The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before, By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor, - health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce. but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint: see his bent-up tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give thein to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry hunfors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again - the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physicia. if you can; if not, take them judiciously by such advice as we give you, and the distressing, danger-ous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old - they must burrow in the brutes and in the sea. Price 25 cents per box - 5 boxes for \$1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accom-plishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a

As each part is complete in itself, no fear of diminished interest need be entertained from its serial appear-

ance once a month. "Time was, when picture galleries and statuary were not for all-but the exclusive privilege of the rich; and the idea of a poor man having any taste for the fine arts was deemed an entire mistake. But that time has now quite passed: the middle and lower classes have shown that they know fully how to derive from them both delight and improvement.

"Nothing has more strongly tended to keep alive this love and appreciation of what is beautiful, than the periodical issue of prints and engravings in a form and at a price within the reach of many thousands who have no opportunity of visiting the great public collections of paintings. Mr. Dickes has, therefore, done good service to Art by the issue of "STUDIES FROM THE GREAT MASTERS." The Series is to comprise specimens of the greatest among ancient and modern painters, and every picture is accompanied by explana-tory letter-press of an interesting and valuable kind.

"If good paper, good print, and beautiful pictures can command a sale, this publication will be eminently successful. A volume of such numbers, when complete, will form a picture gallery of high merit, at a small cost."—Bath Chronicle.

"We noticed the first instalment of this new serial some little time since. The Part before us (Part III.) contains 'Christ in the Tomb,' from Guercino's impressive picture in the National Gallery; and, as a promise of the secular school Stothard's 'Schoolmistress." The powers of the colour-printing process have seldom been more conspicuously displayed than in these very beautiful specimens of the Art."—Weekly Dispatch.
