Also, an assortment of GOLD LOCKETS: a fine article. Perfect satisfaction given in every case. #1 Rooms, 36 Hollis Street.

May 5.

Ayer's Pills Are particularly adapted to

derangements of the digestive apparatus, and diseases arising from impurity of the 14ood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varicties of disease.

Subjoined are the statements from asme eminent physicians, of their effects in their practice.

As a FAMILY PHYSIC. From Dr. E. W. Cartwright, of New Orleans, "Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels. which makes them invaluable to us in the daily treatment

FOR JAUNDICE AND ALL LIVER COMPLAINTS. From Dr. Theodore Bell, of New York City. "Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilions complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy

the confidence of the profession and the people." Dyspersia - Indigestion.

From Dr. Henry J. Knoz, of St. Louis. "The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dys pepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experi-mentally found them to be effectual in alm set all the complaints for which you recommend them."

DYSENTERY - DIARRHOLA -- RELAX.

From Dr. J. G. Green, of Cascago. "Your Pills have had a long trial in my practice, and I hold them in esteem at one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysculery and diarrhoa. Their sugar coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION-WORMS-SUPPRESSION. From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other

CONSTIPATION - COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada,
"Too much cannot be said of your Pills for the cure of
costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the pro-genitor of others that are worse. I believe costiveness to originate in the liver, but your PILLS affect that organ and

IMPURITIES OF THE BLOOD - SCROPULA - ERY-SIPELAS - SALT RHBUM - TETTER - TUMORS - RHEUMATISM - GOUT - NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia. "You were right, Doctor, in saying that your Phils purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE - SICK HEADACHE-FOUL STOM-ACH-PILES-DROPSY-PLETHORA-PARALYSIS

-Firs - &c. From Dr. Edward Boyd, Baltimore,

"DEAR DR. Asset Leannot snewer you what complaints. I have cured with Pries better than to say all that we ever treat with a purpatric medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pries afford us the best we have, I of course value them highly." Most of the Pills in market contain Mercury, which

although a valuable remedy in skilful hands, is dangerou in a public pill, from the dreadful consequences that fre quently follow its incautious use. These contain no merce ry or mineral substance whatever.

Ayer's Cherry Pectoral

ias long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable acceracy and care. It is sealed and protected by law from coun terfeits, and consequently can be relied on as genuing without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary co plaints; for Coughs, Colds, Hoarseness, Astrina, Cho WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, & for the relief of consumptive patients in advanced stages the disease. As time makes these facts wider and bet known, this medicine has gradually become the best reance of the afflicted, from the log cabin of the America peasant to the palaces of European kings. Throughot this entire country, in every state and city, and indeed most every hamlet it contains, Charar Protoral is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used y their most intelligent physicians. If there is any departence on what men of every station certify it has done in them; if we can trust our own senses when we see the degerous affections of the lungs yield to it; if we can deped on the assurance of intelligent physicians, whose busines is to know; in short, if there is any reliance upon ay thing, then is it irrefutably proven that this medicine descure the class of diseases it is designed for, beyond any adall other remedies known to mankind. Nothing but itentrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain he reputation it enjoys. While many inferior remedies are been thrust upon the community, have failed, and benefits on the afflicted they can never forget, and produced ourse too numerous and remarkable to be forgotten. them; if we can trust our own senses when we see the de-
