.
